Monday Last Day For Spring Term SOC Enrollment

Monday will be the final day for spring term registration at Southern Oregon college, according to Mrs. Mabel W. Winston, registrar.

Valley residents interested in attending evening courses may continue to enroll for the remainder of this week, however. Acceptance to the several courses will be handled by individual instructors of the night sessions.

Classes still open for enrollment on Monday evenings are vocal music lessons, orchestra, school organization and law, and contemporary novel. Tuesday's open class is essentials of speech, Wednesday's is contemporary problems and social dance, and Thursday's is folk dance.

Mrs. Winston reported that enrollment at the end of the first week of spring term registration totalled 519 students. She said the figure was a decrease of 20 per cent compared with last spring.

No Further Drop
"No further drop is anticipated in the future," Mrs. Winston added. "In fact, study of secondary school enrollment promises a continued increase in college attendance for a number of years to come."

Spring term will continue through June 6 and the eight-week summer session will begin June 16.

Friends Search Beach For Missing Boatmen

Seattle—(U.P.)—Friends searched the beaches of Bainbridge Island and Coastguardsmen dragged Puget Sound Saturday for two Seattle men feared drowned when their high-powered outboard motor boat capsized.

The body of Mrs. Adam Zimmerman, about 55, was found floating near the overturned boat Friday night. Missing were her husband, about 60, a building contractor, and their son, Cpl. Harold Zimmerman, about 22, who was home on furlough from Fort Story, Va.

The Coast Guard said the boat and Mrs. Zimmerman's body were discovered by a local resident who was walking on the beach.

A Nichols' Worth of— Comment On This and That

BY HARMAN W. NICHOLS
United Press Feature Writer

Washington—(U.P.)—Down at the Marine base at Cherry Point, N.C., sits a pilot who is mad enough to gnaw on a 10-penny nail.

He's not identified because he couldn't be in much more trouble and because I'm no tattletale. My information, though, came from an honest Harman Nichols source.

It was like this: This poor fellow was sent to Cherry Point some time back because he was the only man in that area who knew how to fly an air-sea rescue helicopter.

For three weeks he was on 24-hour detail and all he did was sit around waiting for somebody to rescue.

He got a little tired of that and went right to the top and demanded some relief.

"How about checking out some more pilots to fly this model?" he asked the squadron executive officer.

Pilots Checked Out

The top officer looked into the matter and found that the only likely spot for that kind of action was at Jacksonville, Fla. While our man kept on sitting, five Marine pilots were checked out and sent to Quantico, Va.

There was no model helicopter there, so they went back to home base.

Finally, the pilot at Cherry point looked at the calendar and discovered that he had been on

State Commission Reports Decline In Unemployment

Salem—(U.P.)—Unemployment declined in Oregon by 7,597 in March, the Oregon State Unemployment commission said Saturday.

But the April 1 estimate of 32,567 persons looking for jobs in this state was still above last year's comparable figure of 29,003.

Although 40 per cent of the unemployed were from lumber and logging operations, most of the local offices in Western Oregon's fir area reported conditions better than on April 1, 1951. Roseburg, Eugene, Lebanon, McMinnville and Astoria noted considerable improvement in the past 30 days.

Payments to workers covered by unemployment insurance amounted to \$2,101,532 in March, somewhat less than in January or February but 29 per cent more than the \$1,631,450 a year ago.

This year's first quarter total of \$7,383,083 was exceeded in only 1950 of seven post-war years. During the first three months of 1951 only \$4,879,407 in benefits was disbursed by the commission.

Vets From Korea Arrive in Seattle

Seattle—(U.P.)—The luxury liner SS La Guardia is scheduled to arrive here Sunday at 1 p.m. with 453 passengers from the Far East, including 158 Army men returning home on rotation furlough.

The La Guardia, operated by the American President Lines under charter to the Military Sea Transportation Service, will be the 81st MST ship to arrive in Seattle with rotation troops from the Far East. It will bring to 108,406 the number of Korean veterans returned through Seattle.

Washington residents aboard include: SFC. Clarence H. Hendricks, Seattle; Maj. Robert V. Meith, Tacoma; 1st Lt. Earl W. Atkins, Ephrata; SFC. Robert M. Martin, Chelan; M-Sgt. Ferdinand Johnston and M-Sgt. Harry Ost, both of Renton.

California Man Named Boulder City Manager

Washington—(U.P.)—Harold N. Corbin, city manager of Porterville, Cal., has been named manager of Boulder City, Nev., it was announced Saturday.

Boulder City is a government-built and operated community at Hoover dam, the world's largest

dam. The Interior Department said it is working on a program to make the city self-governing, and it will be Corbin's job to help formulate the program.

MEDFORD (OREGON) MAIL TRIBUNE—ELEVEN

Missing German Shepherd Found Tightly Wedged in Culvert Pipe

Seattle—(U.P.)—Jack, a black and tan German shepherd dog missing from his home for more than a week, was found stuck in a culvert Friday—hungry and "badly dehydrated," but alive.

The dog's owners, Mr. and Mrs. R. D. Pemberton, had feared that Jack had run away or fallen victim to an automobile. But eight-year-old Bobby Ward, while on his way to

school, heard Jack whining and spotted his nose and forepaws at the mouth of the culvert. Neighbors gently extricated the animal from the culvert where he had apparently chased

a smaller animal. He was wedged at the narrow end of the pipe. "He is pretty badly dehydrated and very weak," Dr. Eldon E. Engel, a veterinarian, said.

Congratulations!
