**Advertisers Choose Newspapers 2 to 1 OVER ANY OTHER MEDIUM!**

It takes a lot of confidence and all kinds of people to spend two and a quarter billion dollars' worth of advertising.  
 It takes everybody from big VP's with heavy ad budgets to housewives with rooms to rent. It takes chain-store executives and neighborhood merchants.  
 It takes local business people—those who spend only their own money for ads, and those who also spend big money contributed by manufacturers.  
 But most of all it takes an advertising medium that can do the job—a complete job: NEWSPAPERS.

Only newspapers can give you full value for your advertising dollar because only newspapers reach everybody who can possibly buy.  
 If you're a retailer or wholesaler, demand newspaper advertising before you place an order.  
 If you're a salesman or district manager, ask your management for newspaper advertising to move out the products you sell.  
 And if you're a manufacturer, remember this: IN 1951 ONE-THIRD OF ALL THE ADVERTISING DOLLARS IN THE NATION WERE ENTRUSTED TO NEWSPAPERS.

*The newspaper is always first with the most*

Miscellaneous media: 25.5% brings total to new high—6¼ billion dollars. Figures include production costs. \*Dailies only (weekdays and Sundays). Source: Preliminary estimates for 1951 published by *Printers' Ink*, Jan. 11, 1952.
