Radio Dial Lights

By Johnny Ahern

As you may have noticed yesterday, we have some new news items for the column, and we hope this can be a steady practice. Many thanks for cooperation of the people necessary to keep this rolling.

American Medical association broadcast today at 7:30 p.m. on ABC. Chief topic... Socialized Medicine.

As usual, Uncle Joe is shouting the Korean affair is entirely the fault of the decadent democracies. Wonder what he would say if we actually did take the initiative and hand him a pill one of these days.

Mr. Kaiser has a new beauty... as shown by Mr. Gaines... in green.

New Cads on the streets would indicate a change of currency in radio circles. May it lead to better ways for everybody... including the Cadillac.

Danger points: Intersection of highway 99 south with Stewart avenue. A firework stand on one side, just beyond the city limits... and a service station sign on the other that does a fine job of blocking traffic vision when you're approaching the highway from Stewart.

REFUELING SPEED

Cleveland (U.P.)—A big objection to the use of the B-36 bomber has been eliminated by the application of a new refueling nozzle. It used to take eight hours to fill the big plane with its two railroad tank cars of gasoline. With the new nozzle, it takes only one hour.

Queen Contest At Jacksonville To Get Under Way

Jacksonville, June 26 — With a \$300 wardrobe at stake for the winning candidate in the Jacksonville Gold Rush Jubilee queen contest, competition is expected to be keen, according to Dr. Roy White, chairman for the contest. Second place winner will be awarded \$100 in gold; third \$50 in gold and fourth, \$25 in gold. Seven firms have signed up to sponsor candidates, according to Lloyd Rupp, in charge of contacting sponsors. None have announced candidates as yet, he said.

Sponsors Named
Sponsors include Taylor's Drug Store and Ben's Food market, Jacksonville; Big-Y market, Medford hotel, Fluhrer's bakery, Colonial inn and Trowbridge and Flynn.

Anyone wishing to sponsor a candidate, whether an individual or a firm; or any young woman who wants to be a candidate, may contact Dr. White by calling Jacksonville, 362. Candidates may get in touch with the above sponsors, some of which may not have candidates selected. The contest will get under way by July 1.

HONORS COACHES

Durham, N. H. (U.P.)—This college town has three streets named after former football coaches at the University of New Hampshire. Cowell Drive was named for the late Bill Cowell, one-time president of the American College Football Coaches Association; Sauer Terrace for George Sauer, now coach at Baylor University; and Glassford Lane for J. William Glassford, now coach at the University of Nebraska.

IT TAKES FROM TEN TO TWENTY YEARS

In 1939 or 1940 I hailed and heralded here what promised to be a boon to the public—namely, the peg tooth. I did so upon the report by Alvin E. Strock, D. M. D., of his experimental work in implanting a metal support for a tooth into the bone of the jaw. Dr. Strock described three cases in which he had inserted a screw made of vitallium (a special metal alloy) into the bone in the space where the tooth was missing and then attached the artificial tooth to the peg.

I caught hell for my "premature" and unwarranted announcement of the peg tooth achievement, from dentists in various parts of the country, some of whom ridiculed the very idea of inserting a metal screw or peg into the jaw bone as a base for an artificial tooth to take the place of a missing tooth without attaching the artificial tooth to a tooth on either side.

Although I never apologized or acknowledged I had been wrong, I had to pull in my horns and refrain from much further talk about peg teeth because I couldn't find any dentists who were prepared to employ the new technique. Dentists, it seems, are even more conservative than physicians in respect to new developments, methods or techniques. Although the relatively painless and effective ambulatory office of internal hemorrhoids (piles) has been established as the method of choice now for years, there are still many physicians who inflict the atrocious clamp and cautery "operation" on their patients—if the luckless victims are aware of the ambulatory treatment and ask about it these old timers assure them that it has been tried and discarded, or that it is dangerous, or that it doesn't cure the trouble. Maybe some of them really know no better, but if so, it is just another indication that there is something radically wrong with medicine.

A reader sends me a newspaper report of a session of the Connecticut State Dental association in Hartford May 22, where Dr. Moses S. Strock, oral surgeon, presented a report of his research work in implanting such metal screws or pegs in the jaw to support artificial teeth.

This can be done in child or adult at the time a tooth is extracted or later on. Dr. Strock said a patient can put as much pressure on such a peg tooth as one could on a normal tooth.

Erickson Sentenced To Jail Term; Fined

New York, June 27 — (U.P.)—Kingpin bookmaker Frank Erickson was sentenced yesterday to a two-year prison term and fined \$30,000 for operating a multi-million dollar coast-to-coast bookmaking business. Special Sessions Justice Nathan D. Perlman, presiding over a three-man bench, also sentenced the pudgy gambler to one year on each of three bookmaking counts but suspended that sentence.

The \$30,000 fine was the maximum possible under the criminal information to which Erickson pleaded guilty last Monday. The information listed 59 counts of bookmaking and one count of conspiracy to violate the gambling laws.

Savage Creek Mill Destroyed by Fire

Rogue River, June 27 — The Savage Creek sawmill was destroyed early yesterday afternoon by fire of unknown origin. Rogue River rural firemen were called and used the new portable fire equipment, pumping water from the mill pond. The roof of the mill was caving in when the firemen arrived. They were able to save all lumber piles and cabins, however.
