.... AROUND HOLLYWOOD

By VIRGINIA MacPHERSON
United Press Correspondent

Hollywood, June 9.—(U.P.)—A gal who's been growing hair on balding movie romances unveiled a new machine today that she swears will do the job in 20 minutes.

Virginia MacPherson

Word had gotten around that Miss Stenz had something pretty sensational in her swanky Vine street salon-for-men-only. We had to wade through a sea of shiny-topped males with hope in their hearts to get a peek at this "miracle machine."

It looks a little like a junior atom-smasher with all its wires and chrome strips and gadgets and sprouting stream jets.

But she doesn't mind explaining how it turns baldies into happy men with hair.

Misty Spray
"It sends out a misty spray of oxygen, ozone, and ultra-violet ray," she said. "This gets right down in the scalp and opens all the pores that have been keeping the hairs from getting out."

"Once the pores are open— boom! Out come the hairs. And long ones, too. I'm so excited about it! It's the darndest thing I ever saw!"

Miss Stenz is a vivacious little redhead. She is also an enthusiastic salesman. We peered at half a dozen "ozoned" scalps and darned if it didn't look like there were long hairs growing where there'd been blank spots 20 minutes before.

(One of these blank spots belonged to our old man, and if this gadget does all Miss Stenz proclaims it will, we'll love her forever.)

Hair Needs Food
"Once we get 'em out," she went on, "we feed 'em. Growing hair is just like growing a garden. You have to give your plants oxygen and food or they'll die on you."

"My food solution is a mixture of hormones, minerals, vitamins, glandular elements, and a mild irritant. This is to start the normal pulsating process."

"It's very important to keep pulsating. That's what keeps the hair growing."

But it's expensive to be beautiful, she said. You have to shell out five bucks per treatment, plus about \$16 for the Stenz kit of hair "food."

He created seven new barons, giving them seats in the house of lords, and made 29 men knights, entitling them to the title of "Sir."

Actually the king won't celebrate a birthday until December 14, when he will be 55, but he traditionally awards honors on New Year's day and on his official birthday, which is celebrated in June.

Cottage Grove, Wis.—(U.P.)—This village is looking for a man with unlimited ambition, and twice as much energy. He would fill a job the village voters decided to establish in the last election. The job calls for "a man to work on a yearly salary to do street work, care of park, town hall, fire station, water pumping station, flushing of water mains, hauling rubbish, etc."

Riverside Motors To Move to New Quarters

Oscar Larson, proprietor of Riverside Motor company, dealers for Kaiser and Frazer automobiles, today announced his firm will move to a new location late this summer.

The company has been located on South Riverside avenue and the new location will be at the southwest corner of Central avenue and Jackson street.

A new building will be constructed, Larson reported, which will give the firm enlarged and more efficient service facilities.

A used car department will be operated in connection with the business.

Construction on the building will be started as soon as possible, and it is hoped to have it completed before fall.

CHANCE TO SHOW
Capitola, Cal. (U.P.)—While a San Francisco police officer, Larry Hall, demonstrated modern police methods in this village, someone stole his automobile.

Announcing the Opening
