

### Sanitation Group Issues Order To End Pollution

Portland, Ore., May 11—(U.P.) The state sanitary authority has issued a final order to Oregon Pulp and Paper mills to halt pollution of the Willamette river but extended the deadline from December, 1951, to May, 1952.

The authority, in an elaboration of its earlier findings, said that 84 per cent of pollution in the Willamette originates with pulp and paper mills at Oregon City, West Linn, Newberg and Salem.

**Regarded as Victory**

The authority also asserted that a pulp and paper mill at Lebanon was responsible for about 91 per cent of pollution on the South Santiam, a tributary of the Willamette.

Fish conservationists regarded the authority's decision as a victory because they had contended that waste material entering the Willamette periodically depleted the oxygen content to the point where fish life was impossible.

The authority granted the mills extra time to work out processes for disposal of waste polluting matter. The mills had asked for more time on grounds that cost of installing processing facilities would be "exorbitant" and careful planning was necessary.

### Dr. Sander Loses Medical Connection

Milford, N. H., May 11—(U.P.) Dr. Hermann N. Sander was left without a profession today as the Hillsborough County Medical society stripped him of the last

### Deposits in Oregon Banks Are Below December 31 Mark

Salem, Ore., May 11—(U.P.)—Oregon banks had deposits totaling \$1,327,306,621.99 as of April 24, State Superintendent of Banks A. A. Rogers reported today.

The total was \$24,555,119.15 less than the deposits held by Oregon banks last December 31. State banks lost \$930,197.26 in deposits in this period while those of national banks for the same period showed a loss of \$23,624,921.89.

Loans held by all banks showed an increase for the period of \$11,379,195.80. Of this amount the increase of state banks totaled \$2,942,565.61 and those of national banks, \$8,436,630.19.

State banks had investments in loans and discounts of 30.5 per cent of total assets and national banks, of 28.1 per cent.

Most of the decrease in deposits is reflected in the deposits of state and political subdivisions. Rogers said, but the deposits of individuals and corporations showed loss of about \$4,000,000.

vestiges of his connection with medicine.

Latest blow to the career of the 41-year-old Candia physician, acquitted in the mercy death of a woman cancer patient, came last night when the society revoked his membership at a special meeting.

Though he has lost his license to practice, has been banned from four hospitals in the Manchester area and has lost his membership in the American Academy of General Practitioners, there still is a chance he may resume practice next month.
