It takes a lot of confidence and all kinds of people to spend two and a quarter billion dollars' worth of advertising.

It takes everybody from big VP's with heavy ad budgets to housewives with rooms to rent. It takes chain-store executives and neighborhood merchants.

It takes local business people—those who spend only their own money for ads, and those who also spend big money contributed by manufacturers.

But most of all it takes an advertising medium that can do the job—a complete job: **NEWSPAPERS.**

Miscellaneous media: 25.5% brings total to new high—6 1/2 billion dollars. Figures include production costs. *Dailies only (weekdays and Sundays). Source: Preliminary estimates for 1951 published by Printers' Ink, Jan. 11, 1952.
