

Jacksonville Family Loses Home in Fire

Jacksonville, Apr. 28—Mr. and Mrs. A. R. Huff and three of their children escaped uninjured but their one-story home was completely destroyed when fire swept the structure yesterday afternoon. The home is located on Oregon street about an eighth mile from the center of town.

Two of their children were in school at the time.

The fire started in a woodshed about eight feet to the rear of the three-room house and spread to the larger structure before firemen could stop the flames. A high wind blew the fire away from the house but heat radiation spread the flames, Huff said.

Huff said the family lost practically everything in the fire, including furniture, household furnishings and clothes. He said a spark from the house chimney probably lodged in the woodshed to start the fire.

Reports Due at Heath Group Meet

Reports from delegates to the recent Governor's Conference on Children and Youth held recently in Salem will be an additional feature of the luncheon meeting of the Jackson County Public Health association to be held Saturday, April 29, at 12:30 p.m. at the Presbyterian church in Medford.

These reports are to be given by Mrs. Henry Padgham, social hygiene chairman, who was a delegate to the health association, and by Mrs. Blanche Frisbie, Miss Elizabeth McGalliard, Mrs. Frances Clink, and Mrs. Ethelmae Kanciler, public health nurses who were delegates for the Jackson county public health department. Dr. A. E. Merkel, county health officer, also attended for the health department. Because of the Health association's social hygiene committee's work with children and family life, members of the organization will be especially interested, officers said.

The meeting, to which anyone interested is invited, is to be preceded by a luncheon and those attending are requested to bring half a dozen sandwiches. There is no charge for the luncheon or the meeting. One of the principal speakers at the luncheon will be Dr. Ray Hawk, of Southern Oregon college.

Gifts Sought by Cancer Society

Mrs. John S. Day, Jackson county chairman of the American Cancer society, today reminded that the 1950 fund raising campaign of the society is still under way.

Donations may be mailed to post office Box 808, Medford, she said.

Research Done
Mrs. Day pointed out that a great deal of research is being conducted into the causes and possible cures of the dreaded disease. Some of this research is being done in Oregon, in particular by Dr. Howard L. Richardson, University of Oregon medical school pathologist, who is making day-to-day measurements of the development of cells from normal to cancerous state in an attempt to ascertain when the critical change to cancer occurs.

Dr. Richardson's work is being financed by the society, and by the National Cancer Institute. It is only one phase of a huge, nationwide program of research and care sponsored by the society.
