

Ike, MacArthur Not Friendly, Article Says

New York—(U.P.)—Generals Douglas MacArthur and Dwight D. Eisenhower "cordially dislike and distrust each other, despite their public denials of any ill feeling," Foreign Correspondent Frank Kluckhohn wrote Tuesday in Look magazine.

Command Said Promised
Kluckhohn, New York Times correspondent with MacArthur during World War II, said MacArthur "once told me that President Roosevelt had promised him 'command of the AEF if war came' and 'double-crossed' him. Ike got the job."

Kluckhohn's article was devoted to MacArthur as a politician with "tremendous 'grass roots' appeal."

Kluckhohn said that Eisenhower had been MacArthur's chief of staff in the Philippines before World War II and returned from a visit home to find his former assistant, Richard Sutherland, appointed in his place.

"MacArthur offered Ike the option either of serving under his former assistant or of asking for a transfer," Kluckhohn wrote. "Eisenhower chose the transfer."

MacNaughton Winner of Award

New York—(U.P.)—The American Social Hygienic association announced Tuesday that E. B. MacNaughton, president of Reed College, Portland, Ore., has been named winner of the annual William Freeman Snow medal "for distinguished service to humanity."

The award is named in honor of the founder of the association. MacNaughton was cited for services during the "earliest days of the social hygienic movement" in Oregon and for work in the fields of education, philanthropy and religion.

The award winner also is president of the board of directors of the First National bank of Portland and president of the Oregonian Publishing company, Portland.

Socialists Nominate Candidate To Seek Job Of Secretary of State

Portland—(U.P.)—The Socialist Labor party has announced it has nominated Bert L. Baxter of Portland as its write-in candidate for secretary of state of Oregon in the November general election.

A state convention of the party nominated Baxter and disclosed that it took the "write in" method because it lacks resources to obtain the 25,000 signatures necessary to place minor party candidates on the ballot.

ROBBED OF HEARING
Knoxville, Tenn.—(U.P.)—Officers questioned 37-year-old N. J. Goeke about being robbed but he didn't understand too well. He explained that the thieves had taken his hearing aid.

CARGO PLANE CRASHES INTO HOMES—A wheel and part of the fuselage of the two-engine cargo plane that crashed into Queens Borough, a New York residential section, lie on one of the cars wrecked in the disaster. Two of the houses, damaged by the plane bound for Idlewild Airport, stand grimly in the background. At least five persons were killed and 20 injured.

Uranium Deposits Reported Located In Yugoslavia

Belgrade, Yugoslavia—(U.P.)—Informed sources reported Tuesday that Yugoslavia has discovered high-grade uranium ore deposits in the Strumica valley, near the juncture of the Yugoslav-Greek-Bulgarian frontiers.

Discovered Last Year
The discovery was made in early autumn last year and the area was immediately sealed off as a military reserve. Production, at least on a small scale, is believed underway.

The Strumica find is almost due south of Buhovo, Bulgaria, where a Soviet-run uranium mine has been shipping 60 rail-road cars of ore per day to Russia, according to a Bulgarian refugee who worked there for a year.

Exploitation Planned
Still farther north, according to Yugoslav sources, major exploitation of new uranium discoveries is planned near Turnu Severin, Romania.

The Strumica valley is one of the ancient invasion routes through the Balkans, most recently used in 1941 when German armies drove through to the sea.

NOT SO DELINQUENT
Charleston, S. C.—(U.P.)—The Charleston draft board advertised for the whereabouts of a "delinquent" potential soldier. His aunt supplied the needed information. His address was Headquarters Squadron, NEAC, APO 862, care of postmaster, New York City.

Portland—(U.P.)—The start of a small run in the Sandy river was hoped for Tuesday.

Oregon May Soon Use Penitentiary Labor To Make Car Licenses

Salem—(U.P.)—It looks like the state will presently be in the business of making its own auto license plates.

The State Board of Control has decided to request an allocation of \$85,000 from the State Emergency Board to cover the cost of installing equipment to make the plates at Oregon State Prison.

Would Train Convicts
George Alexander, superintendent of the prison, told the board the John R. Wald Co. of Huntington, Penn., had offered to install the equipment and train the convicts to make the plates, all for \$85,000.

Alexander said a building to house the plate making machinery should be completed in July.

The board expects to encounter very little opposition from the emergency board for the money. The plate making, all these years done by private concerns, was recommended as a penitentiary project by a joint resolution of House and Senate in the 1951 legislative session. The idea is to provide more work for the convicts.

A storm which had been

view home, the board rejected all bids for construction of a commissary building at the institution for the mentally deficient on grounds they were too high.

EMULATES OSTRICH
Kenton, O.—(U.P.)—Warren Morrison reported one of his hens laid an egg weighing five and a half ounces and measuring seven and a half by nine and a half inches.

Installment Buying Regulations Amended

Washington—(U.P.)—Installment plan buying regulations have been amended to exempt articles costing \$50-\$100 from down payment requirements. Articles costing less than \$50 are already exempt.

The Federal Reserve Board said the change would make it easier to administer its regulation "W" and would not "substantially" affect the amount of buying consumers do on credit.

PLANT GROWS AND GROWS

Cromwell, Conn.—(U.P.)—Two years ago Mrs. Howard Hoffmann planted a few slips of philodendron in a bowl four inches deep. Now the plant has branches more than 56 feet long that cover the whole ceiling of her den.
