Your Health and Its Care

By DR. WILLIAM BRADY, M.D.
Readers should address inquiries to: William Brady,
265 El Camino, Beverly Hills, Cal.

A DOCTOR WHISPERS HIS APPROVAL

Reading your article on the place of the husband at childbirth (with his wife), I find myself very much in accord with you. My expectant mother has brought me your articles from time to time, as I recall, articles on the positive value of breast feeding, rooming-in, on demand feeding. With these ideas I have agreed in toto. I write this because I feel that we can all use a bit of encouragement in our work. This is just a personal communication and if you use any part of it I request that I not be directly or indirectly identified. (M.D.)

Thank you, Doctor.

I have never revealed the identity of a correspondent, lay or medical, without his or her written permission.

Aside from the circumstance that Oliver Wendell Holmes was responsible for this column—the Autocrat and Professor sketches were originally published serially in a New England magazine—there is a vague similarity between us, I like to think. Holmes was maliciously criticised by the bigshots of the profession because he taught that the doctors and nurses conveyed puerperal septicemia (child-bed fever, blood poisoning) to their patients on their infected (unclean) instruments and hands. The background!

The resemblance, I admit, is not striking, but I have received some pretty stiff treatment from bigshots in obstetrics, from hospital authorities, nurses and even general practitioners who dislike

CREMOLUSON

OUT OF THE WOODS By Jim Stevens

There was more rousing talk and stirring doings in the Western Washington Farm Forestry Association's annual meeting at Tacoma than I've heard and seen in a coon's age. And the strongest drink on tap was coffee. The farm woodland as the over-all subject was stimulation enough. I wish I could have stayed on half the night.

The numbers of dirt farmers in the crowd that packed the

1,200 Attend 1st Of Bible Lectures In Series Here

A total of some 1,200 persons attended the first two Bible lectures in a series being given here at the new Bible auditorium at 910 South Central avenue, it was reported today.

Evangelist Harold Metcalf spoke twice, at 3 p. m., when the audience numbered about 500, and at 7 p. m., when more than 700 attended.

The evangelist using different texts on the subject of "Heaven," described the future world as a tangible place. "Heaven is not a ghost land nor a spook country," he said, "but is as real a place as any on which you have ever placed your feet."

Changes Predicted

The speaker claimed that heaven will have a new location after 1,000 years, according to his interpretation of the last three chapters of the Bible. On earth, he said, after a complete renovation, there will be a program of building and planting, a "back to the soil" movement, and on an own your own home growth. The Prophet Isaiah shows it "will not be a la-y man's country," Mr. Metcalf said.

A song and pantomime version of "How Betsy Made the Flag" was a feature of the evening, and both services opened with congregational singing of "The Star Spangled Banner."

The Bible lecture series will continue each day through Friday this week at 7:30 p. m.

stand how a couple who love each other accept it as "proper."

QUESTIONS AND ANSWERS

Smoker's Duodenal Ulcer Complex

Husband has been a heavy smoker for 30 years. Now after a series of x-rays the doctor says he needs surgery—it looks like ulcer. (Mrs. M. D.)

Answer—He should stop smoking and see whether the "ulcer" symptoms do not clear up. It takes not less than three months to determine whether the condition was due to smoking.

A Medical Fad

Worried about sick because of the colds my children have throughout the cold weather. Had a doctor three times—the younger had penicillin and also aureomycin. It takes a fortune and the children have such frightful reactions—the eight-year-old breaks out all over, his eyes shut up tight from swelling. (Mrs. J. W.)

Answer—There's no sense in giving such drugs for what ignorant people call "colds" as there is in calling an indisposition "cold." You may learn something to the advantage of your children and your budget by studying the booklet "CALL IT COLD—for which send 25c and stamped, self-addressed envelope, luminal.

Notice you did not mention sodium luminal among the barbiturates. Is this as dangerous as the barbiturates? (Mrs. H. S.)

Answer—Yes, luminal is a brand of phenobarbital.

In 1915 an earthquake caused a Nevada mountain to grow 30 feet.

MOO-O-OS and MUSINGS

Tom Wray, who is up the creek from Main Street, reports seeing a number of crustaceans in the stream.

All dock hands will report to the employment office at once because the shrimp boats is accomin' up Bear Creek.

with the First National Bank of Oregon City. However, federal government restrictions in the lending field has the financing of second-growth management blocked off.

Taxes on tree-growing land is to me the Department of Utter Confusion. All I know about it is that I let my own second-growth Douglas fir land "go for taxes back in 1934 and that from the talk of the farmers at the Tacoma meeting many small owners are still doing the same, despite the vast market demand for farm woodland products of today.

But even from discussion of taxation hope shone and good humor prevailed proving that pooling individual ideas in open meeting forms a vital force for progress in our time on any

problem of importance. Individuals stood out. President H. Dorn Brown is a dirt farmer, happily from the town of Woodland. Adna Booth, Bader farmer, vice president for the Southwest Washington district, is one of the best forestry speakers I've ever heard. I learned a lot from Carl Lamb, Lewis County, woodland owner, too, and as always from Mac James of Snohomish County. Mr. James was presented with a handsome

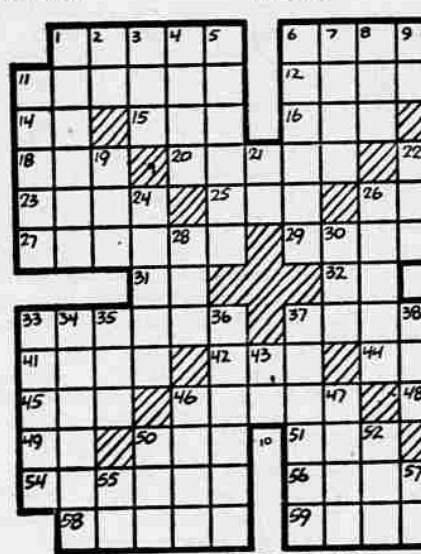

Suppose Your Child Needs Aspirin In The Middle Of The Night?

How good to have St. Joseph Aspirin For Children handy for instant use! Approved by thousands of doctors. Your child will like its orange flavor—you'll like not having to treat or cut tablets—each is 1/4 adult dose. Don't wait, be prepared—buy St. Joseph Aspirin For Children today. 50 tablet bottle 35c.
