

DEATH AMUSED HIM—Above is an artist's conception of "Tiger," infamous North Korean prisoner who murdered American prisoners of war to amuse himself. Latest report of the Tiger's 1950 death march was told by POW returnee Pfc. Fred H. Rager, Clatskanie, Pa., who stated the major told prisoners that "as a Communist I reserve the right to kill."

Reynolds Company Needs More Power, President Asserts

Portland — (U.P.) — R. S. Reynolds Jr., president of Reynolds Metals company, says he is not concerned over whether government or private utilities produce electricity.

Speaking of President Eisenhower's new power policy while visiting in Portland yesterday, Reynolds said, "if the policy results in expansion of power production, it's good. If it doesn't, it's bad."

Company Needs More Power
He said more power is what his company needs. He wants to expand in the Northwest, but said a power shortage is blocking that.

Reynolds has spent \$12,000,000 to increase the capacity of the plant at Longview, Wash., on an oral promise for more Bonneville power, he said. But he said thus far BPA has refused to contract for firm electricity to assure the production.

"It wasn't really BPA's fault. It was the best assurance of power they could give us at that time," he said.

Trucking Firms Announce Merger

Oakland — (U.P.) — Officials of two of the West's largest trucking firms, Pacific Inter-Mountain Express and West Coast Fast Freight, Inc., have disclosed a merger of their two companies, pending Interstate Commerce commission approval.

A. K. Humphries, president of PIE, said yesterday that his firm has purchased all corporate stock of West Coast and certain affiliates, including System Tank Lines, Inc.

The companies will employ a combined total of more than 4000 employees and will operate more than 3000 local and long-haul trucks.

Both companies now operate as far east as Chicago.

Humphries also said the PIE had recently bought a 25-acre tract in the metropolitan Los Angeles area for construction of a \$1,500,000 terminal with office and shop headquarters.

Bridge or Tunnel

Link Under Discussion

Lisbon — (U.P.) — A government-appointed commission headed by the minister of works is studying the better means—bridge or tunnel—of linking Lisbon with the south bank of the Tagus. Except for the new Marshal Carmona bridge, 20 miles upriver, the only present link with the industrially-growing south bank is by ferry.
