Mrs. E. W. Jermark, vice-president of the Siskiyou district, Oregon Federation of Garden clubs, was a visitor and spoke briefly to the club on a district meeting to be held May 1 in Central Point. Durling roll call reports were given on a plant exchange.

## Talent High School Gives Spring Play

Talent — Talent High school presented its spring play, "Growing Pains," a comedy of adolescence, Friday evening. A large crowd attended.

The play, written by Aurania Rouverol, was directed by Ruby Messenger and Benjamin Benedict at Talent.

The curtain opened on the residence of Professor McIntyre (Willis Zumwalt), his wife (Carol Zediker), his son George (Earl Tycksen), and his daughter Terry (Doreen Burnette).

George and Terry McIntyre, typical adolescents, almost drove their parents to distraction in a series of events fertile with youthful emotion. George bought an old car, almost crashed it, knocked down a policeman, and was jailed for half an hour. Terry, a tomboy, was spurned by the boys, whereupon she sought popularity by temporarily assuming an artificial ladylike sophistication she did not feel.

The play contains not only a lively, sparkling plot but depicts vividly the difficulties both parents and children undergo during the teen-age years.

Mrs. Frank Loomis and Susie McFarland were guests. Mrs. Della Whetstone assisted Mrs. Bryant in serving refreshments.

Torrington, Conn. — (U.P.) — As in other cities, the 10-cent glass of beer here may fall a victim of rising costs and dropoff in tavern business. Operators are thinking about either raising the price or cutting the size of the glass.

What do you mean, there are no women inventors? Why Hedy Lamarr is an inventor. So far Hedy hasn't had a successful invention but she is still trying. During the war she originated a mechanism for guiding torpedoes. It was seriously considered by the government authorities but was not completely practical. In any event, it had merit.

Many women have a talent for invention but just don't make use of it. The way to invent something is to take note of some task you find difficult to accomplish. Then try to invent something to make it easier. Pass this hint on to your wife, mister. She may invent a housekeeping labor-saving device, make a fortune and then have you give up working and keep you for a pet.

**In a Few Words**  
It was Will Rogers who said: "Our country has plenty of good five-cent cigars, but the trouble is they charge 15 cents for them." Helen Rowland observed: "A husband is what is left of the lover after the nerve is extracted."

**ASKING**  
**QUERIES FROM CLIENTS:**  
Q. What are the chances of having twins for the first blessed event? A. About one in eighty-six except in the case of a father of Irish birth or descent. Then it is one in sixty-nine. By the way, young fellow, if you become the father of twins, don't let your wife dress them alike. That idea is out of date. It stifles individuality.

**Dialogue**  
There is too much dialogue and too little action in too many films nowadays. I am heartily in accord with the British film critic, Reg Whiteley, who, in referring to the film version of "A Streetcar Named Desire," said: "This squalid sex melodrama, set in the slums of New Orleans, fails to fulfill the first function of a moving picture — to move. Action is swamped by dialogue. This may be an asset on the stage but it is a handicap on the screen."

**Asides**  
Gasoline is 84 cents a gallon in France. No wonder the Frenchmen go for those tiny cars that can get forty miles or over on a gallon of gas. . . . Chicago is the fourth largest city in the world. That's what I stated. Eight young women of California want to wager nylons against stogies I am wrong. They say Chicago is seventh. I still say fourth. . . . If the British go wild about those football pools, you can hardly blame them. Recently a Sheffield (England) woman who put up the equivalent of 12 cents for a football pool coupon won \$210,000, tax free.

**So They Say**  
To be kept in a pleasant frame of mind, Leo (July 23-August 23) women must be continually petted, pampered and praised. When angry they sulk. If their husbands ask, "What's the matter?" they say, "Oh, nothing!" and sulk some more. Virgo (August 24-September 22) women are very cautious. Very slow to

respond to affection. They have to be swept off their feet by a man of strong character who is not used to taking "no" for an answer. Or so say the stargazers.

**Please Note**  
Greer Garson has a pair of very symmetrical limbs. However, she appeared in many films before the public was aware of this. Then Greer insisted she have a part offering an opportunity to display her good-looking legs. I believe that film was "Random Harvest." Anyway, let us consider the case of Greta Garbo. How about the symmetry of her underpinnings? Has she ever played a part calling for displaying the same? If she has, I missed it. When Miss Garbo was a neighbor of mine at Santa Monica, Calif., I often saw her walking on the beach. But never wearing a bathing suit. This item is inspired by hearing that Garbo recently dropped into an antique shop on West 57th Street, Manhattan. "Good morning, Miss Dietrich," said the proprietor. Garbo is then reported to have said: "How could you make such a mistake? You didn't look at my legs."

If you hang slacks or trousers by the cuffs after washing, they'll need little or no ironing. The wet weight of the garment "pulls" out most of the wrinkles.
