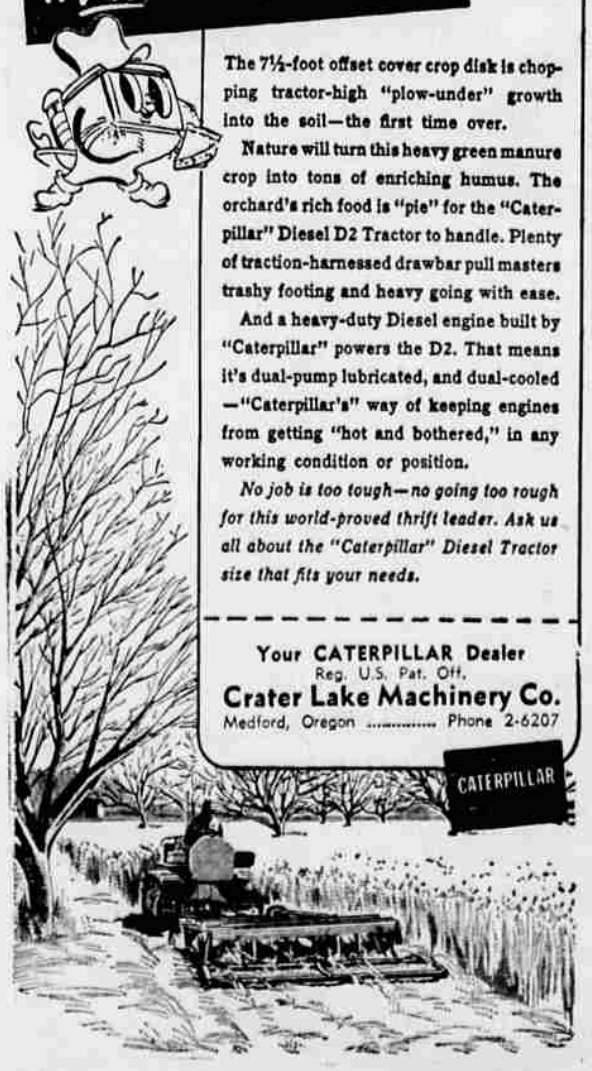
FOOD FOR THE ORCHARD
.. "PIE" FOR THE DIESEL D2!



The 7½-foot offset cover crop disk is chopping tractor-high "plow-under" growth into the soil—the first time over.

Nature will turn this heavy green manure crop into tons of enriching humus. The orchard's rich food is "pie" for the "Caterpillar" Diesel D2 Tractor to handle. Plenty of traction-harnessed drawbar pull masters trashy footing and heavy going with ease.

And a heavy-duty Diesel engine built by "Caterpillar" powers the D2. That means it's dual-pump lubricated, and dual-cooled —"Caterpillar's" way of keeping engines from getting "hot and bothered," in any working condition or position.

No job is too tough—no going too rough for this world-proved thrift leader. Ask us all about the "Caterpillar" Diesel Tractor size that fits your needs.
