

# Gen. Dean Due Home Tuesday

Berkeley, Calif. —(U.P.)—Nineteen "happy and nervous" members of Maj. Gen. William F. Dean's family gathered here today to wait together for the returning hero of Taejon.

The Congressional Medal of Honor winner, America's most famous prisoner of war in Korea, left Tokyo for the United States today. He is scheduled to

arrive at Travis Air Force Base northwest of San Francisco, tomorrow.

Dean's family, including eight children, will leave the 54-year-old general's home here in a motorcade for Travis a short time before the announced arrival.

**Happy and Nervous**  
It will be the first time many

of the children have seen Dean, notably his two grandchildren, Robert Dean Williams, 2 1/2, and Ann, seven months. Dean has been in the Far East for six years, almost three of them spent in the hands of the Communists.

"We're terribly excited and happy and nervous," said the general's wife, Mrs. Mildred Dean. "We're all in a turbulence and when we get up to Travis Field we'll be more so. We're bound to be."

The fighting general, commander of the U.S. 24th Infantry Division in the early holding battles of the war, was captured in August, 1950, after the Communists overran his outfit with the fall of Taejon.

His wife and Mrs. Elizabeth Dean, the general's mother, will travel to Travis in the same Army staff car that later will bring the general back to Berkeley.

**General to Retire**  
The remainder of the family, including Dean's 25-year-old daughter, June, and her husband Army Capt. Robert C. Williams, will go by private auto. With the Williams will be their two children, the general's grandchildren.

Dean plans to retire from the Army after 30 years of service.

In a farewell ceremony before leaving Tokyo, Dean received a salute from an honor guard at Gen. Mark W. Clark's Far East headquarters.

# Good Citizenship Keystone Of Girl Scouting Movement

(Editor's Note: This is the first in a series of articles on Girl Scouting submitted to The Mail Tribune by officials of the United Medford Crusade.)

A ten year old made this wise statement: "A good citizen is a person that's proud he's what he is. He knows he's got something that helps him be better than if he never had it. Citizenship makes it so he has rights, but he has to keep on working to make sure they'll stay and get better. He has to work with other people who want rights like most people want them. He likes to live in this country. He likes to live in the world too."

Our country is strong and great because our citizens make it so. By supporting Youth organization which emphasize good citizenship, we are helping guarantee, that the deep seated greatness of our country will continue.

As the ten year old said, we have to keep working, there is no letting up or resting on the cars.

Girl Scouts begin this citizenship program at the age of seven and continue on thru 17. After this great age these young women have reached the age when they are old enough to begin giving service as leaders back to other growing girls.

All along the way in the Girl Scout program, community support makes the training of fine leadership available throughout the year. A headquarters office is maintained to keep the records of the individual achievements of these hundreds of girls. The local Girl Scout office is in the City Park at 500 East Main st.

# Trailerhouse Fire Fatal to Contractor

Reedsport —(U.P.)— Earl MacDonald, 57-year-old logging truck contractor, burned to death when fire destroyed his trailerhouse at nearby Winchester Bay early yesterday.

Two girls saw the flames shortly after 1 a.m. and awakened Thompson. Thompson said he got to the trailer door and could hear MacDonald moaning, but could not enter because of the intense heat.

A plastic tube developed for packaging toothpaste, shaving cream and oil paints, is said to be so strong that a 200-pound man can stand on it without rupturing the sides or seams. The tubes cost about the same as those now in use, but it is said to be economical because the contents won't be wasted by bursting of tubes in shipping.
