Foots Creek

Foots Creek—There was good attendance at the card party held at Community hall September 25.

Mr. and Mrs. Charles McLallen visited Mr. and Mrs. Joe Thomas of Medford Saturday. Mrs. Thomas had recently returned home by plane from a hospital in Bellview, Ill., where she had been confined sometime from injuries received in an automobile accident.

Mr. and Mrs. Warren Evans of Portland, who spent two weeks vacation visiting friends and relatives in Medford, and Rogue River, called on friends here. They both lived here for a number of years.

A number from here attended the auction sale at the home of Mrs. Parken Pugh on Evans Creek September 26.

Mr. and Mrs. Lee Kille of Rogue River visited friends here September 26. They had returned home from a two weeks vacation with her mother, Mrs. George Mercer of Whiting, Iowa. Enroute they visited her sister and family at Osage, Wyo.

Mrs. Glenn Chase entertained a group of friends and neighbors at a plastic party September 24. Mrs. Della Gregg was demonstrator.

Mrs. Loretta Robertson underwent surgery at a Grants Pass hospital September 27.

Mr. and Mrs. Harold Parker and daughter Krissey, took his mother, Mrs. Mary Parker, of Los Angeles, who has spent the past two weeks with them, to Klamath Falls September 27, where she will visit relatives. She will return home from there.

A water faucet located near the poultry range is one of the best ways to save steps when it's chicken-watering time.

Hotel Will Combine Hotel, Motel Features

Rochester, N.Y.—(U.P.)—A new hotel—combining the better features of the roadside motel and the luxurious city hotel—will be erected here at a cost of \$1,500,000.

Harper Sibley Jr., 26-year-old sponsor of the project, said the building will be only two stories high but will have 140 rooms on a 2½ acre plot. The rooms will accommodate two or three persons. Escalators will go to the second floor.

In a separate building there will be a restaurant for 130 persons and a cocktail lounge for 70.

Dead line Sunday Classified is at 10:00 a.m. Monday and Tuesday; other days 5:30 previous day

SMOKING AND ANGINA PECTORIS

Whatever effect smoking has upon blood pressure is a highly technical question upon which the physiologists and laboratory research investigators seem forever at odds. So far as popular ideas of high blood pressure and low blood pressure may be concerned it is of little moment.

The question which should concern every smoker is, in my opinion, what effect anoxia has upon capillary circulation, for it is in the capillaries that the vital interchange of oxygen and carbon dioxide between blood and cells of the tissues and organs takes place.

Anoxia (want of oxygen in the cells and tissues of the body) due to gassing with carbon monoxide in the smoke is the harmful factor of smoking, in my opinion, and I believe nicotine has nothing to do with the ill effects of smoking. If nicotine were actually as poisonous as the old timers considered "lethal,"

By capillaries I mean the spaces between tissue cells through which the blood oozes like water through a sponge. Do not confuse the capillaries with arterioles, the finest blood vessels, many so fine that they are scarcely visible except under the microscope, but all having walls the same as the larger arteries and veins have. Nobody has ever isolated a capillary vessel for the simple reason that there are no such vessels. You can't very well isolate an empty space, can you, Professor?

The blood oozing through the capillaries is under pressure, else it wouldn't seep through, but just stagnate. This capillary pressure depends in part on the contraction or relaxation of the walls of the arterioles (smallest arteries conveying blood to the capillaries). In some individuals excessive smoking causes a kind of spasmodic contraction of the arterioles and hence the delivery of less than the normal amount of blood to the capillaries. The

victim notices cold fingers or toes or hands or feet. This is a timely warning, not to smoke less but to stop smoking for at least four months and see whether it is still possible for vital cells already destroyed or irreparably damaged by anoxia can still be regenerated or replaced by new cells. Don't deceive yourself about getting the nicotine out of your system. That takes a few hours, if there is any nicotine in your system. But regenerating nerve cells damaged or destroyed by anoxia due to carbon monoxide in tobacco smoke takes months, if it is possible, months of absolute abstinence from smoking.

QUESTIONS & ANSWERS
Allergic Sensitivity
Many thanks for suggesting increase.

ed calcium intake for my husband's allergy He has gotten through the hay fever season with little discomfort so far and enjoys much better general health. (Mrs. R. L.)
Answer—On written request (no clipping, please) any reader who provides stamped, self-addressed envelope may have the pamphlet RELIEF FOR ALLERGY. Mrs. R. L. says her husband eats lots of cheese, any and all kinds—an excellent way to boost the calcium intake.
Thanks from a Policeman
Your advocacy of total abstinence is doing much good. Your teachings have the ring of authority. Keep up the good work. (L. A.)
Answer—Thank you, sir. I am appalled by the lack of approval or support by parents, teachers and the clergy. I'm getting frightened by the enormity of the drinking evil in America.
Don't Tell the Doctor
I work in a doctor's office, and many, many people tell me they read your column regularly and they follow your prescriptions too. (R. N.)
Answer—If your boss hears about it you'll be out on your ear. Don't ever mention my name to a busy doctor. raises blood pressure.
Protected 1953 by John F. Dille Co.

Autoist Vows To Call Garage if Car Quits

Rochester, N.Y.—(U.P.)—James H. Jones, 26, has vowed to abandon his auto and call a garage if his car ever stalls again.
Jones stalled in traffic here and received a push from a stranger. The pusher increased speed and Jones became alarmed and slammed on the brakes. His car sideswiped a parked car, brushed a pedestrian, sideswiped another, went over a curb and hit a light pole.
While waiting for an ambulance to help the pedestrian, Jones' wife fainted from the nightmare ride.

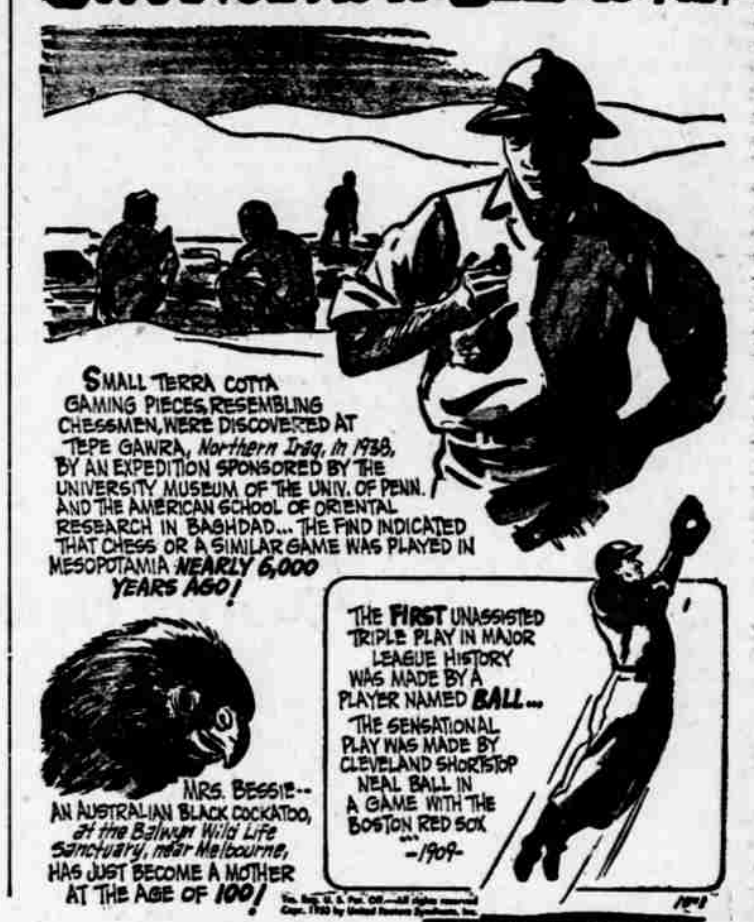

The speedy pusher? He disappeared.

Personal

To Women With Nagging Backache

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Ask for new, large, economy size and save money. Get Doan's Pills today!

STRANGE AS IT SEEMS

SMALL TERRA COTTA GAMING PIECES RESEMBLING CHESSMEN WERE DISCOVERED AT TEPE GAWRA, Northern Iraq, in 1933, BY AN EXPEDITION SPONSORED BY THE UNIVERSITY MUSEUM OF THE UNIVERSITY OF PENNSYLVANIA AND THE AMERICAN SCHOOL OF ORIENTAL RESEARCH IN BAGHDAD. THE FIND INDICATED THAT CHESS OR A SIMILAR GAME WAS PLAYED IN MESOPOTAMIA NEARLY 6,000 YEARS AGO!

THE FIRST UNASSISTED TRIPLE PLAY IN MAJOR LEAGUE HISTORY WAS MADE BY A PLAYER NAMED BALL... THE SENSATIONAL PLAY MADE BY CLEVELAND SHORER NEAL BALL IN A GAME WITH THE BOSTON RED SOX—1904.
