Rural School District Budgets Talked Today

Representatives of nine rural school districts were scheduled to hold hearings today with the county rural school board to reach final agreements on proposed budgets for the 1950-51 school year. When all budgeted items are cleared at the hearings, the individual budgets will be combined into one rural school budget for the county, and will be covered by an equalized county tax levy in all of the rural districts.

A budget election must be held later since the budget will inevitably exceed the six per cent limitation, due to the outmoded tax base set for the district, school officials said.

Hearings were being held in the county school superintendent's office today for Talent, Phoenix, Kenwood, Butte Falls, Griffin Creek, Howard, Prospect, Jacksonville and West Side districts. Tomorrow the rural school board will meet with representatives from the Shady Cove, Applegate, Oak Grove, Rogue River, Ruch-Sterling and Eagle Point districts.

Revote on Merger of School Districts Set

The county school district boundary board today set April 28 as the date for a re-vote on the proposed consolidation of the Little Applegate school district with the Ruch-Sterling district. Voters may cast ballots from 7 p. m. until 9 p. m. in the two schoolhouses on that date.

Ruch-Sterling district now includes the former Watkins, Uniontown and Forest Creek districts, which voted to merge with the larger school at a recent consolidation election. Little Applegate residents turned down the proposal at that time. Petitions for a re-vote were filed, since it was believed the adverse vote represented a misunderstanding of the problem faced by the Little Applegate school.

WEDNESDAY REALTY VIEWS

"Trees," the lady said, "Trees mean more to me than any other feature of a house. I just love tall shade trees. And a nice lawn with plenty of shrubs and flowers."

"Of course," she went on, "that means I'll have to buy an older style house. But I really don't mind that. Most of them have large rooms and plenty of space for every use. And it seems to be a house has to be lived in awhile before it appears cheerful and homey."

"The older house is usually closer in, too. I like to be within easy walking distance of the downtown district. Anyway, some of my friends say an older house is the most practical for a growing family. You get more room for your dollar, and the walls are already broken in to children's first effort at art."

"But the best feature of all is trees. Real shade trees."

"Well, that's one lady's view. Maybe you share it. Let us show you some real bargains in used houses complete with TREES."
