Lone Pine Wins Title

Lone Pine school proved this spring that it not only produces some of the best basketball teams in Jackson county grade schools, but also just about the best in baseball as well.

The boys defeated Oak Grove 21 to 3 for the non-high school district diamond title in the final game of a best two out of three series. Lone Pine won the opener 7 to 3 and lost the second 11 to 2. This was the second year Lone Pine had won the baseball championship.

During the season the league champions registered victories over Shady Cove, Elk-Trail, Griffin Creek, Howard and Jacksonville. The only 1950 season defeat for Lone Pine came at the hands of Oak Grove in the playoffs. Oak Grove had been undefeated up to the playoffs.

Last week Thursday night the Lone Pine baseball squad attended the Medford Rogues-Pittsburgh Diamonds baseball game as guests of Business Manager Mel Carpenter and Rogus Valley Baseball, Inc.

Members of the Lone Pine school squad this season were Lloyd Hart, pitcher; Ronald Nelson and Frank McKittrick, catchers; Bonnie Kinney, first base; Carl Ellis, second; Walter Johnson, short; Arlyn Granzer, third; Henry Moeller, left field; Garry Hart, centerfield; Raymond Hilton, right field.

Leland Dunlap and Warren Stearns were utility outfielders and Calvin Dalton utility infielder.

T. A. Dodge, principal at Lone Pine school, was coach.

School Situation At Rogue River Discussion Topic

Rogue River, May 22—J. L. Turnbull met with a group of Rogue River citizens and members of the school board, Wednesday evening for a round table discussion on the present school situation.

Turnbull explained the basic school support as being money taken from the income taxes, coming mainly from the heavily populated industrial areas, and given to aid in support of schools in the poorer districts, thereby easing the tax burden on property in those districts. It is given to the district as a bonus to help them maintain better schools, but they must, he stressed, prove their good faith by maintaining certain standards in order to receive this bonus.

Standard Now
He stated the grade school building is substandard, mainly because of poor lighting and over-crowding. He advised the lighting be improved and a new unit constructed to relieve crowded class rooms. If those two conditions are corrected no other improvements would be required, he added, and the building can and must be used from five to seven years longer. Three new class rooms would be sufficient at the present date, but more will be needed in the near future, he estimated, and it will be cheaper to erect them at one time under one contract. He stated the high school is not crowded and the proposed addition being requested by the school board is to make room for the teaching of new subjects such as art and metal work and for an automotive shop. Cost of teaching such subjects is partly covered by the Smith-Hughes federal grant.

In regard to the building sites, he stated the new unit can be built on either of the proposed sites. If the new unit is built on the west side of Pine street and all of the land adjacent to the high school purchased (including the Woods property), that would give sufficient playgrounds for both grade and high schools even though the enrollment doubles its present number in the next few years, but he added, when the enrollment reaches 700 it is advisable to have the schools on separate sites.

In discussing the site on the east side of Pine street it was brought out that the grade school gymnasium is in good condition and this year's budget provides for new lighting in the class rooms. Converting the furnace to oil would do away with the woodpiles and that land, with the street and the Burk property would be ample for the new unit, according to Turnbull, in an event population continues to increase and enrollment doubles the grounds would be crowded when another unit is added. He mentioned that seventh and eighth grades could be moved into the high school building then.

Turnbull requested the people come to a decision on the site and show their good faith by bringing the grade school up to standard.

Election June 1
An election on the school bond will be held June 1 and if it passes the site will be chosen later as explained in the following letter from Attorney Frank P. Farrell to Mrs. E. Reed Carter, board chairman:

"As explained at the meeting of the district school board held May 9, procedure in selecting school site for the additional building of the school district is as follows:

"If the specific property to be purchased is set forth in the bond election proceedings such site will be authorized to be purchased. In this connection, however, the present bond issue does not specify a specific site and therefore the site must be selected by the legal school voters of the school district at a school meeting called specifically for that purpose.

"In view of the above and in event the bond issue carries then before additional lands can be purchased by the board as a school site, the same must be se-

The "Allied Hospitalized War Veterans" was given as sponsoring organization. Paul A. Hatton, manager of the Camp White veteran domiciliary center, said today he had never heard of such an organization.

lected and the board authorized so to do by the voters of the school district and in my opinion the board would be without authority to purchase any property unless so selected by the voters.

"In event the bond issue carries it will then be necessary for the district school board to call a school meeting, upon proper notice, for the purpose of selecting the lands to be purchased."

MEDFORD (OREGON) MAIL TRIBUNE—THREE

VFW Poppies To Be Sold Locally Friday, Saturday

Women of the auxiliary to the Veterans of Foreign Wars are making plans for the annual sale of VFW buddy poppies on May 26 and 27. This will be the 28th year that the sale has been held. The first was in 1922.

All proceeds from the sale will be used to aid disabled veterans, particularly those in hospitals, and their families, according to Mrs. O. O. DeBerry, president of the auxiliary.

"It is only human that we tend to forget the tragedies of the past," Mrs. DeBerry commented, "but as long as the human casualties of our wars remain with us, it is our sacred obligation to see that they do not remain in need. That is why we remember the men who can't forget, for their sacrifices were made for all of us, and those that come after us."

"Let us honor the dead by helping the living, and give everyone the opportunity of wearing a VFW buddy poppy, on Poppy Days, May 26 and 27."

Mrs. Merrill Beneka is poppy chairman for the group and she will be assisted by many members who will sell the flowers on the streets and in places of business both days. The sale is held each year on the week-end preceding Memorial day.

● A fugitive from justice, Jack Jones came to Portland from an Eastern state. He and a woman other than his wife bought a home under fictitious names and, in the deed, were designated as husband and wife.

● A few months later, Jones died and, shortly thereafter, his "widow" sold the property and left Portland. Actually, Jones was survived by his legal spouse and three minor children living in another state.

● The purchaser's title to the property was defective and he lost his investment when the legal heirs later claimed the property. Had he insisted upon the protection of title insurance, the cost of subsequent litigation and the loss of potential profit on the resale would have fallen upon the title insurance company.
