

Stevenson Turns To Farm Policy; Ike Will Speak in Los Angeles

Springfield, Ill. — (U.P.) — Gov. Adlai E. Stevenson shifted his attention Tuesday to farm policy and the farm vote after answering charges that his presidential campaign bore a left-wing stamp.

One of the visitors scheduled to drop in at the Illinois executive mansion Tuesday was Secretary of Agriculture Charles F. Brannan, who asked for an appointment with Stevenson.

It was Brannan who was credited with calling the plays which enabled President Truman to make unexpected inroads into Republican strength in the Midwestern farm belt in the presidential campaign four years ago.

Brannan also brought forth the "Brannan Plan" for farm subsidy payments, but Congress never approved it.

Although he is governor of one of the richest farm states, Stevenson has not built himself farm legislation. He has indicated approval of the government price support program.

Likes Farm plank

At a news conference last week, he said he liked the farm

Bids on Public Domain Timber Due August 19

Tracts of public domain timber to be offered for sale during August and the stumpage sold from O & C lands in July were announced today by Roscoe Bell, regional administrator of the Bureau of Land Management.

Eight parcels of timber totaling 17,216,000 board feet on public domain lands in three states will be placed on the block on August 19.

Three parcels in the Medford district, totalling 3,845,000 board feet, including 15,350 linear feet of western red cedar poles, will go on sale August 19. One will be by oral bid and two will be by sealed bid. The tracts are in Jackson and Douglas counties.

The district forester at Bend will offer for sale 6,235,000 board feet in two tracts on August 19. The timber is in Deschutes and Crook counties.

Bell also reported that 32,224,000 board feet of O & C timber, including 6,140 linear feet of pilings were sold during July for \$823,562.50, which was 29 per cent above the appraised price.

The buyers included Johnston & Hise, Medford.

plank in the Democratic party platform "very much" but he did not amplify.

The farm plank applauded the action of Congress this year in temporarily setting price supports at 90 per cent of parity on basic crops instead of the sliding scale formulas in effect for the past four years.

Dead line on Classified Ads: 5:30 p.m. for following day, 10 a.m. Monday; noon Saturday for Sunday a.m.

Denver — (U.P.) — Dwight D. Eisenhower will fly to Los Angeles Tuesday to make his first speech since winning the Republican presidential nomination.

His associates said the speech, to be delivered Tuesday night before the 53rd annual encampment of the Veterans of Foreign Wars, would be non-political in nature.

To Receive Award

But it was apparent that anything the GOP nominee says will be construed as having political significance.

The VFW will award Eisenhower its first annual Bernard M. Baruch Medal. This award is to be presented each year to the person who "has made the greatest contribution to the cause of American unity and world peace."

Eisenhower's brief speech will be in response to this presentation.

To Return to Denver

After delivering his speech, Eisenhower will fly directly back to Denver.

The former five-star general got a taste Monday of some of the tough political problems that lie ahead of him in his presidential campaign.

A group of Negro leaders headed by Bishop D. Ward Nichols of the First District of the African Methodist Episcopal Church of New York, came here to discuss civil rights problems with Eisenhower.

Not on Record

The GOP nominee refused to put himself on record as favoring a compulsory Federal Fair Employment Practices Commission. He had taken that same position prior to his presidential nomination. Despite this fact, Nichols and the other five members of the Negro group said they were "convinced that the election of Eisenhower in November will greatly advance civil rights progress in America."

Man in Woman's Clothes Found Dead

Vancouver, Wash. — (U.P.) — Law-enforcement officers Tuesday investigated the death of a Clark county man found fully dressed in woman's clothes hanging from a willow sapling three miles east of Washougal, Wash.

The body, that of William Carroll, 36, a logger living with his wife and two sons at Washougal, Wash., was discovered by William Carroll Jr., 16, one of the sons, and Joe Kennedy, 17, Sunday night.

Seasonal Farm Labor Office To Open On Monday

A seasonal farm labor office will be opened at 902 South Central avenue on Monday, August 11, according to G. S. Hasty, farm labor representative of the state employment service.

The opening of the office is an annual custom in Medford and is set up to handle the increased farm labor need during the summer harvest season. The farm labor office is a branch of the Oregon employment service and all farm labor information for every type of help will be handled through the new office instead of the employment service in the Holland hotel building.

The seasonal office is located next to the Bible auditorium on South Central avenue. Office hours beginning next Monday will be 6 a.m. to 3 p.m., Monday through Friday, and 6 a.m. to 12 noon on Saturday. The office can be reached by phoning 2-8033.

Girl Regains Sight; World Terrifying

Walney, England — (U.P.) — Joan Hornby, her sight restored after being blind for 17½ of her 18 years, found the world a frightening place Tuesday.

"The first horse I saw terrified me," she confessed. "And aren't houses big!"

"I was horrified when I saw my first double-decker bus. It seemed to be coming straight at me."

"That fried egg for breakfast looked horrible. I couldn't eat it. And the Swiss roll at teatime was revolting."

Doctors believe the shock of a boiling hot bath into which Joan stepped during a visit to her sister's home here last week restored her sight.

Firm's \$1410 Found In Custody of State

Portland — (U.P.) — The \$1410 that disappeared mysteriously in the confusing labyrinth of Oregon state government bureaucracy was back in the hands of its owner Tuesday.

The money, which was placed in an unstamped envelope for safe keeping Thursday in the office of the Marks Motor company, was mailed mistakenly by a well-meaning employee to some state agency — he couldn't remember which one.

The \$1410 bills and one \$10 bill were unheard from until Monday when an official of the state unemployment office at Salem informed that motor firm that the money — all of it — arrived and would be returned to the firm.

Measles Lead List of Communicable Diseases

Eleven cases of communicable diseases were reported in Jackson county for the week ending August 2, according to a report released today by the Jackson county health department.

Red measles led the list with five cases, three in Medford and two in Rogue River. In addition there were three cases of influenza in Medford, two cases of chicken pox in Jacksonville, and one case of mumps in Medford, the report stated.

Bartender To Keep Nickel Beer Prices

Mandan, N.D. — (U.P.) — The nickel beer is here to stay.

Tavernkeeper Joe Wetzstein featured a five-cent beer during a recent three-day local celebration. Business boomed.

Wetzstein said Tuesday the special price will be continued daily between 3 and 6 p.m. He's afraid it would hurt business to up the price again.

On The Side

(Distributed by King Features Syndicate, Inc.)

London policemen are still unarmed. Despite the fact that the "bobbies" carry no guns, London has fewer holdups than any other major city in the world. Only nineteen in the entire year of 1951. New York has more holdups than that every day. London policemen are rarely shot at by criminals. That is because a criminal who shoots a policeman seldom escapes the gallows. When Scotland Yard goes after a policeman's murderer, it practically always gets its man.

Clever Fellow

The Scots are clever advertisers. That brilliant fellow, Thomas Lipton, learned the art of advertising in Glasgow. Coming down to the present, have you noticed those advertisements featuring a man with a patch over one eye? That campaign has been one of the most successful of all time. Originator was David Ogilvy, a Scotch advertising man. The model for the series was Baron George Wrangell. There is nothing wrong with the baron's eyes.

Color Psychology

Black was once the most popular color for automobiles. Now only 10 per cent of autos are black. Speaking of color psychology in general, it is said the most effective combination of attention-attracting coloring is orange and black. Or yellow and black. That's why the majority of taxicabs are that color. Having a choice between a yellow and black cab and any other color, the prospective passenger will nearly always take the former.

I once talked color psychology with a fellow who sells horse tip cards at the track entrances. He said when he started his cards were blue. He then switched to green. A color expert told him to try orange and black. He did. His sales of cards tripled!

Beautiful Wives

As to that room in the White House in which Mrs. Truman has arranged to display the portraits of only those wives of presidents who are beautiful. John Tyler, our tenth president, married two beautiful women. His second wife, Julia Gardner, was so beautiful she bore the nickname of "The Rose of Long Island." The first Mrs. Tyler, Letitia Christian, was a southern beauty. Incidentally, Tyler was the most prolific parent among presidents. He was the father of fourteen children, seven by each of his wives.

Asking

Queries from clients. Q. I claim Al "Scarface" Capone acquired that scar in a fight in Brooklyn. Fellow who differs with me says he got it in a brawl in the Five Points section of Manhattan. What say you? A. Capone talked out of turn at a dance in the Red Hook section of Brooklyn, was badly cut up in a fight that followed and scarred for life. Life in the Red Hook neighborhood of Brooklyn was too rugged for Capone, so he fled to Chicago.

That Bachelor

Dr. J. T. Williamson, the Canadian geologist who became a

diamond mine owner in Africa, is now one of the six richest men in the world. The 45 year old Williamson is still a bachelor. A very eligible one because he wants to get married, but says he hasn't yet found the right girl. He receives an average of 500 letters a day from women proposing marriage. Believe I should add that the doctor is a good looking fellow.

Please Note

As to that man who won the daily treble at Ascot which paid \$13,000 for a 70 cent ticket. Was he a form player? Definitely not. He followed a system popular with feminine bettors. He told reporters: "I selected the three horses this way. Blue Lamp, because I liked the film of that title. Castleton, because I liked the swing of the name. Giuhano, because I was a gunner with the Fifth Army in Italy for three years."

Asides

In a biographical sketch of

Lord Byron note it said that the poet had a club foot. Have seen the same statement in many other Byron biographies. It's wrong. Byron didn't have a club foot. However, one of his legs was a trifle shorter than the other. "I Married a Redhead" is the title of a book by M. M. Musselman. Husbands having difficulty in handling red-haired wives might find some helpful hints in this book on the training and taming of strawberry blondes.

Dead line Sunday Classifieds is at noon Saturdays.

New Oil, Gas Leases Recorded at Baker

Baker — (U.P.) — Thirty-eight new oil and gas leases, involving 33,210 acres of Baker county land, were on file Tuesday in the county clerk's office.

One person, Edna Bungay, was named as agent on all 38 leases which run for 20 years. Some of the transactions were completed as early as January, but were not filed until Friday.

Written history is at least 6,000 years old.

Wonderful ORANGE BEVERAGE NOT CARBONATED

WHYS AND WHEREFORES OF SIZING IN FABRIC

The use of sizing in fabrics is by no means an evil. Many fabrics are enhanced in appearance and wear when sized. The use of starch in shirts is a good example. So—sizing is "evil" only when used to make a poor fabric look like a good one. Cleaning will not usually remove sizing. However, if the garment needs additional sizing, it should be restored. Then the garment you take home will look and feel the same as when you brought it in.

There are five types of sizing.

1. Gelatin 2. Gum Arabic 3. Gum Tragacanth
4. Flax Seed 5. Synthetic Resins

We determine what's on the fabric before cleaning, then restore it in the amount needed, if necessary, prior to finishing.

That way you can be sure your garment will have the same body and weight after cleaning as it did before cleaning.

To be sure of good cleaning,

BRING IT TO MEDFORD CLEANERS.

Take advantage of our FREE MOTH PROTECTION service. We use, safe, dependable FUMOL.
