

Complement Near Completion for Navy Reserve Unit

The minimum complement of the new organized naval reserve unit in Medford is nearly filled, according to Lt. Henry Fisher, USNR, commanding officer of the new volunteer electronic warfare unit here. After completion of preliminary administrative details, it is expected that the company can be activated within several weeks. A meeting of the group was held here last night.

Officer personnel interested in the activity are advised that nearly all of the billets have been filled. Major vacancy remaining for assignment is that of lieutenant commander or senior grade lieutenant who can qualify to take over the command of the organization or serve as executive officer.

To qualify for duty, officers of the rank of lieutenant commander must be under the age of 40. Junior ranks must be 38 years old or younger. All officers must have the qualification of D. C. or T.

Billets Open
Limited billets remain open for enlisted men with ratings as radioman, radarman, sonarman, electronics technician, signalman, storekeeper, yeoman and pharmacists mate.

Men with no previous navy experience are eligible to enlist and strike for any of the ratings of the unit. All enlisted men will draw complete sea bags with uniform as soon as the unit is activated. Personnel will draw pay for attending the regular drill sessions of the unit.

Because of the small size of the company, first men who sign up will be accepted for duty. Men in the Medford area interested in the unit may contact Lieutenant Fisher at the California Oregon Power company, or Chief T. R. Bartholomew at the naval recruiting office at the post office.

The group will meet again at 7:30 p.m. next Monday, at the Federal building.

Motor Sales Firm To Move Location

Edgerton Motor company, 132 South Riverside avenue, Oldsmobile auto dealers here, today announced plans for moving into new, enlarged quarters about September 1.

New location for the firm will be 415 South Riverside, and the company will spend more than \$20,000 in enlarging, remodeling and refinishing the existing structure there.

Twenty-five car repair stalls, together with a body plant and grease racks will be included under one roof, it was announced, allowing a complete, modern and adequate repair set-up for motorists. Opening date of the new facility will be announced later.

E. H. Edgerton of the company left yesterday for the eastern auto factory, where he will spend some time endeavoring to arrange for increased deliveries of automobiles.

VANDENBERG REJOINS COLLEAGUES—Secretary of State Dean Acheson (left) chats with Senator Arthur N. Vandenberg (R., Mich.), who rejoined his colleagues of the Senate Foreign Relations Committee for the first time in months after a long illness. Acheson went before the committee to tell why the administration wants broader powers and more money to strengthen free nations against Communism.

Mumps Outbreak Falls To Ten New Cases

Communicable disease in the county fell to 19 new cases last week, with the current outbreak of mumps apparently lessening. Only 10 new cases of this disease were listed, including four in Medford, three in Central Point and one each in Shady Cove, Sams Valley and Phoenix.

Twenty-four new cases of the

disease had been reported the previous week.

Medford also listed two cases of whooping cough and one new case each of tuberculosis, Vincent's angina, measles and influenza. Ashland reported one case of pneumonia, and Central Point one of chicken pox.

Girl Scout Camp Openings Noted; Ask Reservations

There are still openings for Girl scouts during the first and fourth weeks of summer camp at Low Echo this season, it was announced today by the Girl scout office here. Mrs. Marjorie Hopkins, Girl scout executive, said that it is recommended that all "fly-up" Brownies attend the first week, July 9 to 18.

This week has been especially arranged to accommodate the youngest campers, with special counselors for the week, and emphasis of the camp program placed on young members' needs and interests.

Asked To Change

Girl scouts in more advanced units are being asked to change their camp registrations to the second, third or fourth weeks to accommodate the first-year campers.

Mrs. Hopkins said that there are other reasons for this requested change in registration, and cited the fact that snow is usually still on Mt. McLoughlin the first week, so the program for the older girls has to be delayed. By arranging the program to feature beginning camping activities during the first week, a more progressive program can

Phoenix Church Bible School Details Told

Phoenix, June 6—Further plans for the daily vacation Bible school to be conducted by Phoenix Presbyterian church were made at a meeting Sunday afternoon. The school will open Monday, June 12.

The age range for attendance has been changed and a nursery class will be conducted in which children of pre-school age will be enrolled. Any child who will be eligible to enter school in the fall will be assigned to the primary class, and there will also be classes for junior and intermediate ages of boys and girls.

Song services, object lessons and supervised recreation under competent leaders will be features of the program each day, the committee states.

The school will last two weeks

and will be in session each day from 9 to 11:30 a.m. Friday, June 23, an evening program will close the school.

Mrs. J. O. N. Poling, who is in charge of the program, has asked that all helpers be at the church next Sunday at 3 p.m. and final plans will be discussed and assignments made.

Unscheduled Visits by Stork Runs Hospital Short on Diapers

Prineville, Ore., June 6—(U.P.) The stork's refusal to cooperate with Memorial hospital here created a diaper shortage.

The hospital opened only last Thursday and no babies were scheduled to arrive until later this week. But the stork disregarded orders and brought two

RD-119 GIVES PROVEN PROTECTION AGAINST RUST AND CORROSION

In the past year, Richfield Rust-Proof gasoline has been proved successful on every Western highway. Hundreds of thousands of motorists have discovered the amazing way that Rust-Proof gasoline protects their cars from fuel system rust and corrosion.

This proven protection saves you money. It means fewer repair bills . . . more miles per gallon . . . better performance from your car.

Here's how rust and corrosion can cripple your car: Small amounts of water continually form in every car's gasoline tank. This happens when moisture from the air is condensed by daily temperature changes.

This moisture rusts and corrodes the gasoline tank bottom, fuel lines, fuel pump and carburetor. The result is loss of power, poor performance, frequent tune-ups, expensive replacement of damaged parts. *Your car may fail when you least expect it.*

When you use Rust-Proof gasoline, moisture is made harmless. An amazing chemical compound—RD-119—coats the inside of your car's fuel system with an invisible, water-proof layer. Rust and corrosion can't get started!

To get this money-saving proven protection for your car, ask for Rust-Proof gasoline at your neighborhood Richfield station.

PROPEL-ENE* powers your car with new Rocket-Action

Another Richfield "first"—PROPEL-ENE—makes possible greater performance from any car!

PROPEL-ENE is a new gasoline ingredient . . . a product of postwar research . . . that only Richfield produces in commercial quantities. Added to Rust-Proof gasoline, PROPEL-ENE lets you enjoy the maximum performance that was built into your car.

Rust-Proof gasoline containing PROPEL-ENE delivers a smooth, steady THRUST of power that we call **ROCKET-ACTION**.

It does this in three ways: (1) PROPEL-ENE assures high anti-knock performance at all speeds, from standing start to open-throttle. (2) It stops knocks in the lower speed range where many fuels have their poorest ratings—from 10 to 40 miles per hour. This is the "critical zone" for the newest, high-compression engines . . . it's the speed range where you do most of your driving. (3) With PROPEL-ENE, you get the maximum possible amount of your car's potential horsepower.

Today—enjoy this extra performance in your car! Drive to your nearest Richfield station; fill up with improved Rust-Proof gasoline containing the miracle ingredient PROPEL-ENE. Then, in traffic and on the highway, thrill to the new **ROCKET-ACTION**.

*Propel-ene—our word for polymerized propylene.

Now! A Nash for You—You and You!

Yes, there's a Nash Airflyte for every income—three great series covering all popular price ranges!

No wonder America's switching to Nash at a record-breaking pace. There's a Nash for every income—built with Airflyte Construction for comfort, safety and economy that's impossible with ordinary construction.

See the Rambler Newest Nash Airflyte—sensational Rambler Convertible Landau. Up to 36 miles per gallon at average highway speed! Smartest, safest, and lowest-priced 5-passenger convertible. Open car thrill—the safety of a sedan.
