

Sams Valley Club
Sams Valley 4-H Tractor Maintenance club met June 17 at the home of the leader, Floyd Doland who led a discussion on how to clean an air filter. Mrs. Doland served refreshments.
Next meeting will be July 10 at 7 p.m., at the home of Dennis Dugan.
There will be two field trips.

Either the "Caterpillar" No. 46 (straight blade) or No. 4A (angling blade) Bulldozer teams with the 44" and 60" gauge D4 tractor—to turn heavy-duty push into profit. When may we demonstrate one of these big-capacity, earth-moving blades, that will keep your D4's earning season open the year 'round?

State Republicans, Democrats Predict Conclave Outcome

Portland — (U.P.) — Oregon's Democratic and Republican national committees made a couple of predictions Tuesday in speeches before the Portland Junior Chamber of Commerce.
The Democrats' Monroe Sweetland said his party's national convention will nominate the next president and vice president in Chicago July 21.
Cake Likes Eisenhower
Ralph H. Cake, the GOP national committeeman, said the Republicans will nominate Gen. Dwight D. Eisenhower on the first or succeeding ballots.
Sweetland said the Democratic victory will depend on issues and not personalities and that the 1952 platform will be the 1948 platform strengthened in some points. He said no one but a Fair Deal or New Deal Democrat will be nominated.

one to the Ferguson tractor company on June 25 and the other to the International Harvester Tractor company on July 14. The leader will pick up members about 7 p.m.

Pickin' Pears News, Gossip, Comment From Camp White

The summer schedule went into full effect this week in recreational activities. The prevailing heat of summer evenings at Camp White is responsible for the temporary revision. A few of the VAVS groups have signified their intention to discontinue their regularly sponsored features until September.
Camp White veterans will temporarily miss the following programs which will be resumed in September:
The monthly dances of the VFW Auxiliary and the Eagles Auxiliary, the K. C. Quiz every third Friday, the Red Cross monthly coffee hour, the fourth Friday Cootie and Lady Bug Travelsports program and the American Legion Veterans hour.
Some VAVS organizations, although not actually present during July and August will underwrite the cost of substitute activities.
Principal changes in the weekly program during the summer are in the exhibition of "movies" in the morning and afternoon instead of the afternoon and evening performances.
Baseball will be in full swing with many trips to Medford, and games at Hatton Field as well.
Fishing trips for wheel chair men, major picnics at TouVelle Park and other picnic areas, the annual VAVS watermelon bust in August and other programs now in the making will round out a fine summer for the members at the Camp White dormitory.

After some unavoidable delay, softball games are expected to be under way this coming week, providing the patrons with an attraction for the evenings during daylight time.
Events sponsored by Medford Post of the American Legion and the Medford Elks in conjunction with state wide programs on order, will continue during July and August.
These will include the always popular bingo games and stage talent, with cigarettes. One of the best Elks shows was presented last week with acrobats, magic and a trio of Swiss musicians.
Honors were accorded Frank Rhinehart, secretary to the Chaplains, who died suddenly last

week, by a special memorial service in the chapel, conducted by Rev. Henry Anderson.
George S. Mitchell returns after a month at Barnes VA hospital. Vancouver, with glowing accounts of the miracle of modern drugs and the treatment provided there in his case.
William C. Hurn has left his library job to become secretary to the chaplains. He will only have to move his desk next door. John A. Shealy, will step into the library in place of Hurn.

It was jewelry night at the VFW open meeting. Evè Prentice and her band furnished entertainment as usual. The Auxiliary of District 7, was represented and Mrs. Zuba Walker of Shady Cove auxiliary, retiring district president, was presented a handmade brooch made by Vice-Commander Hans Sorenson. District hospital chairman Amy Randle was given a ring.

Three members of the accordion troop won gems in a drawing contest. Then in a surprise gesture Fred Henicka produced boxes of assorted jewels in bright colored plastic for all the members of the company.
Laurine Kell, of Grants Pass, the new president was introduced and she offered the refreshments on behalf of Del Rogue Post.

Manager Paul A. Hatton returned to his desk this week considerably refreshed by his motor trip to Montana and back.
Personnel Officer Herman J. Heitkemper has been busy during the past month with classification and civil service problems affecting the region comprising the northwest states of Washington, Oregon, Idaho and Montana.
He has just returned from a meeting with the Board of U. S. Civil Service Examiners at Roseburg and earlier this month he attended a two-day classification conference at Seattle, presided over by E. L. Farrell of the VA Central Office Classification service.
Under the present law government jobs are subject to review for such changes as may be necessary in the interest of the service and in providing adjust-

ments of working conditions for the benefit of the personnel.

DENIES CHARGES—At a Washington press conference, Senator Robert A. Taft rejected charges by the Eisenhower camp that his delegate victory in the Texas Republican convention was a "steal." He said he was sure the dispute over the Texas delegation would be fought out before the national convention, which opens in Chicago July 7.

Court To Study Wilson Testimony

Portland — (U.P.) — The 1200-page transcript of testimony in the Wilson brothers trial in Vancouver, Wash., two years ago was on its way to San Francisco Wednesday for study by the U. S. court of appeals.

Irvin Goodman, Portland attorney for the brothers, also said a transcript of Friday's hearing before U. S. District Judge Sam Driver in Walla Walla and the multitude of briefs filed in the case were also forwarded to San Francisco.
Ulah and Turman Wilson, convicted in June, 1950, of the murder of JoAnn Dewey, were to have been executed at the Washington state prison early Monday but were saved by a last minute stay of execution from Judge Albert Lee Stephens of the court of appeals.

The new diaper is also no challenge to fathers.
"You just lay the baby down," Goldurs said. "The hour-glass practically works itself. You pull it up a little and it enfolds the occupant. Then, too, snaps are replacing pins," he said.
Another development is new diapers in bright orange, green and yellow polka dots on white background. There are also pastel shades. No pants worn with these. The diaper itself is ornamental and serves as a proper garment for all occasions.

UNDERTAKER UNWANTED
New Haven, Conn. — (U.P.) — An undertaker's proposal of buy a house once occupied by William Howard Taft is causing neighbors to protest. Taft moved into the house when he joined the faculty of the Yale Law School, six months after leaving the White House in 1913. The city's zoning board of appeals has authorized its use as a funeral home.

Kader Youngster's Skull Fractured, Specialist Says

Portland — (U.P.) — An X-ray specialist testified in the first degree murder trial of Jada Z. Kader Tuesday night that the skull of little Sherrie Ellen Kader had been fractured.
The testimony of Dr. Norman L. Bline, who x-rayed the skull of the three-year-old girl, said the fracture extended across the parietal over the right ear. A second doctor, Kenneth E. Livingston, also identified the fracture.

Defense Witnesses
The two doctors were defense witnesses. The state contends that Sherrie Ellen died of asphyxiation at the hands of her mother.

Earlier Tuesday, Dr. Howard L. Richardson, who performed the autopsy on the girl, said no fracture was found. He said death was caused by asphyxiation.

Circuit Judge Frank J. Lonergan ruled that four-year-old Vickie Kader, sister of Sherrie, was incompetent to be a witness for the state. The judge also denied a defense motion for dismissal of charges against Mrs. Kader.

Hour-Glass Diaper Easy for Fathers

Cleveland, O. — (U.P.) — Jerome Goldurs, president of the American Diaper Institute and proprietor of a baby diaper service here, has the latest word in "unmentionables" for the youngest set.

"The hour-glass model (diaper) is the newest thing on babies," Goldurs reported. "When the baby grows, you just let it out a little—the diaper, I mean."

He explained that no folds are involved in the garment. "Instead, there are pre-folds with eight thicknesses at the bottom and a graduation to light sides," he said.

The new diaper is also no challenge to fathers.

"You just lay the baby down," Goldurs said. "The hour-glass practically works itself. You pull it up a little and it enfolds the occupant. Then, too, snaps are replacing pins," he said.

Another development is new diapers in bright orange, green and yellow polka dots on white background. There are also pastel shades. No pants worn with these. The diaper itself is ornamental and serves as a proper garment for all occasions.

for **QUALITY with ECONOMY**
It's the Car of the Year!
COMPARE with any other car the **52 Austin**

The "BATTLE OF THE BULGE" is still raging, traffic is more congested every day... DRIVE AN AUSTIN and put a bulge in your pocket book instead of on the road.

We now have an operator, who has been driving one of the Big Three's most popular models, on a route at a cost of \$3.30 per day on gas; he is now operating at \$1.50 per day... at a savings of over \$50.00 per month.

Another one of our owners, driving a '49 Austin, has a very complete record of cost of operation from the first day of purchase, including license, insurance, installation of trailer hitch, down to the purchase of an extra key... his cost per mile, to date, 2.48 cents.

One out of every 6 miles of his driving was with trailer attached, with a minimum load of 1,000 pounds. Two or three times over the Sierra Nevada's.

Mr. Average Driver, we know about what it costs to operate the average car. We also know you can save approximately \$25.00 per month by driving an Austin... put those extra dollars in good old beef for the tab, watch those youngsters bloom, save doctor bills, instead of having your dollars fading away in pale, blue smoke behind you.

Remember... you can buck the wind and Mrs. Jones and win. From the Dec. 1951, issue of Motor Service, we quote "At 50 miles per hour an additional 8 Horsepower is required to drive a car with 25 square feet of frontal area as compared to one with only 15 square feet at 75 miles an hour, the additional horsepower required is 25 Horse Power; at 100 miles per hour, the additional power required would be 50 Horse Power.

As for Mrs. Jones, you know the answer, to quote an old philosopher friend of ours "Mr. Jones will wind up digging ditches with his derby hat on.
