

Rat Control Man To Seek Contracts

William F. (Bill) Lockmiller, late of Bay City, Mich., who claims to be one of the most competent rat and pest control men in the nation, moved to town Friday. He said he will seek contracts here for his work.

Lockmiller, accompanied by his wife and three children, last worked at rodent control in the Michigan city, and has letters to show his work was effective. He hopes to contact city and county officials, as well as Medford businessmen, to show the health threat which rats and other pests pose, and to convince them he can get rid of them.

Using new chemical poisons, Lockmiller claims he can get a 75 per cent kill on the first baiting, with even better results

Jacksonville B-B Shooters Told To Stop
Jacksonville—A notice to stop shooting B-B guns within the city limits, has gone out to all Jacksonville children and others, according to Mrs. Lois Fretwell, city recorder.

She said that the firing of B-B guns within the city limits is strictly prohibited by city ordinance and that the law would be strictly enforced.

Windows in two private homes were damaged by the pellets last week, the recorder said, and a little girl received a minor injury.

through a continued program. He said he has had 34 years of experience.

His wife is a registered nurse.

1951 was the third worst year in history for poliomyelitis in the United States, with 28,668 cases.

ARRIVE FOR STEEL PARLEY—C. I. O. United Steelworkers President Philip Murray (left) and Arthur Goldberg, general counsel for the union, arrive at the Executive Offices Building in Washington to meet with Presidential Asst. John R. Steelman in the fifth round of Government-sponsored steel negotiations. Representatives of six major steel companies were also on hand.

Phantom Gunman Continues Midwest Sniping Attacks

Springfield, Ill. — (U.P.) — The "phantom gunman" of Illinois was still the terror of Route 66 Saturday despite efforts of state police to trap him with prowling squad cars and a low-flying airplane.

The sniper renewed his odd attacks by firing at four more motorists Friday at state police threw a hasty roadblock across the middle of the state, Slipped Through Block.

The gunman slipped right through it and drove almost to the Chicago city limits to make one of his attacks.

His marksmanship was as spoty as it has been during the past five weeks when he peppered a total of five cars.

The only victim who was

Gen. Ridgway Issues Warning to Russia

St. Meré Eglise, France — (U.P.) — Gen. Matthew B. Ridgway issued a stern warning to Russia Friday near the spot where he parachuted eight years ago as the first American general to land in the invasion of Europe.

The new Allied supreme commander in Europe said in a speech at the "Utah" invasion beach near here that if the Soviet starts a war Stalin's forces will be destroyed just as Hitler's were.

"The last time I came here as one of the thousands to wage war," Ridgway said. "This time I come to wage peace."

Unemployment in Oregon Shows Drop But Idle Men Still Outnumber Workers

Salem — (U.P.) — Oregon's unemployment dropped 5644 last month, the State Unemployment Compensation Commission said this week.

But the 17,078 still looking for jobs June 1 were 4472 more than on the same date last year.

Oregon City, Albany and Pendleton reported more jobseekers than a month before, mainly because of additions to the labor force by students, housewives and in-migrants. Unsettled conditions due to labor disputes also

Phoenix Recorder Will Take Leave Starting July 1st

Phoenix — Mrs. Curt Fisher, city recorder, is taking a three-month's leave of absence beginning July 1. She has been city recorder for almost four years.

Someone will be appointed to fill the vacancy, Mrs. Fisher said Friday, and she has not made definite plans after her leave of absence is over. The position is up for election next November.

At the June 2 council meeting, Mrs. Elva Briscoe took the oath of office for appointment to the council position held by her late husband Earl Briscoe.

The council also received notification from the state highway department that the contract has been let for the hard surfacing of Rose street from First street to the northwest city limits, a distance of .27 mile.

Totals \$15,718

The contract totals \$15,718.56, of which the state will pay \$15,000 and the city the rest. The money from the state comes from a special allocation fund, according to Mrs. Fisher, which is set aside for small cities each year. The fund totals \$250,000 and is spent for street projects "within cities receiving excessive wear through sudden increases in population in the area or unusual industrial traffic."

She said the top limit for each project was \$15,000.

In other businesses, the council let a contract to T. R. Florey for re-surfacing Third street from Highway 99 to Rose street for \$3,110. The surfacing will be paid for out of the state gas tax fund and will be started immediately.

Pluto is about 3,680,000,000 miles from the sun.

Body of Oregon Man Returned from Korea

San Francisco — (U.P.) — The body of Richard W. Schunke, seaman, who died in action in Korea, is among the 180 bodies of American servicemen being returned to the United States Saturday aboard the Loma Victory, the Department of Defense announced.

Schunke was the son of Mr. and Mrs. Richard W. Schunke, The Dalles.

Over-Snow Firm Now Incorporated
Arch Work, Medford, and Dr. Harvey Wood, Ashland, last week announced the incorporation of a new firm, the Over-Snow Company, Ore., Ltd. The firm, a limited partnership, will provide over-snow transportation on a charter, according to Work, the general partner.

They will begin operations next winter with a specially built, "Chinook" model Tucker Sno-Cat, which has two snow pontoons and can carry three passengers and a driver. It is powered by a 115 horsepower Dodge engine, and, with a nine-passenger trailer, will be capable of transporting 12 passengers.

Work said they will cater to "forest charters," or snow parties, who for business, sports or pleasure wish to go into the mountains and lake country in the winter.

The firm will operate into Diamond and Fish lakes, Lake O' Woods, and the Mt. Ashland area, and perhaps to the Oregon caves and the lakes in the Bend mountain area.

It is believed to be the first charter service of its kind anywhere.
