### Life In Siam and India Described by Traveler

Descriptions of life in India and Siam are contained in two recent letters from Dr. and Mrs. B. Elliott, on a round-the-world trip by air.

Dr. Elliott last wrote from Darjeeling, on the slopes of Mt. Everest, and said that they climbed part way up the famous mountain.

"Last week we voted Kotsabue the worst place in the United States in which to live—we now nominate Calcutta as the worst in the world. Conditions are so bad we were urged not to stop there at all, but we wanted to see the worst, and did. Everyone has read of these conditions, but visual education makes for realization.

"We arrived in Calcutta in the middle of the night and saw thousands sleeping in the streets. Among them lay, stood and walked the sacred cows and bulls. There are seven million people, one-third out of work makes for robbery, begging, knifing and dirty looks. We are not welcome. There are beggars of all kinds—even down on all fours. One is always the center of a crowd.

"It is unsafe to be out at night and even in the day, if off the beaten path. In the hotel 15 bearers line up for tips like clamorous vultures, though one feels sorry for every one of them. It is no place for a minister's son.

"Many think Britain, United States or Russia must supervise them. All seem 'leery' of Russia. They regret absence of the English.

"At the burning ghats several groups, each with their dead loved ones on a cheap cot, were in the different stages of the cremation rites, which takes three hours. Nearly all urged me to take pictures of their dead and send them photos.

"Sacred cattle lie at the entrance of business houses, almost blocking the doors of banks, etc. I took a photogenic bulb, lying in the shade, by the horns hoping to get him into the sun for a picture. The usual crowd (or mob) so increased in size and noise that I desisted."

The preceding letter came from Bangkok, Thailand, and the traveler described the cremation of two Siamese princesses. He wrote that the colorful procession consisted of a many-colored and highly built-up hearse, drawn by two black horses followed by floats, one of which carried the Buddha priest, and a 100-piece band in brilliant red, 200 persons in black, etc. "They all paraded around and around the high band-stand like pyre, and finally carried the coffins up the long steps for cremation," he wrote. "The king was to come later to touch off the match to the fire."

"Incidentally, the king is being married today. Flags are flying and banks and offices are closed. It is called a holy day.

"The lowest temperature in the last 24 hours was 81 degrees."

"The floating markets here along the 'klongs' or canals are unbelievable. The thousands of boats and huts on stilts are the homes and markets of thousands of people. Sewage, dead dogs,

President Roosevelt's Board said—

President Truman's Board said—

Still the leaders of the Railroad

Firemen's "STRIKE!"  
Union say—

This ridiculous strike is an affront to every citizen of the nation. It's not for more money. It's not because of hours. It's only for soft feather-bedding spots for additional unnecessary firemen to go along in diesel locomotives just for the ride. A leading liberal newspaper calls the demands of the union leaders "horse-feathers!"

The reckless leaders of the firemen's union want to force down the throats of the railroads and the public a ridiculous "make-work" proposal which has been twice ruled out by Presidential Fact Finding Boards duly appointed under the provisions of the Railway Labor Act.

This demand of union leaders for additional and unnecessary firemen to ride in diesel locomotives was rejected—after months of hearings—by a Board appointed by President Roosevelt in 1943.

It was again rejected in 1949 by a Board appointed by President Truman.

Recent meetings with the National Mediation Board have brought no change in the attitude of the union dictators.

Union Leaders Defy Intent of Law

The union leaders helped write the Railway Labor Act. Yet in an attempt to jam through this scheme of pure

"feather-bedding" by leading the members of their union out on strike and threatening paralysis to large areas of the nation, they are defying the spirit and intent of the very law which they helped to create.

This strike is not for higher wages. It is a strike to force the railroads to employ many more thousands of firemen who are not needed! It would be indefensible waste. The railroads have refused to place this additional and unnecessary burden on the public.

But more important than any other consideration, is the action of these few irresponsible union leaders in seeking to force a crippling strike upon the

This strike is one of the silliest strikes in history!

What are these reckless union leaders trying to do? They seek to cause thousands of their members to strike, and throw hundreds of thousands of other employees on and off the railroads out of employment, with loss of pay to them and their families, plus a severe blow to industry and the citizens of the nation.

What's the strike all about? If the union has its way—what happens? The present members of the union won't get one cent more pay. They will merely have been assessed for a costly and indefensible drive in an attempt to provide more dues-paying members for the union by creating "feather-bedding" jobs for additional and unnecessary firemen. This is certainly one of the silliest strikes in history!

nation for their own selfish purposes.

There is no other possible answer to such a demand but "No!"

The railroads in making such a reply believe they have the whole-hearted support of the people in whose interest they are willing to fight this out, despite the loss and inconvenience that all will suffer.

It is time to put an end to such un-American demands.

We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody.
