Oregon student Herb Nill arrived home from school the middle of the week looking forward to a few days of loafing and mother's cooking only to be confronted with the news, read in the family newspaper, that he was speaking at a meeting of high school seniors interested in attending the university. Not only had someone neglected to tell young Nill and a fellow student, Miss Nancy Lageson, that they were making speeches, but neither one had any information about the Duck Preview, which they were supposed to be advertising.

Needless to say, the speech which Herb Nill gave was pretty general. —O.S.

VICTOR Says:

Not long ago I recommended my dentist, Dr. Mohr, to one of my patrons. After finishing her work he sent me a very nice card expressing his gratitude for my thoughtfulness. It was a gesture I liked very much.

I only wish I too might do the same but of course I don't have the addresses of all the lovely ladies who have given us a nice word, so please allow me to say we definitely appreciate your boosting us and we will reciprocate by doing our utmost to give you the best.
