

## Sawmills Asked To Give Data for Lumber Census

Because operators have failed to fill in the forms sent out, several sawmills in the Medford area may not be listed in the 1949 lumber census of the Douglas fir region now being tabulated, according to H. V. Simpson, executive vice president of the West Coast Lumbermen's association.

Simpson pointed out need for accurate industry production figures when the western lumber industry appears before congressional committees. Every mill, he said, must also be listed to get authentic figures for the drive to get adequate freight cars for this region.

### Urged To Fill Forms

This week questionnaires are being sent to mills that have not yet responded. Simpson urged all mills which have not yet complied to send in the short questionnaires at once. To be of value, he stated, final tabulations of production, shipments, orders and number of mills should be ready within a month. "Mills who have not yet cooperated," Simpson said, "are hurting themselves and the community in which they operate."

## Music Week Slated; Proclaimed by Mayor

"America's contribution to the World of Music" will be the keynote of National Music week between May 7 and 14, according to a proclamation of Mayor Diamond L. Flynn.

In connection with the annual observance Medford schools have planned several presentations. They include an operetta on May 5 at Roosevelt school, a music program on May 10 at Washington school, a spring concert at the junior high school on May 12 and an elementary school spring festival on May 19.

Miss Mabel Nansen, local music week chairman, has urged that all organizations or groups observe the week in some specific way and report
