Parent-Teacher Group Entertained By Chorus; Techniques Explained

Mrs. J. A. McDougall, president, announced appointment of the committee which will nominate officers for the coming year. Members of the committee are Mrs. R. D. Church, Mrs. C. Denman and Glenn Linn.

Mrs. Dick Bernard announced that open house would be held at the high school Wednesday, April 19 at 8 p.m. Invitations to attend have been extended to all parents of junior high school children.

Mr. Linn, principal of the school, was in charge of the evening's program and explained the use of audio visual materials in the school program. He was assisted by Don Darnelle who demonstrated the school's tape recorder and radio. Mrs. Ruth McCollister demonstrated the opaque projector, Mrs. Dorothy Sneed, strip film and Darrell Davis, sound film.

In Mr. Linn's demonstration he stated that a few years ago the word "communication" would have implied the use of oral and visual activities restricted to the human voice and printed page. Today, communication has been applied to include a wide range of media.

Motion pictures, photographs, slides and other forms of pictorial communication have given us new tools with which to transmit information more effectively, he stated. Radio has condensed and distributed the events of the world today making such events the business of every one. Mr. Linn stated. The techniques and materials of mass communication are at our disposal. Their effectiveness cannot be disputed. There is no longer only one way of teaching in a school situation. What we are after he stated, is the best and most efficient way of communicating ideas.

Mr. Linn added that the place for audio visual materials in the school is one of adaption, experimentation, effective utilization, and evaluation.

The various media he stated have been conceived to perform certain functions and meet certain needs.

The speaker also listed equipment now being used at junior high school, two 16 mm sound movie projectors, one 2 x 2 slide and strip film projector, two 4 x 4 slide and opaque projectors called "Belopticons," three record players, one radio phonograph, one wire recorder, one tape recorder and radio, a public address system and maps, globes, pictures and other necessary equipment.

Following the meeting, refreshments were served by parents from home room 55, Mrs. Mildred Rogers, teacher, and from room 41, Mrs. Ethel Thompson, teacher.
