

### Medford City Schools Baseball Program Will Begin on Monday

The summer baseball program, sponsored by the Medford city school system, will get underway Monday at the high school field.

First registration will be at 8:30 a. m. Monday.

The school is open to all boys of school age. Instruction in fundamentals will be given from 8:30 a. m. to noon each day Monday through Thursday. Boys may start in the program at any time by reporting to the field during baseball school hours.

**Three In Charge**  
Concluding date of the program is August 14. Coaches this season will be Lee Ragsdale and Frank Roelandt of the city school physical education staff and Don Denman, ex-Medford high athlete who is now enrolled at Oregon State college.

Medford also will participate this season in the Southern Oregon Junior Baseball league in both pee wee and cub divisions. Pee Wees play first on Monday and the Cubs vie Tuesday. Both games will be against Talent here.

The pee wee loop is open to boys 12 years of age and under and the cub circuit to boys under 15. Boys interested in playing in the circuit are asked to

be on hand the first day of baseball school.

### Oaks Defeat Rainiers, 8-7

Oakland, Calif. — (U.P.) — Oakland staved off a late Seattle rally to tie it up, 7 to 7, in the eighth and then went on to down the Rainiers in the 10th on two walks and two singles. Pinch hitter Loyd Christopher knocked in the winning tally with a scratch single.

The Oaks got off to an early lead with three in the first and two in the second paced by Sam Chapman's first inning double and singles by Schenz, Davis, and Mann, only to have Seattle roar back with six runs in the eighth to go out in front, 7 to 5.

Art Del Duca started the fireworks with a single, followed by a walk to Alex Gabokskie and consecutive doubles by Bob Boyd and Nanny Fernandez. And that was all for Al Gettel, starter for the Oaks.

He was relieved by John Van Cuyk, who was met by a single by Wilson and Rocco Krsnich's double, scoring Boyd and Wilson. Krsnich tallied on a fly to center.

### Angels Edge By Portland Nine

Los Angeles — (U.P.) — The Los Angeles Angels came from behind Saturday to squeeze by the Portland Beavers, 8 to 7, in a Pacific Coast league game recording 25 hits for both teams.

Angel Shortstop Gene Baker began what proved to be a three-run rally in the first inning when he banged out a triple on the first pitch. The next batter, Bob Talbot, did the same thing on the game's second pitch, scoring Baker.

Usher walked, Talbot scored on Max West's fly, and Usher came home on Les Penden's single, which sent Lyman Linde showerward, and Leon Brinkopf's long fly.

Portland got a run in the second on outfielder Joe Brovia's 11th home run of the year, but the Angels maintained their three-run lead on Baker's 10th home run.

They added to it in the third with two when West and Penden scored on Brinkopf's triple.

But Portland roared back with six runs in the fifth to take a one-run lead and knock starter Bill Moisan from the mound. With the bases loaded and none out, Clint Conaster flied out, scoring Roy Weimaker, who had singled.

### Salem Trounces Victoria Tyees

Victoria, B. C. — (U.P.) — The Salem Senators exploded for five runs in the fifth inning and went on to down the Western International league-leading Victoria Tyees 7 to 2 in the first game of their split doubleheader Saturday.

Bud Francis, 18-year-old Salem pitcher making his first start in pro ball, limited the Tyees to five scattered hits, although Granville Gladstone smashed a homer off him in the second and Francis needed help in the eighth. Jehosie Herd suffered the loss, his second of the season against nine wins.

Dick Bartle's double with two out in the fifth gave the Senators three of their five runs in that inning. Hugh Luby and Connie Perez accounting for the others with singles. Andy Anderson's triple in the seventh gave the Senators their other pair of tallies.

**NICHOLS VICTOR**  
Minneapolis — (U.P.) — Don Nichols, Western junior golf champion, and his buddy, Sam Sadler, runnerup, headed Saturday for Lafayette, Ind., where they will compete in the NCAA tournament which opens Tuesday. The two 19-year-old youths, both from Kansas, battled each other

## Fir Beetle Problem In Southern Oregon Believed Not Serious

Douglas fir bark beetle, which has infested approximately 3,000,000 acres of western Oregon timberland, including 1,500,000 acres in Douglas county, is not, as yet, a serious problem in Jackson county, according to speakers at a meeting of the Southern Oregon Conservation and Tree Farm association Friday.

Speakers were W. D. Hagenstein, chairman of the Forest Pest Action committee's subcommittee on the fir beetle problem, and Robert L. Furniss, of the U. S. Bureau of Entomology and Plant Quarantine laboratory in Portland.

**To Hit Peak in '53**  
Both Hagenstein and Furniss pointed out that, because of heavy fire damage and windthrow of timber during the last three years, fir beetle has become an extremely serious problem in western Oregon. The problem is expected to hit a peak in 1953, unless there is more heavy fire and windthrow damage in the meantime, a condition

which would prolong the current infestation, they said.

It was announced Saturday in Portland that because of the seriousness of the beetle infestation, Secretary of Interior Oscar L. Chapman has signed special regulations by which emergency short-term access permits can be issued to cross Bureau of Land Management lands to salvage windthrown, fire or insect killed timber from private lands.

The two speakers here stated that salvage of such timber is the only known method of controlling the beetles. Downed or dead standing timber is the primary breeding place for the beetles, Furniss said. If this timber can be removed before beetles infesting it develops, the infestation will die out more rapidly.

**Wants Local Information**  
Furniss, who is in charge of insect control in Oregon, Washington and Alaska, told SOCTFA members that one of his purposes in coming to southern Oregon was to determine if the beetles have become a serious problem here. An aerial survey of the entire state indicated that Jackson and Josephine counties thus far have, in large part, escaped the beetle problem, chiefly because of the small amount of windthrown and fire-killed timber in this area last year. However, the aerial survey was not absolutely conclusive, he said.

**Survey Urged**  
The Pest Action committee recommends that each timberland owner make surveys of his property by plane and by foot to determine to what extent timber has been damaged by windthrow and beetles, according to Hagenstein. Where access permits, such timber should be removed as soon as possible, he said. He also urged cooperation between landowners, both private and governmental, in locating and removing such timber.

A series of colored slides on beetle killed timber were shown by Furniss.

### Camp for Children To Benefit From Talent Jamboree Receipts

Talent—Funds from the Talent June Jamboree, slated here Saturday, June 28, will be used for a youth summer camp at Wagner creek forks, officials of the event said yesterday. The camp will be open to all children of the county in organized groups.

Present plans call for the six-acre campsite to be turned over to organizations sponsoring groups of children while they will be using the camp. It is designed primarily for children "who couldn't go to regular summer camps," jamboree representatives state.

One of the first major events of the day-long jamboree program will be crowning of the queen at 11 a. m. The three queen candidates are Doreen Burnette, Margie Stratton and Joyce Chapman.

### \$2,500,000 Art Show Opens At Portland

Portland — (U.P.) — A newly arrived collection of 27 Renaissance paintings valued at \$2,500,000 went on display to the public Saturday marking the 60th anniversary of the Portland Art museum.

The collection, donated by the S. H. Kress foundation in honor of the "dime store" tycoon, was christened at a preview last night by David Finley, director of the National Art gallery, Washington, D. C.

Finley said it was "vital that our art museums be kept free to express democratic values in art forms."

dancers from the Colleen Hope studios and Miss Pat's school of dance, a Junior barbershop quartet from the Society for the Preservation and Encouragement of Barbershop Quartet Singing in America, the Ashland Kilty band featuring Dancers Rosemary Sullivan and Gayle Thorson, both of Talent; Bliss Heine's Juniors, the Severson Kandy Kids and a SPEBSQSA barbershop chorus.

from him, since he liked that 5 wheel drive, and would offer to pay \$2,811.19 CASH. Nope he says this car has given me such good service I can't afford to sell it now. If the story ended there I wouldn't have anything to write about, but generally what happens is the fellow gets to thinking how he'd like to buy one of those new "Dual Range Hydramatic PONTIACs" and in he comes for the Trade Shock of his life. Why Mr. Jacksmith, I explain, your asking within \$300.00 of what it cost you 4 years ago, and the most the U. S. Gov't will let me give you is \$1,611.19.

"What's My Old Car Worth on Trade?" is the most asked question by a New Car Dealer's customer and it's our biggest problem to convince you, the customer, that we are treating you right. That being the case I'm going to write a couple of paragraphs, not from the Babson prediction column, but from my own personal ideas on how to judge "Trade-In Allowance."

Most people have an idea their car is worth more than the "Trade Allowance" for several reasons. Cars advertised in the newspapers are at retail price AFTER reconditioning, and INCLUDING sales commissions and GUARANTEES. Since this price is higher than the "Trade Allowance" it becomes necessary to explain the reason for a lower trade-in, and with proper fact and sound reasons for showing cost items on the dealer's part, it generally is accomplished to your satisfaction.

The above is perfect, except you have a person drive in with a, oh let's call it a "Notick," 7-cylinder, 5 wheel drive, that cost \$3,111.19 when it was brand new 4 years ago. Well last week he didn't figure on selling it, but someone had offered to buy it

Since he left my place so fast I didn't have a chance to tell him what I'm about to tell you. I hope you will watch out and not buy that "Notick" for he must have traded it to some other dealer. The only fair way for you to find the value of that trade-in, is to pick out 3 makes of cars you prefer to buy and have each bid put down on a slip of paper. You will find most all of us will treat your used car much the same in appraising. You see none of us can sell them any higher than the other, and very few succeed in offering you more for your car than any one else and remain around next year to sell you a new one. If someone is going overboard and giving you more than the other 2 have bid, watch out, he's got a hard car to sell and you'll end up having more trouble trading OUT of the car than he's having trouble trying to talk you IN to buying it. Now, doesn't that make sense?

If you think this makes good sense, we'd like to put in a little plug to let us make a bid on your car before you buy. We'll look forward to meeting you. Oh, yes, this is DEAN'S PONTIAC, 6th and Grace, and we have a new phone, 2-5241. We'd like to have your number, too.

**Scythe**  
The Power Scythe

CUT WEEDS, GRASS, REEDS 4 TIMES FASTER WHEREVER A MAN CAN WALK

America's most talked about portable power scythe. The Scythe saves you time, labor and money on the farm, in the garden, around lakes and many other locations because it reaches all those hard-to-get-at places—including underwater growth. Come in and see a demonstration of the Scythe today!

- \* LIGHT . . . Aluminum-built. Weighs only 24 lbs.
- \* THRIFTY . . . Runs 6 hours per gallon.
- \* 20-INCH Cutter bar. Double-oscillating. Extra size.
- \* BALANCED . . . Easy to carry. Simple to handle.
- \* SMOOTH RUNNING . . . Compact, trouble-free, 1/4 h.p. motor.

### Veteran Test Pilot Announces Retirement

Los Angeles, Calif. — (U.P.) — Test pilot Gene May, one of the nation's leading aviators, announced his retirement Saturday from career flying.

May, a flying grandfather at 48, said he will remain with Douglas Aircraft Co., in an advisory capacity in its test department.

The veteran pilot said his career was climaxed in flying the Douglas D-358-2 Skyrocket, the world's fastest and highest-flying ship.

for the 35th Western Junior title Friday, and Nichols came out on top 4 to 3.

### Women's Golf Activities

Thirty-eight women played in the best ball meet on Ladies' day, Thursday, June 19. Winners were Mrs. H. S. Elbert and Mrs. Thomas Emmens, and Mrs. Keith Bates and Mrs. Ken Teeter.

Play for next Thursday, June 26, will be medal play.

- Medal Play Pairings:**

## "Most-Wanted" of Them All!

It will probably occasion no surprise on your part to be told that the Cadillac car is the most wanted and sought-after automobile on the American highways.

But you might be surprised to learn how widespread the desire to own this great motor car has become during recent years.

Statistics indicate, for instance, that there are more than twenty million motorists in America who would like to call a Cadillac their own. And were the whole of the world's motorists to be considered, this number would grow well-nigh beyond comprehension.

There is reason to believe, in fact, that Cadillac may be wanted by more people than any other product manufactured in America today. It might well be called the great desideratum of the American people. Naturally, a motor car has to offer many wonder-

ful things in order to occupy such a unique position in the hopes and aspirations of so many persons.

It has to offer great and distinguishing beauty . . . luxurious comfort . . . brilliant, masterful performance . . . and wonderful prestige.

And, of course, in order to have become the logical ambition of so many millions, it would have to be practical to own, as well as wonderful to drive. And so, it would also have to offer—extraordinary economy!

If this sounds like the description of the car that you, yourself, would like to own and drive, then come in and see us—soon.

Perhaps the time has come for you to join the hundreds of thousands of motorists who have stopped wanting a Cadillac—and started enjoying one!

We'd be happy to see you any time.
