SEEK SEAT ON HIGH BENCH—Pictured above are the three candidates for the seat on Oregon's supreme court being vacated this year by Justice J. O. Bailey. From left to right they are Walter Tooze, Portland, presiding judge of Multnomah county's circuit court; Robert Maguire, Portland, an attorney and former bar association officer who served as judge at one of the Nuremberg war crime trials, and Austin Dunn, Baker attorney and state senator. All three men have visited Medford within recent days.

Candidate For Supreme Court Kiwanian Speaker

Declaring that concentration of power in government leads to destruction, Walter L. Tooze, Portland, presiding circuit judge in Multnomah county, yesterday warned Medford Kiwanians of the danger of such concentration at the nation's capital in the last 30 years.

Tooze, a candidate for the state supreme court in the May primary election, pointed to the bureaus and bureaucrats over which the people have no direct control. This bureaucracy, he said, has been vested with the power to make rules and regulations having the force of law and no adequate judicial review has been provided.

Power Encroaches

Power given to the executive branch of government, the judge brought out, encroaches upon the legislative and judicial branches and destroys the system of checks and balances in the constitutional government of this country.

The three-branch system with checks and balances is one of the two all-important principles of the constitution, Tooze stated. The other is that power rests in the hands of the people, that government's power is only that granted by the people, that government is the agent of the people and its officers the agents of the people.

Freedom Are Reason

Constitutional freedoms are what have made the American way stand out, the speaker asserted, adding that compromise of the system could mean a sweep toward totalitarianism.

Tooze charged that bureaucracy is an alien theory of government and un-American. He said that congress is responsible for the growth of bureaucracy and that no political party can be blamed for it because congress is composed of both democrats and republicans.

Tells Dangers

Indicating the dangers of the theory of planned economy in curtailing freedom, Tooze stressed that planned economy and socialism are in truth the same. He warned of clever propaganda whereby citizens are given the feeling that the nation owes them a living. Capitalism has brought the United States to the forefront among nations, he stressed.

Tooze attacked bigotry and intolerance as having no place in the American way of life. There is no "second class citizenship," he stated, and all are equal before the law.

He spoke of the stabilizing influence of the church, saying that it must be left free and that individuals must look to the church for leadership for preservation of the American way.

Female Fagin Hired Youths To Rustle Cattle

Hayward, Cal., Mar. 30—(AP)—A 23-year-old registered nurse was in custody at the Santa Anita prison farm today after she allegedly admitted she was a "female fagin," who hired teenagers to help her rustle cattle.

Also being held were three 17-year-old boys who said they were hired at \$25 apiece to help in the rustling of the five calves. The rustling operation was not very profitable. In addition to what she paid the boys, she also had to rent a truck. The slaughterhouse paid \$135 for the calves.

A native of Florida, the attractive nurse said she spent some time in Wyoming. It was there she learned to love cattle and horses, she said. She took her nurses' training in Boston.

Mrs. Band and the three boys were booked for investigation of grand theft.

Dishes Rattle When He plays His Organ

Racine, Wis. (U.P.)—Dishes rattle and chairs move in an apartment house here when Fred Hermes, a real estate salesman, plays his \$31,000 organ.

Hermes, 23, bought the mammoth instrument from a church which was shifting quarters. He paid \$300 for it and installed it in the basement of the building housing his office.

The apartment house tenants can feel the bass notes in their bones when Hermes gets down to the end of the keyboard. So far no one has complained but Hermes hasn't tried playing late at night.
