Housewives Close to Push-Button Kitchens

Chicago, June 22 — (U.P.) — Housewives can stop dreaming about a "push-button kitchen," home appliance manufacturers said today.

They'll never get much closer to one than they are right now. Nearly everything in the kitchen already works automatically. To prove it, the manufacturers pointed to exhibits at the 26th international summer home furnishings market.

Has Magnetic Door

You can have a refrigerator that keeps moist foods because the humidity is constant. It doesn't need defrosting because the walls are kept at an even temperature so no frost collects. You can store the family's food for months in the freezing compartment.

Housewares manufacturers will continue to think up helpful ideas as time goes on.

But, the manufacturers said, no one will ever invent a machine that can stir up a cake and put it in the oven, or drop the

eggs in a frying pan, or look pretty in an apron.

Federal expenditures have risen from \$3.4 billion in 1930 to \$9.3 billion in 1940 and \$42 billion in 1950.

The Hoover commission has reported that \$140 million a year could be saved by modernizing the organization methods and equipment of the U. S. post office department.
