

County Extension Units Attend Annual Festival

Extension unit members from all parts of Jackson county gathered in the Central Point Grange hall Wednesday for the annual Homemakers' festival. There are 23 units in the county.

As in past years, the program included music, speakers, a style revue, an exhibit of projects carried on during the year just closed and a business meeting. Mrs. Arthur Straus, secretary of the county committee, presided.

During the annual election Mrs. J. T. Burns of Medford Extension unit and Mrs. E. E. Meyers of the Lake Creek unit were named to three-year terms on the county committee, and Mrs. Ben Gardner, already a committee member, was elected for a one-year term.

Mrs. C. C. Hoover, retiring chairman, is closing four years on the committee. Serving with her last year were Mrs. Gardner, vice-chairman; Mrs. Straus, secretary; Mrs. Fred West, treasurer; Mrs. G. W. McBee, Mrs. E. H. Baalman and Mrs. Charles Moore.

The Medford unit was presented a gavel for having been judged the best unit during last year. Mrs. C. C. Ferris accept-

ed the gavel. Honorable mention was given to the Prospect, Eagle Point, Central Point, Lake Creek and West Side units.

The style revue was given by members of the Eagle Point, Lone Pine, Medford and Medford Parents' units. R. H. Cate Jr., county extension agent, spoke on "4-H's, Our Future Citizens" and Gail Skyrman of Central Point gave a demonstration talk on Oregon pines, using cones, needles and charts for illustration.

Miss Jessilee Mallalieu, recreation specialist from the extension office, Corvallis, brought greetings from Oregon State college. Luncheon guests included County Judge J. B. Coleman and Commissioner L. G. Morthland.

Main speaker of the day was Miss Maud Wilson, home economist from the Oregon extension service, who talked on "Japan's Program for Farm Life Improvement."

The unusual table decorations for the luncheon were themed to the various projects of the year.

MEDFORD (OREGON) MAIL TRIBUNE—FIVE

On The Side

(Distributed by King Features Syndicate, Inc.)

To love and to remember: that is good.
To love and forget, that is not well.
To lapse from love to hatred; that is hell.
And death and torment rightly understood.

—Christina Rossetti.
(Often think of the above lines when reading the things husbands and wives say about each other in the divorce courts.)

Females make the best watchdogs. When it comes to driving away people with evil intentions, the female of the species is much deadlier than the male. The male watchdog often falls for a friendly approach. He can also be tempted with a bone. The female can neither be fooled nor tempted. Experienced crooks know this and hesitate to try to break into a house guarded by a female watchdog. Such is the claim of a dog expert.

Dream Houses
Certainly are a great number of young couples looking for little blue heavens these days. The market for dream houses was never more active. A young couple I know saw an advertisement for a sale of several houses. They hopped into their car, drove out to the scene of the sale as fast as the law allows. Maybe a little faster. But when they got there all the houses were sold. Incidentally, a book many young couples might find interesting and helpful is titled "Buying a House Worth the Money," by Frazer Forman Peters.

Among the Married
A St. Louis husband had his wife arrested on the charge she had gone through the pockets of his trousers while he slept and taken some money. The case was dismissed. The judge said a wife had a right to go through her husband's pockets. Judge Kennesaw Mountain Landis gave voice to a somewhat similar decision in Chicago many years ago. However, Judge

Landis ruled that while a wife could search her husband's trousers for money she was only entitled to take one-third of what she found there.

Barbers
This is the twenty-fifth anniversary of the successful strike of the New York City barbers. Thirteen hundred tonorialists went out. They asked for \$35 a week minimum wage plus 50 per cent of all money taken in over \$50 in a week. Don't know what the average New York barber earns now. Anyway, twenty-five years ago the dollar had three times the purchasing power it has at this time.

Please Note
Noted it again stated the story of Jonah cannot be true because the throat of a whale is not large enough to swallow a man. The throat of a sperm whale is. Believe there is a record of a member of a whaling crew having been swallowed by a sperm whale.

Asides
It seems generally agreed the greatest major league baseball player of Irish birth or descent was "Big Ed" Deleahanty. Deleahanty's outstanding achievement was making five hits in five times at bat, four of which hits were home runs. . . . The staff of one New York hospital is reported prescribing a fifth of Scotch a week for patients suffering from hardening of the arteries.

When serving French toast, use a hot sauce of creamed mushrooms or shrimps made in a double boiler. Add a few slices of Canadian bacon for decoration and added flavor. It's a nice luncheon dish.
