

National Insurance Dividend Disposal Described by VA

Veterans who do not request their 1952 national service life insurance dividend in cash before it is due will be notified by the Veterans Administration of the dividend amount placed on deposit to their credit, it was announced today by the VA.

According to the VA, such dividend notices will be mailed after the 1952 anniversary dates of the policies, when the 1952 dividend is payable. First notices are scheduled to be mailed soon, the VA said.

The notice will advise the policyholder that if the dividend credit is not applied in payment of premiums becoming due, and not otherwise paid, it will earn interest.

The VA has begun to mail 1952 dividend checks to policyholders who have made requests in writing for cash payments. Approximately 5,000,000 policyholders are eligible for their part of the \$2,000,000 dividend.

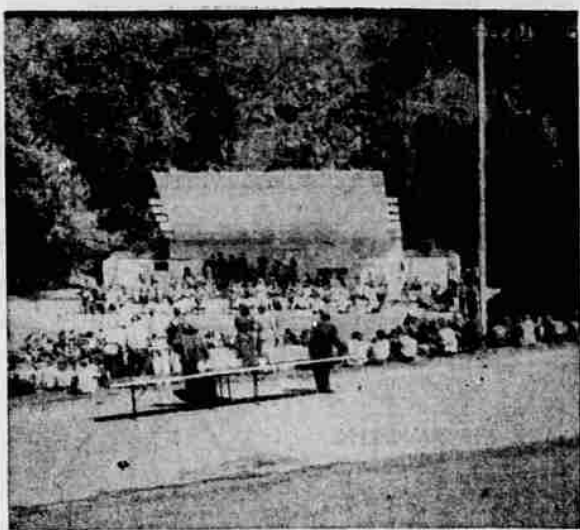

Policyholders who pay premiums to VA district offices and who request their 1952 dividend in cash, will receive checks from those offices. Policyholders in military service who are paying premiums by allotment from their military pay and who request their 1952 dividend in cash, will receive their checks from the VA's central office in Washington, D. C.

Policyholders who desire dividends paid in cash, and have not yet so requested, should write the VA office to which they are paying premiums, giving their full name, insurance policy number and the address to which they wish the dividend payment sent. Most Pacific northwest veterans pay insurance premiums to the VA district office located at Fort Snelling, Minn.
