

Easter Seals Sale Chairman Lists Films Available To County Groups

Mrs. C. B. Partch, Jackson county chairman of this year's Easter Seal sale drive, announced Saturday that two films, covering programs of the Oregon Society for Crippled Children and Adults, will be available to county clubs and churches.

The films show the medical, therapeutic, recreational and re-

habilitation services made available to crippled children and adults through the sale of Easter seals.

"Pioneering in Rehabilitation" will be available from March 20 through the first week in April. This film, completed recently, outlines and highlights the operations of the Children's Hospital school at Eugene, the Craft shop for the handicapped in Portland, the Portland Rehabilitation center and other projects of the Oregon Society for Crippled Children and Adults.

"A Day in the Life of a Cerebral Palsied Child" will be available until April 15. This picture shows the treatment given to a child with cerebral palsy at the Eugene hospital.

The Toastmistress club, of Medford, will furnish experienced speakers to accompany the film, if requested to do so.

"We urge all civic organizations to take advantage of the opportunity to see these films and become better acquainted with the worthwhile purpose of the Easter seal sale," Mrs. Partch said.

"The films have already been requested by 14 county groups, but there is still time for anyone who is interested in the work done by the Oregon Society for Crippled Children and Adults, to see the films."

County organizations may make arrangements to secure the films by phoning Mrs. Partch at 3-1894 or writing to her at post office box 285.

Central Point Group Studies Glove Making; To Give Square Dance

Central Point—Central Point Extension unit met Wednesday in the home of Mrs. E. E. Reames for the project on glove making. Mrs. Lester Wertz spoke of the origin of gloves, stating that glove making began about 1000 B. C. and that they were first worn by men only.

Mrs. Bruce discussed glove pattern making, materials, the importance of accurate cutting and stitching. All members planning to make gloves are to meet Tuesday, March 21, at 10 a. m., at the home of Mrs. Stuart, route 1, box 137, on Beall lane.

Mrs. Lester Wertz outlined the prospective subjects for next year's program and unit members voted for their preferences.

The better dress workshop reported nine dresses completed and the lampshade workshop reported 11 completed shades.

Mrs. W. T. Parsons, 4-1 committee chairman, reported eight active projects in session.

The unit will sponsor a square dance to raise funds for Azalea house and committees were appointed to arrange the affair.

Textile painting class will meet in the home of Mrs. Stella Anderson, Hamrick road, March 23, 10:30 a. m. Everyone is to bring a sack lunch.

Visitors included Mrs. A. M. Hoover, Grants Pass; Mrs. Tom Carter, Phoenix; Mrs. W. C. Snook, Eugene; Mrs. Roberta Gregory and Mrs. John Groner.

Coming Events Planned By Methodist Circle; 'Tiny Tot' Show Set

Wednesday afternoon members of Circle Eight of the Methodist church were entertained in the home of Mrs. L. G. Rankin with Mrs. J. C. Sparks and Mrs. J. R. Smith hostesses for dessert luncheon at 1:30 o'clock. A spring color scheme of yellow and green was used in table decorations and refreshments.

During the business hour, Mrs. Floyd Lewis, chairman, presided. Mrs. W. W. Walker presented the devotional program using as her theme "Christian Love." Mrs. Matilda Dietrich, program chairman for the afternoon gave an interesting review of the life story of an elderly woman who found comfort in her Bible, though she could neither read or write. Just to hold the Book

Brief Ceremony Held At New Farm Home

The last public event at the new county farm home before it is completed, probably some time in April, was held Friday when members of the county court and representatives of the press attended brief and informal cornerstone laying ceremonies.

A small copper case, containing copies of the county's three newspapers, statements from the county commissioners and other documents, was placed in a granite stone for posterity and a bronze plaque bolted over the opening.

The handsome new structure, that has been called one of the best examples of facilities of its type in the state, is expected to be ready for the county's aged and infirm some time between the first and middle of April, according to Architect William Laing. The old frame building now being used as the county farm home is to be removed as soon as the patients are moved into their new quarters.

Selma Youth On Board USS Elder In Pacific

Pearl Harbor, T. H., Mar. 18—(U.P.)—One of the survivors of the USS Elder, which exploded and caught fire en route from Pearl Harbor to Eniwetok, was an Oregonian.

The navy department said Kenneth Brewer, a crewman, was from Selma, Ore., and his parents are Mr. and Mrs. John H. Brewer, box 31, Selma. The town is in southwestern Oregon, eight miles north of Cave Junction on the Grants Pass-Crescent City highway.

and think upon verses she could remember meant much to her.

Members were pleased to learn that Mrs. F. G. Thayer had recovered sufficiently from her long illness to return home.

Announcement was made of the May Fellowship luncheon, sponsored by the Medford Council of Church Women, which is to be held the first Friday in May. Also announced was a rummage sale to be held in the Eagles hall on April 21-22 with circles of the church in charge.

Members decided to hold a "tiny tots" fashion show on the afternoon of May 12 in the church parlors and program numbers are to be given by small children. Local stores will cooperate in the event.

The homecoming luncheon, March 28, will be served by members of circle eight it was announced by Mrs. Lewis, and plans for the luncheon were completed during the meeting.

Mrs. John Still and Mrs. A. M. Perkins will entertain circle members for the April meeting at the home of Mrs. Still, 31 Crater Lake avenue.

Greyhounds can average more than 35 miles an hour for more than quarter-mile.

News Notes From Medford Hi

By Robene Starcher
Mrs. Mabel Winston, dean of women and registrar of Southern Oregon college, was guest speaker for a meeting of Girls' League held March 15 in the auditorium during sixth period.

Her topic was "Looking Into The Crystal Ball." She compared women's occupations in 1850 to those of 1950, and said that about 500 occupations are available to women. In order to succeed, one must have imagination, courage and common sense, she stated.

"We must be satisfied with ourselves, and know that we are doing our very best," the speaker said.

She ended with a poem which stressed that things people don't do bother them more than things they do.

Maurice Bailey, Southern Oregon college student, gave a lecture demonstration on the french horn to the band and orchestra members March 15 in the band room.

Fifty-odd puppets, many with interesting histories, were shown in a play assembly held in the auditorium March 16. Some of the Busche puppets were used for espionage work in the Revolutionary war.

"Entertainers are immune to war," according to Busche, and the puppets were used to pass on valuable information gained from the enemy.

The puppets are arranged in three categories, hand, rod and string. The main puppets featured were the Punch and Judy set which is more than 300 years old and was used in the Revolutionary war; an Indian puppet from Arizona which was used in religious ceremonies; a Javanese puppet also used for religious ceremonies and which is said to be the only one out of Java; a clown puppet made to resemble the late Toto of the circus; Hiram Jones, which is a farmer puppet

2,700 Persons Donated To Dr. Sander Defense

Manchester, N. H., Mar. 18—(U.P.)—Some 2,700 persons have contributed \$18,000 to "the Dr. Hermann N. Sander fund" to help the 41-year-old Candia physician who last week was acquitted of the mercy slaying of a cancer-doomed patient.

George Woodbury of Bedford, N. H., fund chairman, said he believed at least \$20,000 would be collected.

JACKSONVILLE DRIVE
The Red Cross drive in Jacksonville is nearing completion, according to Mrs. Dick Boyd who has been in charge of the drive there. Anyone who might not have been contacted, however, may mail his contribution care of Mrs. Boyd, Jacksonville.

The NEW AQUA-JET BOOM

SPEEDIEST OF SPEED-SPRAYERS (AND MUCH LESS COSTLY)

Perhaps the most remarkable feature of the Aqua-Jet Boom is its ability to perform as well, if not better, than many fan or blower type sprayers. It has tractor seat control... so labor cost is less. It has no rotating or oscillating drives... so installation and upkeep is low. It fits your present sprayer... so you are not burdened with an excessive investment. It has safety, too; the kind that only 100% hydraulic operation gives (no roaring fans!). The individually adjustable Aqua-Jet heads outperform any nozzle you've ever seen in correct particle size, distance and wetting power.

ONLY \$285.00 COMPLETE Ready to install (f.o.b. San Jose) Shipping Wght. 146 Lbs.

Includes special Hurst 3-way hydraulic control with tractor seat mounting bracket; high-pressure hose (with fittings) for harness; Aqua-Jet Boom with six spray heads, dual strainers, mounting bracket.

The Aqua-Jet Nozzle is of the constant volume, high-velocity discharge type. It puts every bit of pump power into speed-spraying. Operated in multiples, the solid fan-shaped discharge of each nozzle tends to increase the reach. If your pump gives 20 g.p.m. at 500 p.s.i., you can handle an orchard of medium sized trees. At about 35 g.p.m. and 600 p.s.i., thirty-foot trees can be sprayed. Mixed long and short jet adjustments with all nozzles concentrated at one side of the boom creates a spray pattern that no blower can duplicate. Each nozzle and each boom arm has its own 55° ball-swivel-joint!

"The BOOM with the BUTTERFLY Pattern"

EITHER SIDE OF BOOM OPERATED SEPARATELY... OR BOTH TOGETHER

The quick acting 3-way hydraulic control valve is of exclusive Hurst design. Finger tip control on one lever puts the Aqua-Jet Boom through its 3 modes of operation and shut-off.

When ordering be sure to tell capacity and pressure of your sprayer... also height, spacing and type of trees.
