Oregon Still Top Strawberry State

Oregon is still the nation's leading strawberry producing state but is feeling stiff competition from Michigan growers, according to the Oregon State college extension course in its weekly tree fruits and nuts crop report.

Michigan's tonnage has jumped from well down the line to second place, the extension service said, and this year's crop there is expected to reach some 21-300 tons, 40 per cent larger than last year and 65 per cent above average. The Oregon crop, estimated at about 21,400 tons, is the same size as last year and 30 per cent above average. Production in Michigan averages 3,800 pounds per acre and 3,200 pounds in Oregon.

More than 5,400 12-basket crates of strawberries arrived on the Portland market last week, almost all of them from Oregon, the extension service reported. The carlot movement of California strawberries was only 37 cars the week ending June 10, compared with 59 the previous week. Total carlot shipments this year to June 10 were 557 carlots compared with 400 at the same time in 1949.

Home Loan Bank for Northwest Suggested

Portland, Ore., June 22—(U.P.) The Pacific northwest conference of savings and loan associations closed its annual session here yesterday after adopting a resolution urging the re-establishment of a federal home loan bank to serve the area.

A spokesman for the group said there had been no home loan bank in the Pacific northwest since 1946 when the Federal Home Loan Bank association consolidated the Portland and Los Angeles banks to form a single bank in San Francisco.

McCarthy's Charges Are Unsubstantiated, Sen. Tydings Claims

Washington, June 22—(U.P.)—Sen. Millard E. Tydings (D., Md.) said today an FBI checkup does not substantiate Sen. Joseph R. McCarthy's charges that state department loyalty files have been "tampered with."

The files are those made available by President Truman to Tydings' senate communist investigating subcommittee. They cover 81 individuals McCarthy has charged with being communists, red sympathizers and bad security risks employed, or recently employed, by the state department.

Tydings told a news conference that the justice department and the FBI checked McCarthy's allegations that the files had been "raped," "tampered with," and "skeltonized," to delete "damaging material."

"The charges are not substantiated by the facts," Tydings said.

Public Works Report Shows Many Tasks

The great amount of work being handled by the public works department of the city of Medford is reflected in the department's report for May.

During the month 437 miles of streets were swept and 505 miles flushed. Hand sweeping consumed 44½ man days. Crews spent 50½ man days putting 84½ tons of black top patching on streets and 12½ man days putting down 12 tons of cold mix. Two street graders had a total of 18 man days use.

Six man days were spent in regular sewer cleaning amounting to 3,250 feet. Five and one-half days were spent on emergency sewer cleaning. Nine sewers were connected taking 221 man hours.

Shop repairs took 61¾ man days. Twenty-three man days were spent painting 10,837 feet of crosswalks and 620 feet of curbs.

Library Board Asks Bids for Addition

Medford library board has set 4 p. m., July 25, as deadline for receiving bids for construction of an addition to the library, it was reported yesterday.

Bids will be received by the secretary of the board in care of the city superintendent's office.

Prequalification forms and notices have been mailed to prospective contractors. The statements of qualification must be returned to the superintendent's office by 4 p. m. July 14. Plans and specifications are available on request but a deposit must be made for them.

The addition will provide about 50 per cent more floor space at the library. Its design will blend with the plans for long range civic center development in the vicinity on West Main street.

Dead line on Classified Ads: 5:30 p. m. for following day; 10 a. m. Monday, noon Saturday for Sunday a. m.

X Crossings should be Seen and not Felt

WHEN the sign says "Stop, Look and Listen," the prudent driver does.

But after that what? Must you still move forward at a cautious crawl or pay toll in jar, jitter and jounce?

Not, good sir, when you're at a Buick's wheel.

You step on the throttle, move easily, swiftly forward. Your wheels dance—your tires drum-roll over rail and plank.

But four gentle coil springs, one on each wheel, are working their magic—and you hear rather than feel the rough spot you have crossed.

That, of course, is only one kind of rough going you can meet in your travels. It's only one kind of discomfort your Buick's built to master.

For beside gentle coil springing, every Buick rides on soft, low-pressure tires. Every one is steadied by a rigid torque-tube. Every one boasts a rigid, weaverproof frame—soft, sure shock absorbers—even special engine mountings to minimize vibration.

They can have the special added smoothness of Dynaflo Drive,* cushioning power-thrust in spinning oil.

So rough spots seem to level out

at your coming. Boulevards take on a new smoothness. You know what riding comfort is—why the Buick ride is called matchless.

So how about it?

Come climb into a Buick and see for yourself what we mean. You'll get a style-thrill and a power-thrill along with your ride-thrill—and a story on price that eliminates your last excuse for not traveling in the Buick manner!

Only BUICK has Dynaflo—and with it goes HIGHER-COMPRESSION fireball valve-in-head power in three engines.
