

Every Flake Different—The beauty and geometric pattern of snow crystals were captured by cameraman Lewis Humphrey for "Hidden Treasures," latest Moody Institute of Science film. Fifth in the "Sermons from Science" series, the film in its snow sequence reveals that every flake has a different design. This natural color-sound documentary picture, revealing the wonders of the microscopic universe, will be shown at the First Presbyterian church, Sunday, April 6, at 7:30 p.m. and at Community Bible church, Central Point, Monday, April 7, at 8 p.m.

Science Picture At Presbyterian Church on Sunday

"Hidden Treasures," latest religious-science film of Moody Institute of Science, delving into the wonders of creation as seen through telescope and microscope, will be shown at First Presbyterian church, Sunday, April 6, at 7:30 p.m. The MIS cameraman reportedly risked life and limb to capture some of the unusual scenes. Their adventures took them all the way from the depths of the sea to the glassed-house plants called diatoms.

Produced by Dr. Irwin A. Moon, director of Moody Institute of Science, "Hidden Treasures" represents 18 months of tedious camera work. Pastor To Speak At the 11 a.m. service the Rev. D. Kirkland West, pastor, will speak on "Is Christ Your King?" Miss Ann Denman will lead the senior high Westminster fellowship at 6:30 p.m. on the topic "What Comes After Death?" The group will have a social hour after the evening service at the home of Bob Hays on Kings highway.

faith and friendship walk hand in hand

Millions of Americans this month are making it a special point to invite their friends into their churches—as freely and frequently as they ask them to their homes. You'll find that SHARING your faith does something for you, and for your friends as well... it grows when it's shared... and your friendships grow, too.

Take someone to church this week... you'll both be richer for it
