

8 A.M. to 6 P.M.

HE'LL GET A CHARGE OUT OF THIS—Dr. Myron Thom of Pasadena, Calif., uses a 220,000-volt General Electric X-ray unit to treat a leg injury on this race horse. Veterinarians are using X-ray to examine, relieve pain, reduce swelling and cure various ailments of animals—from cats to horses.

On The Side By E. V. Durling

(Distributed by King Features Syndicate, Inc.)

The moon shall be a darkness,
The stars shall give no light,
If ever I prove false
To my heart's delight,
In the middle of the ocean
Green grow the myrtle tree,
If ever I prove false
To my love that loves me.

—Brooks.

"This is National Pickle Week," writes a New Yorker. "How are you celebrating it?" It will be a quiet week for me, sir. I am not a pickle enthusiast. Only kind of pickles I care for are the gherkins they serve on the Santa Fe dining cars. However, I have nothing against pickles except I don't like to have sliced pickles put on the plate with my ham sandwich.

Father's Day

Included in My Father's Day medley is that touching ditty titled "That Silvery Haired Daddy of Mine." I want to see the silvery haired daddies get a break, but I don't want the young fathers neglected. Especially those celebrating their first Father's Day. Why doesn't somebody write a song about a young father?

Please Note

In Alaska rents are 25 per cent higher than in the United States of America. Vegetables are double the price, milk is 45 cents a quart, eggs \$1.25 a dozen. Salaries are from 25 to 50 per cent higher than in the States. The shortage of women continues acute. So states one of those lonely Alaska bachelors.

Among the Married

A California woman named among her grounds for divorce that her husband was always showing visitors photographs of his first wife. A very trying experience for a sensitive woman. Brings to mind "Ruby" Bob

Fitzsimmons, ringman of the yesteryear. He married twice. In the living room of the house he occupied during his second marriage he placed a large oil painting of his first wife. It was surrounded with electric lights.

When Fitzsimmons ushered guests into the living room, he switched on the lights to illuminate the picture and then said fervently, "You are now looking at the picture of the finest woman who ever lived!"

Asking

Queries from clients: Q. I claim George M. Cohan wrote "Forty-Five Minutes from Broadway" but did not appear in it. Right? A. Cohan didn't appear in the original production, which featured Victor Moore, Donald Brian and Fay Templeton. However, he did appear in a revival of it later on. Q. Isn't Gilda Gray's real name May Gray? A. Early in her career as an entertainer she was billed as May Gray. Changed the first name of her professional name to Gilda at suggestion of Sophie Tucker. However, her real name is Maryanna Michalski.

Fixing

It is not so easy to throw a baseball game or to fix a horse race. Take the third game in the Chicago White Sox-Cincinnati Reds World Series of 1919. Eight of the players on the White Sox were in on a fix to throw that game. Yet the White Sox won it because Kerr, their pitcher, was not in on the fix. A well known gambler once told me of a race in which every jockey was fixed. However, the horses weren't in on it. So the horse the gamblers wanted to win didn't win. The winner was an

Graduate Studies Program at SOC Under Discussion

Ashland—Four leaders of the graduate program to be instituted at Southern Oregon college this summer are at Monmouth today making final plans for the curriculum which will lead to a master's degree in elementary education.

Representatives of the three colleges of education are conferring with Dr. Roben J. Maaske, director of elementary teacher education, at Oregon College of Education. The Ashland delegates are Dr. John D. E. McAulay, summer session director; Dr. Arthur S. Taylor, professor of social science; Dr. Bill A. Sampson, assistant professor of education, and Eugene Bowman, associate professor of mathematics.

To Review Plans

Objectives, course contents and teaching methods of the graduate instruction will be reviewed and a uniform presentation planned by the three schools, according to Dr. McAulay. Southern Oregon will offer 15 such courses this summer in the first step towards fulfillment of the entire curriculum.

Other staff members who will teach graduate work this summer will be Dr. Arthur Kresman, associate professor of English; Otto J. Wilda, associate professor of art; Neva West, Bertha A. Stephens and Gladys Owen, assistant professors of education; and Betty Lou Dunlop, instructor in education.

SOC Student Body Leaders, Faculty, To Talk Activities

Ashland—Fifty student body leaders and faculty advisors at Southern Oregon college will outline campus activities for the 1952-53 academic year this week-end, according to Dean S. Nichols, Medford, student president. The third annual planning session will be held at Soda Springs resort.

The group will first evaluate accomplishments of campus organizations this year, Nichols reported, and then will suggest programs to be followed next fall. Present officers and newly elected class leaders will exchange ideas as faculty advisors offer observations.

The program will open with dinner at 6:30 this evening, followed by an evening fireside. Saturday activity will include group and individual meetings by students and faculty as well as several recreation periods. A fireside Saturday evening will conclude the conference. E. Glen Roby, Cottage Grove, is chairman of the committee planning cooking and sleeping arrangements.

animal that always ran to win. Despite the efforts of the jockey to hold him back, that honest horse kept rushing forward and won by two lengths.

Speedy Trains

Some new high speed trains on the Santa Fe run between Los Angeles and San Diego make a non-stop trip in two hours and fifteen minutes. The distance is 125 miles. Very speedy. However, the so-called auto-dynamiq trains on the French rail-ways would make that trip in an hour and a half or less. The auto-dynamiq trains are propelled by automobile engines. They are really automobiles on rails. Have often wondered why that form of transportation hasn't been put on some lines in this country.

Concord, N. H. — (UPI) — State records show that privates in the three regiments New Hampshire sent to the Continental Army at the start of the Revolutionary War were paid \$6.66 a month. Major generals received \$166.
