

SECURITY COUNCIL—The meeting site for the Pacific Security Council will be this portion of the Marine Corps Air Station at Kaneohe, Hawaii. The station was reactivated and commissioned as a Marine Corps Air Station January, 1952. Mokapu Peninsula, on which the station is located, is virtually an island, connected only by a thin causeway on the northeast side of Oahu.

On The Side By E. V. Durling

(Distributed by King Features Syndicate, Inc.)

Does your wife try to make her feet appear much smaller than they are? After calling her attention to the "obey" in the marriage ceremony, order her to stop wearing heels that are too high and shoes too small. Tight shoes not only make a female irritable but also make her age more rapidly. It is said when a woman takes a half an inch off the size of her feet with tight shoes she adds ten years to her facial appearance.

Mules & Men
Too many bachelors are lured into matrimony before they are ready for it. I feel it is our duty to aid susceptible single young men to avoid being prematurely captured by clever husband hunters. Among the danger signs to be watched for are certain remarks made by designing young women. For example: "Your mother is charming." Or: "You're just a big helpless baby." Or: "I was reading an astrology book last night. Our signs are compatible." Or: "Come to my house tomorrow night. Enjoy a real home cooked dinner. I'm going to do the cooking." Also, young fellow, when a girl starts stopping you in front of furniture store windows, be very much on your guard. She has matrimony on her mind and you are her choice.

Japanese Ringman
Ever see a Japanese boxer? Neither have I. However, now there is a Japanese flyweight named Yoshio Shirai reported to be of Championship caliber. Do you consider yourself a well in-

formed sports fan? Then tell us how much a flyweight boxer weighs. That is, what is the weight limit for flyweights?

First Lady
One of the most talented White House hostesses was a beautiful violet-eyed blonde spinster. That was Harriet Lane, niece of the bachelor President James Buchanan. Life in the White House was very gay with Harriet in charge of the entertaining. One of her best parties was in honor of the Prince of Wales, later King Edward VII. Harriet did not marry until she was 36. Her husband was a Baltimorean, Henry E. Johnston. The Harriet Lane Home, still very active in Baltimore, was established by her. Any sick child up to 14, regardless of race, creed or color, is eligible for treatment at this home. Age limit was put at 14 because it was at that age the oldest son of the founder died.

Asking
Queries from clients: Q—An old fellow here in Seattle says he was present at the shooting of Dan McGrew whom he knew well. Also says he was acquainted with the "Lady Known as Lou." Is that possible? A—There never were any such persons as Dan McGrew or the "Lady Known as Lou." Both characters were fictitious and created by Poet Robert W. Service. Q—Who is the patron saint of actresses? A—St. Genesius is the patron saint of the drama and therefore of actresses. Some actresses always carry with them

gold St. Genesius medallions.

Please Note
World's greatest gum chewers are the Australians with United States second, New Zealand third and Great Britain fourth. That's what Philip Wrigley says and he certainly should know. Mr. Wrigley says that he only chews gum when driving an automobile.

Eggs
Has always been my belief eggs produced by barnyard hens are of better quality and tastier than those of so-called "battery hens." So I was interested in learning of a man who is in the "battery hen" egg production business, but for his own consumption he uses the eggs produced by the barnyard hens on a farm he owns.

Please Note
Some car designers continue to favor the idea of having the engine in the rear. A

Oregonians Warned

Portland — (U.P.) — The State Board of Health has warned that needless fatalities may occur unless Oregonians refrain from over-exertion and over-exposure to the sun during the current hot weather.

Dr. Gordon C. Edwards, acting state health officer, said that sun stroke or heat exhaustion may strike anyone, although serious cases appear most often among persons suffering from any general disease, alcoholics, young children, elderly people and persons who are overweight.

British gas turbine automobile with engine in the rear recently achieved a speed of 152 miles an hour. Is not a racing car but a passenger vehicle. It uses different kinds of fuel. In the aforementioned test paraffine was used.

Psychology Tried To Help Curb Oregon Forest Fires

Portland — (U.P.) — Pacific Northwest forestry leaders are calling on the psychologists to help solve a vexing forest fire problem.

The problem, says W. D. Ha-

genstein, chief forester of the Industrial Forestry Association, arises from carelessness of motorists who toss lighted cigarettes from moving cars and campers who leave fires unattended and uncontrolled debris burning.

Yearly Toll Heavy
Hagenstein said fires caused by these careless acts which in nine out of 10 cases start within 100 yards of main travelled roads and highways take a yearly toll of millions of dollars of valuable young trees and timber.

How to reduce this carelessness has stumped forestry experts for years, Hagenstein said. "The crime," Hagenstein asserts, "is that we should lose

THEY TAKE TURNS
Detroit, Mich. — (U.P.) — Mr. and Mrs. Thomas V. Marchant, who say they've lived in peace during their 67 years of marriage, have this tip for marital tranquility: "Married folks can both have their own way—but not at the same time Take turns being boss."

Dead line Sunday Classifieds is at 3:30 p.m. for following day; 10 a.m. Monday for Monday; noon Saturday for Sunday a.m.

any timber from preventable fires."

This is where the psychologist enters the picture.

"Maybe they can tell us how to reach the very small percentage of the public who still persist in careless and wanton acts," said Hagenstein. "At least, it is worth a trial."

The forestry official said maybe the psychologists can invent a new "dunce-cap technique" to shame the violator or find out what makes an unconscious ar-

sonist of a person with normal tendencies."
