

YOUNGSTERS SING—The "Harmony Wreckers" quartet, above, will be one of a number of local singing groups which will participate in the second annual "Harmony Jamboree and Parade of Quartets" at the Medford high school auditorium Saturday evening. Tickets for the event are going fast, according to the sponsoring Medford chapter of the Society for the Preservation and Encouragement of Barber Shop Quartet Singing in America. Proceeds will go to purchase supplies for the two ambulance planes operated by Mercy Flights, Inc. A number of quartets from all parts of the state, and two choruses, will be on the program. The boys above, left to right, are David Muir, tenor; Eugene Coggins, lead; Bruce Bailey, baritone; and Ivan Farris, bass.

Pickin' Pears News, Gossip, Comment From Camp White

By L. J. "Tick" Malarkey
Camp White made history this past Friday night.

The Veterans Hour, the first radio broadcast from the station, was aired by Medford station KYJC. The show itself was under the direction of Charlie Mack of Hollywood and Jimmy Dunlevy of Medford. The Meyers Holland post of the Central Point American Legion sponsored the program and it is the brain child of Bill Keizyr of that post.

Preceding the Quiz show, acts from the Red Barn, Medford high school and Kiwanis Kapers were shown. Those men on the station taking part in the program were George Parker, Walter Hellum, Hans Sorenson, David Von Needa, Archie McBeth and Eddie McNeen. There was not a vacant seat in the auditorium. And the doors to the balcony were thrown open to accommodate the overflow crowd which came to the station that evening.

Babe Roberts is collecting from the members for the American Red Cross. He has better than half made his quota. Babe is the old marine that heads many of the money drives out this way.

For an hour Tuesday evening of last week the Medford high school band under the direction of I. A. Mirick entertained the men at a Junior Red Cross program arranged by Vera Humphrey. The music was greatly appreciated. Following the concert refreshments were served. Miss Humphrey always comes up with something good in the way of entertainment. And when she is scheduled to appear a crowded house always greets this charming lady.

Ladies of the VFW auxiliary of Medford put on a dance Monday night. A good group of them came out of town. Music was furnished by Art Kenton's Camp White orchestra. Archie McBeth is a new vocalist featured with Kenton and sang four songs during the evening. The intermission featured refreshments.

New PARTS FOR OLD!

SAVE YOUR WORN CATERPILLAR PARTS THEY CAN BE REBUILT!

To help keep your present "Cat" equipment at work, we have added new parts services. Now we can rebuild many critical worn-out parts to "like-new" condition. These parts are built-up, precision finished and fit like the originals... and they give a long work life. Cost is low. Our stock of factory-made parts is tops in the industry.

These parts services assure a longer life for your vital "Cat" equipment... insure a drop in down-time. Come in and see our parts rebuilding facilities in action... see what they mean to you and to your equipment. Do it today!

On The Side By E. V. Durling

(Distributed by King Features Syndicate, Inc.)

You while your babes around you ciling, Shall show us how divine a thing A woman may be made.

(It was Thackeray who said: "Is not a young mother one of the sweetest sights life shows us?")

In the matter of number of conventions staged annually within its limits, New York City is second on the list. Chicago is the country's top convention city. Incidentally, it is said by those who should know that all-male conventions make the most noise, but all-female conventions do the most damage. The women break more things and burn more holes in the room equipment than men. This, it is said, is especially true of sorority conventions.

Nose Operation
Many women are desirous of having the shape of their noses altered. Also quite a few men. As the nose is an extremely im-

portant factor in general facial appearance this desire is readily understood. But those wishing to have it done should know it can be a very dangerous operation. I know of a man who is said to have died because of a faulty operation for nose alteration. He was a very celebrated fellow. I also know of a woman, wife of a well-known comedian, whose appearance was ruined by a nose operation. So I advise anybody contemplating such an operation to go slowly, to be certain the surgeon engaged is completely capable and reliable.

Horses & Women

Marcel Boussac is the owner of the largest racing stable in Europe. Perhaps the largest in the world. Boussac is a millionaire many times over. Where did he get his millions? He owns over 30 textile factories in France. Boussac backed Christian Dior financially. Dior gratefully responded by originating styles calling for much material as in the so-called "New Look." Women who want to be in fashion are still going for such styles. As for example, those evening gowns that look like tents. I understand one of these gowns can require as much as 36 yards of

material. No wonder textile manufacturer Monsieur Marcel keeps adding to his millions and expanding his racing stable.

Briefly

The eight hour working day was first campaigned for in Chicago with the slogan: "Eight hours for work, eight hours for sleep, eight hours for recreation." . . . When large fortunes are mentioned, that of Charles Nash, the automobile magnate, is frequently overlooked. Mr. Nash left over \$50,000,000. The Scots spell it "whisky." That is, without the "e." Keep that in mind when you make a written reference to Scotch whisky.

Asking

Queries from clients. Q. Where is "Dead Man's Curve" in New York City, and why is it so called? A. Place you mention is a thing of the past. It was a curve in the cable car line at 14th street and Broadway. So many pedestrians were knocked over by cable cars at that spot it was nicknamed Dead Man's Curve. Q. How about this expression, "As independent as a hog on ice?" What is the origin of it? What has a hog on ice got to be independent about? A. Your query baffles me, sir. Q. An argumentative acquaintance, one of those stubborn natives of the Bronx, claims Eddie Rickenbacker was with the Lafayette Esca-

MEDFORD (OREGON) MAIL TRIBUNE—THREE

Film Studio To Fight Payment to Lardner

Hollywood—(U.P.)—Darryl F. Zanuck, vice-president of 20th Century Fox, Thursday reaffirmed the film company's determination to upset a U. S. Court judgment which gave Screen Writer Ring Lardner Jr.,

Rosa to sing the role of Carmen. Her leading man on this occasion was none other than Caruso.

\$25,000 from the studio after he was fired. "The attorneys for 20th Century Fox Film Corp. have filed a motion for a new trial which is now set for hearing for April 7," Zanuck said. "In the event that this motion should be denied it is the intention of the company to appeal the case to the Circuit Court of Appeals."

The average American car is driven about 120,500 miles before it's junked. Twenty-five years ago cars were driven about 75,700 miles and were junked.
