

Delegates Return
From PTA Meeting
In California City

Bringing enthusiastic reports of convention accomplishments, Mrs. Frank Conner and Mrs. W. R. Glass of Medford have returned from Long Beach, Cal., where they attended the annual meeting of the National Congress of Parents and Teachers.

The extensive platform adopted for the coming year continues around the theme of home, school, church, community and world community, they report, and has been summed up in the following statement:

"We realize that the most important child welfare issue facing us today is the maintenance of peace in the world; that unless we accomplish this purpose, our children will have little opportunity for growth, freedom, or even life itself. In order to guarantee to the citizen child everywhere his right to that peaceful freedom to which he is justly entitled, we shall work together in home, school, church, community, nation and throughout the world to advance the idea that peace begins on our street, in our own homes and communities. Only then may we hope that security which will allow to the citizen child his freedom to grow."

There were 1800 delegates registered, including 29 from Oregon, they report, and they presented \$85,000 to the national congress for the new headquarters building in Chicago. The many observers included two from Japan and two from Germany, the vice-president of the national PTA group of the Philippines, the vice-president of the Federation of Home and Schools of Canada, and the United States consul and his wife from the Dominican republic.

He Doesn't Care Who Passes Him!

ONE of the rarest satisfactions a 1950 Cadillac brings to its owner is *serenity*. He hasn't the slightest reservation about his car—and he takes to the highway with complete peace of mind.

Watch him briefly in the stream of traffic—and, if he is a normal Cadillac driver, you will quickly sense what we mean. He drives as befits his mood and his requirements, and is quite content to let other people do the same.

Unless he happens to be in a hurry, it is all right with him if another driver wants the honors when the light turns green. He knows that the surplus power in that eager, dynamic engine was put there for his safety and driving ease—and not for dramatic display on the get-away.

And so on the open road. If you wish to drive a little faster than he does, let him know.

He understands that his last two inches of throttle were not put there for the ungracious purpose of dominating the highway. They are there for an emergency—and for that lovely, floating, cruising ride which only a great reserve of power can provide.

So roll along, if you're in a hurry—and the top o' the mornin' to you!

It's a wonderful thing, this feeling of calm confidence in your motor car. It lessens the strain, and increases the pleasure, of every mile you drive. Many say it's their happiest surprise when they first take the wheel of a Cadillac.

And we're wondering if you realize how easily and practically it can be your own. Listen... the lower-priced models in the Cadillac line cost less to buy than the highest-priced models of numerous other cars! Why not come in today?
