Matson Star Of SFU Win

San Francisco—(U.P.)—Aided by the flying feet of Football Star Ollie Matson, who won two firsts and shared in a third, University of San Francisco's track and field team defeated Sacramento State, 72 1/3 to 58 2/3 Saturday.

Matson, tuning up for the Olympic trials, ran the 100 in 10.3 seconds; and the 220 in 22.1. He also anchored the winning mile relay team.

Other double winners were: Jerry De Ryan, USF, in the mile and two-mile runs; Joe Wright, Sacramento, in the high hurdles with a time of 16.3 seconds; and the lows, in 27.8 seconds; and Phil Oakes, Sacramento, who tossed the discus 119 feet, 2 inches; and the javelin 161 feet, 4 1/2 in.

Fifth Win in Row Recorded by SJS

San Jose, Calif.—(U.P.)—San Jose State college took both ends of a baseball double header Saturday against Sacramento State college, 5 to 2 and 7 to 3, to keep a Spartan winning streak alive at five straight.

Winning pitchers were left-handers Johnny Oldham in the first game and Jim Collins in the seven inning nip.

In the first game, Leftfielder Any Miller drove in three runs for San Jose State with a triple and a single while Oldham helped his cause with two singles to score two runs.

The second game was sewed up in the second inning when San Jose center fielder Joe Bonfiglio sparked a six run rally by scoring three of them on a two-base hit.

Girl Left To Strangle By Deranged Spinster

Houston, Tex.—(U.P.)—A "mentally incompetent" spinster beat and kicked a five-year-old girl, then left the child dangling from a venetian blind cord to strangle slowly, police said Saturday.

Miss Vita Williams, 58, was held in Harris county jail accused of little Andrea Louise Burkenhoefer's murder. She told officers the child "made me nervous" as the little girl danced happily around a room.

Doctors described the woman as a "mental incompetent."

POLICE RESERVE—Pictured above are members of the newly-formed Jackson County Police Reserve, Inc., an organization which will assist Sheriff Howard Gault during any emergency or disaster. They are, left to right, front row, Lester Stamper, John F. Rush, Charles Friend, Everett Kistner, Arch Masterson, Cliff Friend, Roy Hewitt, James Griffith

and Hale Wheeler. Those in the back row, left to right, are Jack Lewis, Don Elliott, William Leever, C. C. Vandagriff, Gault, E. H. Pathmann, Clyde Richmond, Charles Bottjer, Sam L. Jones and John Creel. The organization, which is designed to fit into the county civilian defense program, has a goal of 40 men and 10 jeeps. Members receive training in first aid, police procedure and maps and road study.

Non-Cooperation In River Project Cited by Senator

Washington—(U.P.)—Sen. Arthur V. Watkins (R-Utah) complained Saturday that President Truman and executive agencies did not cooperate in getting a plan for development of the upper Colorado river basin before Congress.

The Army Engineers, Reclamation Bureau and Mr. Truman, in stating a "no new start" policy for water projects, all failed to cooperate, Watkins said.

He said in a statement put in the congressional record that congressmen and senators from the upper basin states had agreed to sponsor an upper basin plan as a unit.

But, he said, the engineers "pursued a calculated course of non-cooperation." Particularly, he said, they refused to go along with the Reclamation Bureau's plan to use interest payments on power facilities of the projects to help in repayment of other features.

The Interior Department, he said, delayed in declaring that the Echo Park and Split Mountain dams in Utah could be built without interfering with the Dinosaur National Monument.

Club Membership Promotes Business

Chicago—(U.P.)—Business men who belong to clubs must prove that their membership promotes their business before they can deduct expenses from their taxes, according to Commerce Clearing House.

The question asked by the Internal Revenue bureau is: Do you use the club exclusively to produce business income or are some or all of your club expenses for personal and family purposes?

The clearing house, a private agency that reports on tax and business law, cited a court case in which an architect was allowed to deduct club membership expenses because he joined several organizations to promote business.

Whiskey Thieves Not Thirsty
Covington, Ky.—(U.P.)—Police were puzzled by thieves who broke 22 bottles of whiskey, instead of drinking them, after a \$100 robbery of a drug store. The thieves evidently weren't thirsty because they broke the bottles while driving across the bridge between here and Cincinnati, throwing them at intervals onto the bridge walkway.

Human Freedom Plan Urged by GOP Senator

Bakersfield, Calif.—(U.P.)—Sen. William F. Knowland (R-Calif.), said Saturday if we would declare that our foreign policy is based on human freedom we would give new hope to the oppressed peoples of the world.

Sen. Knowland made his statement in a speech before the California state convention of letter carriers here, adding that "behind the iron curtain are literally tens of millions of people who have the same yearnings for freedom that we have."

American Indian Gets Doctor's Degree

Los Angeles—(U.P.)—An American Hopi-Tewa Indian has chalked up two firsts at the University of California at Los Angeles. He is the first American Indian to receive a doctor's degree from the institution and the first such degree from the department of anthropology and sociology.

Edward P. Dozier, born in Santa Clara Pueblo, N. M., did it by studying his own tribe.

He completed a study of "The Changing Social Organization of the Hopi-Tewa," which disclosed how the two tribes maintained separate villages from 1620 to 1950 while living as close as city next-door-neighbors.

According to Dozier's report, a group of Tewa-speaking Indians left the Rio Grande valley and journeyed some 200 miles to join the Hopis on an Arizona mesa, where, despite their close contact, the two cultures have remained distinct.

Dozier also ascertained there has been very little hostility between the groups. He found, however, that during the last generation, some of the barriers have been broken down by intermarriage, business and a change in values.

FUEL REVENUE UP

Olympia—(U.P.)—The state tax on motor fuels has yielded about \$215,000 more during the first three months of 1953 than during the corresponding period of 1951, the Washington State Highways department said Saturday. Collections for the period this year totalled \$9,165,000, an all-time high for the period.

Richland—(U.P.)—General Electric Company's Hanford works employees will receive about \$775,000 in retroactive pay this month, the firm's payroll section announced Friday.

Greyhound Lines Offers 100 Buses To Marin County

San Francisco—(U.P.)—The Pacific Greyhound lines offered to transfer its operating rights and 100 transit buses in Marin county to the county Saturday to provide mass transportation for 6,500 commuters hardhit by the bus driver's strike.

F. W. Ackerman, Greyhound president, said the company would transfer its Marin county franchise and operating rights without cost and sell the buses to "an appropriate transportation authority or body."

The offer came in a letter to T. Fred Bagshaw, chairman of the Marin County Board of Supervisors.

Ackerman said the company would sell the buses at their book value of about \$50,000 each. He said, however, the company would keep its operating rights and franchise over U. S. Highway 101.

The transfer would be subject to approval of the state Public Utilities commission.

Meanwhile, company officials and representatives of the striking AFL Motor Coach Employees union met for the second consecutive day in an attempt to end 34-day-old strike in seven western states.

Federal Conciliator Omar Hoskins made no announcement following the meeting, but said another meeting would be held Monday. The major issue is the union's demand for a five-day work week without a cut in pay.

Air Force Unwraps Giant Jet Bomber At Vultee Plant

Washington—(U.P.)—The Air Force partially lifted secrecy wraps Saturday from its giant new YB-60 eight-jet engine bomber—latest American weapon capable of carrying atomic warfare anywhere in the world.

The new bomber is ready to be moved from its hangar at Consolidated Vultee corporation's Fort Worth, Tex., plant to a more exposed area for engine run-up tests.

For that reason, the Air Force released to the public some brief information on it and a carefully retouched photograph that concealed details of the deadly air giant.

The Air Force asked that the press and public not take any other photographs of the big aircraft which presumably will be in the 600-mile an hour class.

Air Force Secretary Thomas K. Finletter said this is necessary to protect detailed information of the aircraft to maximum extent.

Like the B-25 heavy bomber being built at Boeing at its Seattle, Wash., plant, the YB-60 will be powered by eight Pratt Whitney J-57 jet engines.

These two aircraft eventually are intended to replace the B-36 heavy bomber and are expected to have the same 10,000-mile range, carry the same bomb load, have much faster speeds than the B-36.

California Registrar Checks Warren Signers

Los Angeles—(U.P.)—The registrar of voters Saturday checked a slate of 70 delegates pledged to support Gov. Earl Warren for the Republican candidacy in the state presidential primary June 3.

Bernard C. Brennan, Southern California chairman of the Warren-for-President committee, said his group submitted petitions bearing 30,000 names to Registrar of Voters Ben S. Hite.

In a remark directed at opponent Thomas H. Werdel (R-Calif.), Brennan said: "We signed up 2 1/3 names for every one needed as an answer to the defy of the Representative Werdel faction that is was going to challenge our signers."

Favorite Son Candidate Enters California Race

Los Angeles—(U.P.)—Atty Gen. Edmund G. (Pat) Brown has entered the California presidential primary race for the Democratic candidacy on a "favorite son" slate supported by 72 delegates, it was disclosed Saturday.

Brown, whose slate was filed with Registrar of Voters Ben S. Hite Friday night, seeks to corner the state Democratic nomination over Sen. Estes Kefauver (D-Tenn.), to support his own preference for the party nomination at the national convention.

The Brown slate was submitted to the Registrar of Voters for five days of checking and approval to be forwarded to the Secretary of State for formal confirmation of filing.

Santa Monica Minister Named College Official

Los Angeles—(U.P.)—Professor Joseph W. White, minister of the Santa Monica Church of Christ for six years, has been named head of the religion department at Pepperdine college, it was announced Saturday.

Professor White, who joined the Pepperdine faculty in 1940, succeeds Dr. W. B. West Jr., who now is at Harding college, at Searcy, Ark.

Pepperdine College To Expand Program

Los Angeles—(U.P.)—Pepperdine college will expand its academic program at the fall semester of this year to include graduate study in social sciences, speech and dramatic arts, it was announced Saturday.

Announcement of the school's new graduate offerings were made by Dr. E. V. Pullias, chairman of the curriculum committee and dean of Pepperdine.

PLENTY OF EASY PARKING

Men who live with motor cars say—

"Hudson Hornet tops them all for power, stamina and safety!"

NEW HUDSON HORNET FOUR-DOOR SEDAN IN HUDSON-ARE HARDTOP STYLING

CHAMPIONS ARE YOU? You'll never drive in a stock-car race, but the very qualities that make the Hudson Hornet national stock-car champion are vital to you in your daily driving.

And remember, the Hudson Hornet you select at your dealer's is just the same as those driven in stock-car races.

Miracle H-Power in the H-145 engine will move you ahead of the crowd any time you say. And you'll find the going extra-smooth, with an ever-ready reserve of power to call on whenever you want it.

Like all Hudson high-compression engines, the H-145 is of advanced, simplified design for highest power output and longest life. It is the most durable engine offered today.

Hudson's exclusive "step-down" design in the Monobilt body-and-frame" results in the ease of handling and road-hugging safety possible only with America's lowest center of gravity. Rugged, steel girders are welded into a single unit—the strongest and safest construction known.

Visit us, try a Hudson today... or if more convenient, a telephone call will bring a 1952 Hudson to your door.

*Trade-in and points pending

Overdrive or Hydra-Matic Drive and Sales Safety Glass (lited, anti-glare) optional on all 1952 Hudsons at extra cost. Standard trim and accessories and other specifications subject to change without notice.

New performance star, the spectacular HUDSON WASP

lower-priced running mate for the Hudson Hornet

★ ★ ★

FOUR GREAT SERIES—the fabulous Hudson Hornet, brilliant Commodore Eight or Six, spectacular Hudson Wasp, thrifty Facemaker. Every Hudson gives you the extra room, comfort and safety of "step-down" design, now proved by over half a million owners.
