

Red Paper Accomplice In Acheson's Charge Of Crime by Russians

BY LYLE C. WILSON
United Press Staff
Correspondent

Washington—(U.P.)—The Communist newspaper "Daily Worker" published in New York is eagerly establishing itself as an accomplice in a specific crime of which the Soviet Union is accused. Secretary of State Dean Acheson made the accusation Wednesday. He said the Kremlin was guilty of an international crime in charging that the United Nations are waging germ warfare in Korea.

The New York Communist newspaper has offended repeatedly since Chinese Communists in early spring dreamed up their latest propaganda gimmick. Its news columns frequently have carried stories from Washington and abroad making the germ warfare accusation, and calling for punishment of military and other persons responsible for such.

The Daily Worker is going all-out to keep alive one of the most effective big lies ever told, not even excepting the unholy

BANK ROBBER PRAYS—Al Johnson (left) prays during his confession of robbing the Hoyt (Kas.) State Bank four years ago. He made a public confession during the morning service of a Topeka church. Rev. Harold L. Brummer is at right.

whoppers marketed by Hitler, Goebbels and Co., way back yonder when the Russians and the free peoples were fighting on the same side, and the United States was on the job of getting the Russians off a dangerous spot.

Talk Eased Off
Chinese Communist talk of germ warfare eased off a bit in mid-April. But it has been revived again with a bang obviously in phony dispatches that two American airmen had confessed in captivity.

The Daily Worker will be back on the party line any time now with resolutions from Communist fronts and fellow travelers at home and abroad in protest against the germ warfare strawman the Reds created.

The project is complete with horror stories such as an "eyewitness account" of a germ attack cabled to the Daily Worker from its Paris correspondent who got it from one Wu, direct from Mukden. In this tear jerker, a Chinese 12-year-old named Saloyung and his friends found a bacterial bomb.

Bugs Found Inside
"Inside," the dispatch related, "they found flies and insects with two-colored legs."
Within a matter of hours the child was dead. Autopsy discovered a new type of sleeping sickness. With such nonsense as that the Daily Worker eagerly joins in what the secretary of state named as an international crime. How Communists explain to each other among themselves how the Daily Worker can continue such damaging and seditious acts and still freely circulate with the privileges of second class mail, to boot, is something worth pondering.

Easily Explained
Free Americans can explain it easily enough. It is because the Communist press is as safe as any other here under the protection of Article I of the Bill of Rights: "Congress shall make no law . . . abridging the freedom of speech, or of the press." In time of war it could be different.

The election in November will mark the 25th presidential contest between the Democratic and Republican parties. The Republicans have won 14, the Democrats 10.

More Meat Seen This Year With Prices About Same

Washington—(U.P.)—The Agriculture Department predicted Thursday there will be more meat available this year, but not necessarily at lower prices.

The department said in a livestock and meat report that 1952 commercial meat production through March totaled 5,537,000,000 pounds, eight per cent more than a year ago and the largest meat output for the first quarter since 1946.

Production Increase
Increased meat production, it said, should continue throughout the rest of the year, largely because of greater beef output. Pork production will fall below last year's record as hog producers cut back because of high feed prices.

While prices for meat animals have fallen, the department said retail prices for meat, with the exception of pork, have continued nearly as high as last year. The higher prices, it said, reflect marketing margins above the "unusually narrow" price margins of early 1951.

Agreement Nearing In Rockford Tiff

Rockford, Ill.—(U.P.)—An official of the AFL International Typographical union says agreement has been reached on about "80 per cent" of the proposed contract to end the labor dispute that has stopped publication of the Rockford Morning Star and Register-Republic.

J. L. Gavin, president of ITU Local 213, issued the statement after a meeting of the local Wednesday.

The union and the Rockford Consolidated Newspapers Inc. resumed their negotiations Wednesday and a management spokesman said there were "fair prospects of settlement."

Chicago has been the host city of 21 major party conventions.

Specially for Mom

Lovely gifts for that "Extra-Special" lady of the home . . . She'll always cherish and enjoy beautiful lingerie. . . And at LEON'S you'll find a beautiful selection.
