U.S. Restricts Movements of Romania Envoys

Action in Retaliation For Bucharest Orders

Washington, May 26—(UP)—The United States today restricted the movement of Romanian diplomats in this country to a 35-mile radius of Washington.

Acting Secretary of State James E. Webb said the action was in retaliation for Romania's restrictions on American diplomats in Bucharest. He added that this was part of a pattern of difficulties with Iron Curtain countries and that the United States may be headed for a full diplomatic break with both Romania and Czechoslovakia.

The United States served notice of the new restrictions in a note delivered to the Romanian foreign office in Bucharest. It said that henceforth no Romanian diplomat in the United States will be allowed to go more than 35 miles from the District of Columbia boundaries without special permission from the state department.

Webb announced the action at a news conference. He said it would be advantageous for the Romanians to obey but he declined to speculate on how the restrictions would be enforced—the first of which the United States ever has imposed on diplomats of a "friendly" country.

Webb said the action was one of a series of moves indicating that the United States might be moving toward the point where it would be extremely difficult to continue relations of any kind with Romania and Czechoslovakia.

The United States already has broken relations with Bulgaria, another of the Soviet satellites which has waged a campaign to hound westerners out from behind the Iron Curtain.

Foreign Aid Measure Goes Before Truman

Washington, May 26—(UP)—President Truman has before him today a \$3,248,450,000 foreign aid authorization bill, which he is expected to sign today.

The authorization, passed 47 to 27 yesterday by the senate, merely sets a ceiling on foreign aid spending in the fiscal year beginning July 1. Congress must supply the funds in a separate appropriation bill.

Light Intended
Republican Leader Kenneth S. Wherry (Neb.), and Sen. Eugene D. Millikin (R., Colo.), said GOP forces intend to fight for reduction in the outlay when the appropriation reaches the floor.

They referred particularly to funds for President Truman's "point four" program for aiding underdeveloped areas. Millikin and other republicans tried unsuccessfully yesterday to cut the \$35,000,000 allocation from the authorization bill.

Besides the point four authorization, the measure would provide \$2,977,000,000 for the third year of the Marshall plan, \$100 million for aid to Korea, \$94 million for aid to China, \$27,450,000 for Arab refugees and \$15 million for international emergency children's work through the United Nations.

Compromise Bill Passed
The bill approved by the senate was a compromise between earlier versions passed by the house and senate. In the final tally, nine republicans and 38 democrats voted for the measure; while four democrats and 23 republicans voted against it.

During debate yesterday, republicans concentrated their attack on point four. Led by Sen. Robert A. Taft (R., O.), they argued that the language of the bill commits the United States to guarantee American investments abroad.

The economic cooperation administration, which administers the Marshall plan, has asked congress to appropriate \$2,658,000,000 in new funds for the program and to allow ECA to spend the \$277 million it has saved from this year's appropriation.

First UO Student Succumbs At Eugene
Eugene, Ore., May 26—(UP)—W. W. "Billy" Scott, 94, first student to be registered at the University of Oregon, was to be buried at 2 p.m. today.

Scott, who died Monday, signed up at the university on Oct. 16, 1887. He wrote much poetry during his lifetime, including one book-length poem called "The Oregon Pioneers."

Redding, Cal., May 26—(UP)—R. Tull, widely known California and Oregon lumberman, died suddenly on a business trip to Silverton, Ore., yesterday, relatives here reported.

A wealth of beauty spots and scenic and sports attractions in southern Oregon and northern California beckon Rogue valley residents this week-end, many of whom will have a full-three day holiday.

Memorial day falls on Tuesday this year, and a few retail stores, and cleaning and dyeing establishments and barber shops will be closed Sunday, Monday and Tuesday. Many self-employed and professional people will also make the holiday a three-day affair, while practically all stores and offices will be closed both Sunday and Tuesday.

Weather Good
Aside from a few possible sprinkles of rain Saturday, the weather bureau today forecast ideal holiday weather for the long week-end: cooler on Sunday, warming up again Monday,

34th Victim Of Chicago Disaster Believed Located

Trolley-Truck Crash Starts Blast, Fire

Chicago, May 26—(UP)—The conductor of a street car which collided with a gasoline truck, killing at least 33 persons, was arrested today by police on a charge of leaving the scene of an accident.

Conductor William Liddell, 29, was taken into custody at offices of the Chicago Transit authority, operator of the street car line.

Search crews found evidence today that a baby died with 33 other persons in an explosion and fire that blasted a south side neighborhood when a trolley ploughed into a gasoline tank truck last night.

Fifty persons were injured in the disaster.

Police and firemen dug through the ruins of seven buildings ignited by the searing flames that trapped passengers aboard the crowded streetcar.

Baby's Foot Found
Patrolman Van Clay found a baby's foot lying in the street near the crash scene. It was sent to the police laboratory.

Officials believed the baby's body may have been consumed in the fire that left four of the seven buildings with all interior walls and flooring burned out.

Deputy Chief of Police Philip Breitke said there was a possibility, however, that the baby's body was one of the pitifully charred pieces in the Cook county morgue.

Search crews proceeded gingerly for fear that the water-soaked walls still standing might collapse.

They believed, however, that the bodies of all victims had been found.

Inquiry Organized
Meanwhile, officials organized a sweeping inquiry to determine whether criminal negligence was involved in the disaster.

Coroner A. L. Brodie said he would impanel a jury of experts June 1 to investigate. He was expected to coordinate inquiries by the fire department, police, state marshal, the interstate commerce commission and the state commerce commission.

Private investigations were expected by various insurance companies and by petroleum associations interested in the shipment of gasoline and other inflammables.

Search Abandoned
A search for four children previously reported missing was abandoned after their mother reported that she personally had handed them through a window of their flaming apartment to a stranger who apparently took them to his home. Radio stations broadcast a request for the stranger to take the children to the Red Cross for return to their mother.

(See Story on Page 5)

Car License Renewal Tags Not Sold Here

William O'Brien, motor vehicle registrar for this area, said today that June renewal tags for passenger vehicles will not be available here until after he has moved into his new quarters south of Medford, shortly after June 1.

O'Brien pointed out that the expiration date marked on vehicle license plates means that the plates expire on the last day of the month marked, not on the first day. In other words, plates marked "June 30" are good until July 1 of this year.

Seattle, May 26—(UP)—The University of Washington seismograph recorded three earthquakes yesterday, one of which was 35 miles from Seattle.

WEATHER

FORECAST: Clear and warmer or tonight, increasing high cloudiness and cooler Saturday.

Highest Yesterday 93
Lowest this Morning 47

Hollywood, May 26—(UP)—Film Star Joan Crawford was hospitalized today suffering from a bad cold which she blamed on overwork.

Crater lake (both south and southwest entrances are open), Oregon Caves (where partial service is available Sunday, and full service starting Monday), Oregon Vortex near Gold Hill, Applegate valley, Tule Lake state park, Casey state park, many federally maintained forest camps throughout the area, Roxy Anne butte (roads are reported in good condition), Union creek, Big and Little Butte creek areas, Green Springs mountain pass, where many wildflowers were in bloom this week, Mt. Shasta area including Shasta lake, Dunsuir and McClellan, and Klamath lake and river.

Slightly longer drives will take motorists to the Oregon and northern California coastal beaches and the high pine forests of central Oregon.

Fifteen Prisoners, Two Others Killed In Bloodiest Philippine Prison Escape

MEDFORD TRIBUNE

45th Year. MEDFORD, OREGON, FRIDAY, MAY 26, 1950 18 Pages NO. 55

Bids Awarded For Construction Work On Oregon Roads

Portland, Ore., May 26—(UP)—The Rogers Construction company was low bidder with \$74,827 for re-rolling 18.27 miles of the winter-damaged Warm Springs highway to central Oregon, the state highway commission said today.

Other low bids opened by the commission: Douglas, Coos, Jackson and Josephine counties—Guard rail and sight post project on Pacific and Oregon coast highways, Meade and Hobson, Grants Pass, \$16,612.

Jackson county-Cascade gorge-Prospect section of the Crater Lake highway, 7.5 miles of widening and shaping roadway, Central Heating company, Eugene, \$159,010.

Jackson, Josephine and Douglas counties—Re-rolling project on state highways, Harr & Horton, Portland, \$65,857.

Jackson county—Construct Prospect maintenance building, H. B. Barnhart, Medford, \$15,420.

Frank Van Dyke, member of the highway committee of the Jackson County Chamber of Commerce, is in Portland today for a meeting of the state highway commission. He is one of four representatives of the chamber of commerce in Jackson and Josephine counties appearing before the commission to present the two-county unity on matters of highway improvement that has been developed in this part of the state through a series of meetings between chamber officials.

Neil Allen, Grants Pass, will state the official position of the Jackson county chamber, the Ashland chamber, and the chambers at Grants Pass and Cave Junction which have drawn up a priority program for improvement of highway 99 between Central Point and Ashland, the Crater Lake highway, the approaches to Cave Junction bridge in Grants Pass, the Redwood highway and the Applegate valley highway.

By showing that this area is unanimously behind a program of this nature, the chambers hope to move the commission to include at least part of the program in its 1951 schedule of expenditures for highway maintenance and improvement.

Bond Issue Will Go To Ruch-Sterling Voters

A \$35,000 bond issue will be submitted to voters in the Ruch-Sterling school district Monday, June 5, for the purpose of acquiring five or six acres of land and to add three new classrooms, a cafeteria, play shed, transportation facilities and equipment to the school at Ruch.

If approved, the new building would feature modern, steel reinforced construction, according to officials of the district. The Ruch-Sterling district represents a merger of Uniontown, Forest Creek, Watkins and Little Applegate school districts with Ruch-Sterling district No. 3.

Voting will be held in the Ruch-Sterling school house from 3 until 9 p.m. (DST). (2 to 8 p.m. Pacific standard time) on June 5.

Arrangements For Penland Visit To Camp Completed

Camp White, May 26—Arrangements have been completed for "National GAR day" ceremonies here Sunday, honoring Theodore Penland, 101, last commander in chief of the Grand Army of the Republic, according to John Kelly, general chairman.

The guard of honor which will meet Penland's plane Sunday morning will include four veterans, Tommy Childers, 23, World War I; Razon Turner, 62, World War I; Rufus Edwards, 58, World Wars I and II, and John J. Miller, 90, Spanish American war. Other dignitaries, including Mayor Diamond Flynn, and Camp White officials, will also meet the aged veteran.

Parade at 2 p.m.
A parade including a number of marching and musical groups will be held at the veterans center at 2 p.m. Sunday, and the public is invited to attend. Penland will review the parade, together with high state officers of the major veterans organizations.

At the conclusion of the parade, Sam Bowe, Grants Pass, state commander of the American Legion, will speak briefly in tribute to Penland.

The GAR commander, who dropped the gavel on the last encampment of the Civil war veterans organization at Indianapolis last year, enlisted at 16 in Company A, 152nd regiment, Indiana volunteers. Underage for military service, Penland, the story goes, wrote "18" on a piece of paper, slipped it in the bottom of his shoe, and told the recruiting officer "I am over 18."

Active At 101
Despite his age of 101 years, Penland, known as "Daddy" is still active, and much in demand at various veterans meetings throughout the Pacific coast. He has made frequent appearances on the radio, and travels extensively by air. He composes and sings his own songs, and is a member of 36 different organizations.

Potato Bugs Claimed Dropped By Bombers

Berlin, May 26—(UP)—Gerhart Elser's East German propaganda office claimed today that American planes have been bombing the Soviet zone of Germany with potato bugs.

American air force planes flew over the eastern zone Wednesday night and dropped "large amounts of potato bugs" in the area of Zwickau, a statement claimed.

"Strong indignation is mounting among the people over this terrible criminal attack," the statement said.

Portland Council To Decide Film Showing

Portland, Ore., May 26—(UP)—The showing of the controversial Italian film, "The Bicycle Thief," in Portland was up to the city council today.

The municipal board of review has turned down an appeal to reconsider its action in censoring a two-minute scene. When movie officials refused to cut the scene—showing a brothel—it made Portland in effect the first major city in the nation to ban the picture.

Aumsville Motorist Victim Of Accident

Salem, Ore., May 26—(UP)—William Woodrum, 48, of Aumsville, was killed late Thursday when his truck swerved from the Aumsville-West Stayton highway and turned over several times, state police reported.

Eugene Madsen of Aumsville, riding with Woodrum, suffered cuts and bruises. He told police the truck failed to make a turn. Woodrum was caught under the vehicle.

In order to permit employees to observe the Memorial Day holiday, The Mail Tribune will not publish on Tuesday, May 30.

Juvenile Theft Case Puzzles Authorities

The theft of five cases of beer from the Mason Ehrman company warehouse in Medford has netted four Ashland juveniles \$100 fines and 10-day jail sentences imposed by the Ashland municipal judge. It has also confronted law enforcement authorities with a legal tangle, it was learned today.

The four youths were arrested in Ashland Tuesday night by police there and charged with illegal possession of intoxicating beverages. The fines were levied and they were given the jail sentences to be served in the county jail, although the county juvenile officer says he believes the municipal judge in Ashland has no authority to commit prisoners to the county jail.

Sent To Medford
The case was then turned over to Medford authorities who were to prosecute the youths on petty larceny charges. Three of the four were turned over to John Richard, county juvenile officer. Richard said this morning, however, that he will take no action on the cases since he feels they have already been punished sufficiently and because they are being held on two charges for the same crime and both as juveniles and as adults.

As the case stands now, charges against the three youths in Richard's custody are being held open and no action will be taken by the juvenile department, unless the Ashland sentences are rescinded. The fourth youth, Richard Fulton Vest, 19, is still being held on the Medford charge and will presumably be prosecuted, courthouse officials said.

Redding Sheriff's Deputies Murdered

Redding, Cal., May 26—(UP)—Two sheriff's men were found shot to death with their own guns 40 miles north of here today and two youthful criminals suspected of the shooting were captured later at Truckee, Cal., as they sought to flee to Nevada.

The bodies of Undersheriff Earl Sholes and Deputy Dan Heryford were found hidden in brush about a quarter mile from U. S. highway 99 near Gison, Cal., this morning. They had been returning James McKay, 18, and Robert Sturm, 19, youth authority camp escapees, from Seattle.

Shortly before noon, McKay and Sturm were captured by highway patrolmen three miles from Truckee, where the car they had stolen from the officers had run out of gasoline. Truckee, near the California-Nevada state line, is about 170 miles east of Redding.

New Temblors Crumble Residences In Peru

Cuzco, Peru, May 26—(UP)—Hundreds of refugees fled from earthquake-shattered Cuzco today after new temblors crumbled a number of buildings weakened in last Sunday's quake.

The known death toll stood at 88 before the new shocks. Officials said they expected few new casualties because residents were staying away from weakened buildings.

Queen Mary Celebrates 83rd Birthday Anniversary

London, May 26—(UP)—Defying the years as proudly as ever, Queen Mary celebrated her 83rd birthday anniversary today with the biggest flood of presents and flowers she ever received.

Royal navy craft brought a 21-gun salute to the mother of King George. Every American warship in British waters joined in the tribute.

Awake at the customary hour of 7:15 a.m. Mary had breakfast and then hurried downstairs to unwrap a pile of birthday presents in her drawing room.

Jade Workbox Given
Among them was a magnificent antique jade workbox, a joint gift of the royal family. Mary has one of the biggest private collections of jade in Britain.

Everybody, including the king and queen, Princess Elizabeth and Princess Margaret, chipped in for the box, a royal source said. "It is quite precious."

Thousands of cables and letters came to the private post-office at Buckingham palace, addressed to Mary at Marlborough house, where she lives.

One of her first birthday callers was a charity worker, Mrs. McGarvie Munn, who left a basket of flowers, a custom she began 25 years ago.

Little Routine Change
The old queen's routine was changed very little for today. It included a family luncheon at Buckingham palace, with about 25 persons attending. There was no champagne—the queen never drinks it—and no birthday cake.

She planned to go to bed early tonight, for she was determined to go to the derby tomorrow—a race meeting she never misses. Mary stubbornly refuses to make concessions to her advancing years. She rides in her ancient limousine, sitting as stiff as a rainrod, her ever-present umbrella at her side.

Her days are spent doing fine needlework, reading and occasionally a matinee at the theatre.

Six Severely Hurt In 3-Hour Battle

Manila, Philippines, May 26—(UP)—Fifteen convicts, a guard and a civilian employee were killed today in the bloodiest prison break attempt in Philippine history.

Four other prisoners and two guards were wounded severely during a three-hour battle at the new Bilibid state penitentiary, where 6,000 prisoners are confined. Two buildings were burned. Army troops helped quell the break attempt.

Guard Stabbed
President Elpidio Quirino said the break was led by "unruly Huk" members of an outlawed communist-led peasant movement.

Prison officials said six convict ringleaders stabbed a guard to death and seized the prison armory. Helping themselves to 50 caliber machine-guns, they drilled a three-foot hole in the armory wall, squeezed through it, and ran for freedom.

Guards in buildings overlooking the armory and some outside the 12-acre prison compound opened fire. All six ringleaders were killed, along with five other prisoners who joined the break.

Four Burned to Death
Tracer bullets from guards' machine-guns set fire to the armory and one other building. Four prisoners burned to death in the armory.

Answering a call for reinforcements, army troops from Camp Murphy, constabulary units from Camp Crane and Quezon City police raced 20 miles to the prison. Fire trucks also rushed from Malina to help fight the fires.

Prison Superintendent Alfredo Bunye said one of the wounded prisoners told him the convict who led the break encouraged some 20 other prisoners to try to escape by informing them that three bands of Huk outlaws were waiting outside to help them.

Extra Water Available To Orchardists Now

There is still "flood" water available in Talent and Medford irrigation district canals and orchardists should take advantage of it while it is there, County Agent C. B. Cordy said today.

"Flood" water can be used by patrons of the irrigation districts without having it count against their regular irrigation quotas since the water is runoff water that enters the canals below the dams and reservoirs where water is impounded for the heavy summer use.

Cordy said many orchards are dry now and need any water they can get. The flood water will be available in the Talent canals until June 1 and in the Medford district canals for about a week after that. If it is not used before that time it will be wasted, he pointed out.

Portland Army Man Passes In Cleveland

Cleveland, O., May 26—(UP)—Brig. Gen. J. S. Gay of Portland, Ore., about 64, died in Cleveland's Charity hospital yesterday after he was stricken at the National Masonic Sojourners' association convention at the Carter hotel.

Cause of death was not known. He was with his wife. His body will be returned to Portland this week.
