

SPRING LAWN TREATMENT—Early treatment of lawns is important for strong summer growth.

Spring Grooming of Lawns Aids Growing

Fertilization of western lawns through the spring and summer is important because of the leaching effect of continuous artificial watering.

First, give the lawn a vigorous raking to remove sticks, stones and other foreign matter, also to loosen the surface of the soil.

Plant Vegetables After Last Frost Danger Is Gone

When all danger of frost is over and the night temperatures do not drop below the high forties it is time to plant the summer vegetables.

Snap beans (pole type) and tomatoes are 'efficient' crops, producing a large harvest for the space occupied.

The direct seeding method is growing in popularity. Four seeds are sown directly in the garden about April 1.

Best Plants Best plants are stocky, of healthy green color, from 8 to 12 inches tall.

Need Plant Food The lawn should next be given an application of plant food, when the grass is dry.

Now comes the application of a top dressing to build up the organic content of the soil.

Do not use bulk cow manure because of the danger of introducing a host of weeds to your lawn.

The week following, if there are bare or thin spots in the lawn a pre-seeding job should be done.

WEATHER By United Press Northern California: Considerable cloudiness and a few showers early today.

Summer squash is prolific and one plant for each two people is a good rule.

Nation's Economy Said In Good Shape Washington, Mar. 22—(U.P.)—The commerce department thinks the nation's economy is in good shape.

It reported last night that industrial activity increased 'moderately' in January and February.

When you have finished your day's work you will have an empty trench, which should be filled with the soil removed from the initial trench.

MAIL GOES THROUGH Lewiston, Ida.—(U.P.)—A snow sled powered by an engine and propeller has been designed by mechanic Gunnar Anderson.

Many Varieties Of Marigolds Offer Unlimited Choice For Home Gardeners

There are so many interesting varieties of marigolds that one could easily make an entire garden of this one flower.

French marigolds are smaller and bloom more profusely. Flowers may be single or double, many two-toned in shades of yellow and red.

Red Head, a French marigold, won an All-America award in 1948. Its flowers are two inches across with a crested center composed of many tiny erect golden petals.

All French marigolds should be grown in a soil that is not overly rich, otherwise plants may produce a luxuriant foliage and few flowers.

For planting in the front row, French dwarf doubles are effective. Flowers are 1 1/2 inches across and plants 6 to 15 inches tall.

Sow in the open garden after the danger of frost is over. Marigolds are extremely easy to grow and should not be planted too thickly.

For plants ready to transplant to your flower beds when the winter and spring flowers are through, start a flat of marigolds indoors now.

Set a definite task for your first day's work, say a strip six feet wide, running the shortest dimensions of the garden.

Now begin to spade with the blade not parallel to the trench, but at right angles to it.

When you have finished your day's work you will have an empty trench, which should be filled with the soil removed from the initial trench.

PRECISION PAYS OFF—Garden rows should be set straight and parallel for efficient production and time-saving later in the season.

Overseas in Belgium, the government COLLAPSES AND RESIGNS over the question of whether or not to bring King Leopold back to his throne.

Churchill, facing the same grim situation, made WORSE his by his defection, chose the hard way.

Monastery Destroyed, Monks Get Sanctuary

Cumberland Hill, R.I., Mar. 22—(U.P.)—The half-century old Cistercian monastery of Our Lady of the valley was destroyed by fire early today.

The blaze apparently broke out in the infirmary and spread rapidly to the massive granite chapel and a guest house.

The fire raged out of control for two hours while brown-clad lay monks and white-robed choir monks helped firemen from eight surrounding communities fight the flames.

The last two cars on the Detroit-to-Pittsburgh sleeper were derailed and wrecked in the collision.

The chef, Cleveland Woodson, 50, Buffalo, N.Y., suffered a fractured skull when he was struck by heavy kitchen equipment.

The dining car was third from the rear.
