

On The Side

Ah, how the colder pulse still starts,
To think of that one hour sublime,
We hugged heaven down into our hearts,
And clutched eternity in time.
When Love's dear eyes looked in ours,
When Love's dear brows were strange to frown,
When all the stars were burning flowers,
That we might pluck and wear for crowns.

Third Family Night At Christian Church

Third in the series of the Family Night programs at the First Christian church will be held Sunday evening with a snack supper at 6 p. m. followed by a period of fellowship.

Mrs. Eloise Winklebleck, director of the fellowship hour for the month, reported that Miss Dolores Lee will be in charge of the evening program.

The address given by Mrs. Curt Hopkins, "Our Country and World Brotherhood," will be in the sanctuary at 7 o'clock. The evening worship program will be at 8 o'clock p. m. Sermon subject is "We Must Believe That He Is."

These family night programs reportedly have been well attended and are especially designed for fellowship of the church families. They also are used as a reception for all the new members.

The last of these meetings will be held next Sunday with the same program procedure and the guest speaker will be Miss Ivy Coffey, Delhi, India, talking on "Our World Brotherhood."

A similar number were at the first afternoon meeting last week.

been invented by men. Yet it is claimed by some women that most of these ideas were given to the inventors by their wives. That the husbands took all the credit. Be that as it may, women inventors are becoming increasingly active. As for example, Athalia Ponsell, Manhattan model and TV actress. Athalia has originated and patented a gadget devised to clean pots and pans quickly and completely with practically no effort required from the cleaner.

Up The Ladder
Carrie Jacobs Bond started writing songs very early in life, but did not achieve recognition until she was 34 years old. And then only by paying for the publishing of her songs. Not only that, Carrie went from one music store to another in Chicago asking them to sell her songs. Finally she opened her own music shop. There were seven songs in Mrs. Bond's first group, published in the form of a song book selling for \$1. Among these seven were, "I Love You Truly" and "Just A-Wearyin' In For You." These two beautiful ballads put Mrs. Bond's song book over and launched her on her highly successful career.

Says He
"A woman born under Virgo is usually a chilly proposition," states a United States Marine. "I am a student of astrology. I have been out with Virgo women in forty-six states in this country and in other countries. They are good conversationalists, are kindly and dress well, but dull company on a moonlight night. One astrologer says: 'Virgo women are more of the pal type than the sweetheart type.' How right that is! Give me a Scorpio, Taurus or Libra. Women of those signs know how to respond to affection."

Asking
Queries from clients: Q. How did the rabbit get into the Easter picture? What is the connection between the bunny and Easter Sunday? A. Your query baffles me. I don't even know how the hard-boiled eggs got into the Easter picture. Q. You say New York is the second most popular convention city. What's the first? A. Chicago. Q. What was the name of the restaurant on Park Row, Manhattan, owned by a man with a magnificent set of whiskers? This man could often be seen in the window of the place carving corned beef. A. That was Dolan's. However, the man you refer to was named Meehan. He was the owner. He became a millionaire with a menu that had as its chief feature corned beef and baked beans.

Asides
Writes a Chicagoan: "Our Dalmatian produced an eleven pup, one sex litter. All males. Let some Brooklyn dog try to top that."

Time Goes By
Bing Crosby has just had his fiftieth birthday. His silver wedding anniversary is not far off. Seems like only the day before yesterday he was a very gay young bachelor, one of the Rhythm Boys, and singing "I Surrender, Dear." That song was written by Harry Barris and Gordon Clifford. Crosby's first partner was Al Rinker. Bing and Al did fairly well, but never really started to go places until Harry Barris joined them. It was Paul Whiteman who named that great trio the Rhythm Boys.

Famous First
Ever hear of a fellow named Jim Pennyfeather? Should be a monument at Broadway and Fifty-second street in Jim's honor.
