

Around Hollywood

By ALINE MOSBY
United Press Correspondent

Hollywood — (U.P.) — Movie stars, fans, bleachers and searchlights will take their places for the academy awards Thursday night—but more than half of the nominees won't be there.

Like last year, Hollywood's 22nd annual back-patting festival will be another "case of the absentee movie stars."

Only nine of the 20 movie queens and profiles nominated for filmland's highest honors will show up at the Pantages theater on glittery Hollywood Boulevard. The other 11 are scattered half way around the world.

Three of the four winners of the acting Oscars are likely not to be in the audience to weep their acceptance speeches. Not one nominee for the best supporting actress award is in town. Joan Blondell, Thelma Ritter, Kim Hunter, Lee Grant and Mildred Dunnock all are in New York.

Others in New York
Vivien Leigh and Marlon Brando, hot favorites to win for their roles in "A Street Car Named Desire," are in New York, too. Brando lives there and Miss Leigh is busy playing Cleopatra on the stage.

Jose Ferrer and Judy Holiday

collected their 1950 Oscars by remote control from New York, too. Last year only eight nominees stuck around Hollywood.

Of this year's star nominees, only Arthur Kennedy, Humphrey Bogart, Jane Wyman, Eleanor Parker and Shelley Winters will give the fans in the 850-seat bleachers outside the Pantages a treat. Nominee Katharine Hepburn is in London to appear in a play. Fredric March and Montgomery Clift are in New York.

Supporting actor nominees Leo Genn, Karl Malden, Gig Young and Keven McCarthy will drive up in limousines for the event. The fifth nominee—Peter Ustinov, is in London.

Big-Wigs Shell Out
But other stars, big-wigs, and a few fans shelled out \$6 to \$12 for the 2812 seats in the theater.

The Academy of Motion Picture Arts and Sciences, an honorary group, will hand out 29 Oscars, plus trophies for any special awards. The 112 nominees were picked by the 11,739 members of the movie industry. Only the 1700 academy members voted on the final winners.

Miss Leigh is a past winner for "Gone With The Wind." If March's name is announced when the envelopes containing the winners names are opened on the stage, he'll be the only star to boast three Oscars. He collected awards for "Dr. Jekyll and Mr. Hyde" and "The Best Years of Our Lives."

Will Be Broadcast
The presentation ceremonies will be broadcast over the American Broadcasting Company radio network at 9 p. m. PST.

Since many movie studios won't let their stars appear on TV, the event will not be televised.

Heavy Run of Smelt Reported in Cowlitz

Kelso, Wash. — (U.P.) — The heaviest smelt run on the Cowlitz river in four years produced an additional 60,000 pounds Wednesday, but other Columbia river tributaries reported no trace of the silvery fish.

Commercial dipnetters here reported the price remained at \$7 net a 50-pound box set by the Smelt Fishermen's Co-operative at Clatskanie, Ore. The Co-operative gave up fishing Tuesday after a season's catch of 17,000 boxes.

Few amateurs were taking smelt in the Cowlitz because the fish were running deep.

Final Irrigation Water Forecasts Due in State Soon

Final Oregon irrigation water forecasts for 1952 will be announced at a series of regional committee meetings beginning March 29, according to W. T. Frost, Oregon snow survey leader.

Facts collected through federal-state cooperative snow surveys and irrigation water forecasts will be discussed. Nine regional groups will meet, beginning with the north central Oregon committee at Hood River, March 29.

Other committees and their scheduled meeting places and dates are: central Oregon at Redmond, March 31; John Day-Harney basin at Burns, April 1; Umatilla-Walla Walla at Pendleton, April 2; northeastern Oregon at Enterprise, April 3; southeastern Oregon at Ontario, April 4; south central Oregon at Lakeview, April 5; southern Oregon at Grants Pass, April 27; and Columbia basin at Portland, April 11.

The state wide preliminary water supply outlook for Oregon is "good" to "excellent," Frost announced. Above normal snow cover is present in the mountains and March 1 records have been broken on 52 of 93 snow courses measured, he said.
