Your Health and Its Care

By DR. WILLIAM BRADY, M.D.
Readers should address inquiries to: William Brady,
265 El Camino, Beverly Hills, Cal.

HOW'S YOUR RESILIENCE, OLD TIMER?

A liar who says he is 74 years old—no offense intended if he catches this outburst—bends, touching his toes without bending his knees, 50 times a day. He asks whether this is beneficial in any way. He is retired from active work. The stunt sounded formidable, but on trying it I find it is hardly worth mentioning, in connection with v-l-t-e.

What is v-l-t-e? The word isn't recognized by Webster, except the French musical term vite (pronounced veet, meaning live or quickly), but it is clearly defined on p. 7 of the booklet *The Seven Keys to Vite* (pronounced as it is spelled). For the booklet send 25c and stamped, self-addressed envelope.

A half dozen movements from the Last Brady Symphony are described and illustrated in the booklet. I recommend these to our good friend the liar, together with half a dozen somersaults to sort of round off the regular morning routine.

I call the man a liar because I don't believe a person past 65 (in his arteries and other tissues, that is) can or will practice any such daily exercise as he describes. Most individuals are too set, stiff and brittle in body and mind to carry on any such activity after 65.

Resilience. Elasticity. Spring. Bounce. Pep. These characteristics and not chronology, determine one's age.

The term pep has been so much misused by vendors of nostrums, and booze that I hesitate to use it at all in a talk about health. One should dissociate it altogether from the burlesque of stage, screen and television. It is the natural resilience of the untamed animal or the primitive savage—no make-believe about it.

Whenever I harangue readers upon this subject I am inhibited by the feeling that many will get an impression of Prof. Musclebound strutting in his

Red War Casualties Said To Be 530,696

Seoul, Korea.—(U.P.)—The Communist army has suffered 530,696 casualties in the past year while the United Nations forces lost 66,000 men, Gen. James A. Fleet said Monday.

Van Fleet said since he took command of the 8th Army one year ago, U.N. forces have destroyed eight Chinese armies and three North Korean corps. Despite the enormous losses of men and supplies, Van Fleet said, the Chinese and North Koreans are still capable of mounting an offensive "quite as long" as their all-out efforts in April and May, 1951.

He said a new Communist large-scale attack could sustain an offensive for as long as two weeks.

Cancer Kills 2,060 Oregon Residents

Portland.—(U.P.)—Cancer claimed the lives of 2,060 Oregon residents in 1951, Dr. Harold M. Erickson, state health officer, said Monday.

The toll was slightly below the 2,077 figure of 1950. Dr. Erickson said Oregon's cancer death rate was somewhat lower than the average for the nation as a whole. He said in 1949, the last year for which national data is available, the U.S. rate was 138.9 deaths per 100,000 compared with 131 for Oregon.

Oregon City.—(U.P.)—Langdon F. Meltzer, 32-year-old member of the Oregon National Guard, was killed Monday when his car struck a southbound passenger train at a grade crossing in Clackamas, the sheriff's office reported.

Bolivia Revolution's Casualties Being Buried

La Paz, Bolivia.—(U.P.)—Trucks carted off the last of an estimated 1,000 to 3,000 persons Monday who were killed in last week's bloody three-day revolution.

Piled high with bodies, the trucks moved slowly through this rubble-strewn capital and up steep streets to a hillside cemetery.

Work crews in La Paz labored to clear away the casualties of street fighting between victorious supporters of the extreme right-wing National Revolutionary Movement, MNR, and the deposed military government.
