

LEAVING ST. MATTHEW'S CATHEDRAL, Washington, following marriage, Senator and Mrs. Joseph R. McCarthy hold hands as they sit in automobile. The Wisconsin Republican's bride is the former Jean Kerr, beauty contest winner, who once worked in his office. (International)

On The Side

By E. V. Durling

(Distributed by King Features Syndicate, Inc.)

Is your wife a petite or cute little type? If so, the opportunity is at hand for her to really get into the fashion plate class. Am reliably informed that the designers and manufacturers, finally recognizing the fact that women under 5 feet are in the majority, are going to make this a small women's year. Women 5 feet 4 or under will get a special break. Even Dior has mannequins measuring 5 feet 4 showing some of his top items.

Passing By
Elroy "Crazylegs" Hirsch. Brilliant professional football player. An alumnus of the University of Michigan. Hirsch was the first Michigan athlete to win four varsity letters in one year, in football, basketball, baseball and track. . . . Joe Smith, veteran comedian. Joe and his partner Charlie Dale have been together fifty-five years. Believe that is the record for stage partnerships. For many years they appeared with and produced one of the most hilarious acts in vaudeville history, namely the Avon Comedy hour.

Wild Women
Girls at women's colleges drink more strong liquor than coeds. So recent research indicates. It was ever thus. I recall when I was being educated in New England that the students at the girls' colleges were much wilder in every way than the coeds. This was especially true at a girls' college not far from Amherst, Mass. I mention no names.

Sidelights
Prof. Alfred Kinsey's first published work was titled "What the Birds Do in the Rain" . . . The term "Venus" is rather carelessly applied to many females. The only women rating this description are those having the measurements of Venus de Milo, which are as follows:

bust, 35½, waist, 28; hips 36½ . . . An expert on aviation questions my statement that Mme. Jacqueline Auriol of France has flown a plane faster than Jacqueline Cochrane. I believe I am right. Mme Auriol has flown a plane at a speed of 683 miles an hour.

Horoscopes
Are there horoscopes for horses? Has any stargazer ever picked winners that way? The celebrated stargazer, Evangeline Adams, believed in horoscopes for dogs, cats and horses. She claimed to have made a horoscope of one of her dogs which showed it would be killed in an accident. The dog was run over by a truck. While Miss Adams didn't make a practice of reading horoscopes of race horses with a view to picking winners, she did predict the victory of one thoroughbred for an owner, who was one of her clients. I understand this horoscope suggested a change of jockeys. Seems, according to Miss Adams, the horse and his regular jockey were not astrologically compatible.

Marrying Record
Ava Gardner has been married three times. Lana Turner four times and Rita Hayworth four times. All these cinema luminaries are under forty. The record for film stars for the most marriages at the youngest age is held by the foreign star, Eva Bartok. She is 24 and has been married three times, is planning a fourth marriage.

Commuters
A commuter has been described as "a man who spends his life riding to and from his wife." An apt description. The service offered commuters in the New York and New Jersey area is terrible. It would seem these regular customers would rate streamlined, air-conditioned trains with reserved seats and

Heart Disease Victory in Sight

Washington — (U.P.) — The National Heart Institute said today that many medical authorities are now confident the battle against most heart diseases can be won in the next 25 years. Institute officials gave this encouraging report to the House Commerce committee as it opened hearings on major diseases and what's being done about them.

The old idea that the nation's number one killer must be considered "inevitable and unquarable" has been replaced by a "new philosophy," they said. This holds that the disease can be beaten.

"On the part of many medical authorities and scientists," the institute said, "there is today confidence that within the next quarter of a century the nation can master much, if not all, of the untimely death and disability caused by the major types of heart diseases."

SERVICE DELUXE
Omaha — (U.P.) — The menu of a restaurant near the livestock yards in South Omaha carried the following notation today:

"We will serve your drink in a coffee cup if your boss or client is at the next table."

parlor cars. Some of the cars on the New Jersey routes look as if they had been used for a half century.

Asking
Queries from clients. Q. My brother-in-law says more flags, including Star Spangled Banners, are made in Brooklyn than in any other place in the country. How about that? A. Couldn't say definitely. However, I believe Philadelphia tops the country in flag making, but you know Brooklyn. It figures in everything. Most of the flags for our armed forces are made in Brooklyn.

Most Closures Will Be Lifted

Salem — (U.P.) — Gov. Paul Patterson said today that nearly all regulated or permit closures in western Oregon will be lifted effective at midnight tonight, a move which will open most of the state to deer hunters who take to the woods Saturday.

Only areas which may not be affected are in the Rogue River national forest and a small area in the Prospect-Butte Falls region. However, it was indicated that the areas might be opened in time for deer season if rains continue.

Hunters in eastern Oregon will encounter few restricted areas, forestry officials said. They said the only exceptions were small slash and operating areas in the Deschutes national forest and the Summer lake rim of the Fremont national forest. Some restrictions also were expected to continue in the Klamath area.

Funds Available For Dalles Dam

Portland — (U.P.) — An additional \$9,000,000 has been made available for The Dalles dam expenditure ceiling for the fiscal year 1954. Col. Thomas H. Lipscomb, Portland district engineer, said today.

He said it would provide sufficient funds for the year to permit construction to progress on a schedule to provide power on the line in 1957 as previously planned.

Under the previous ceiling, Col. Lipscomb said the first two power units at The Dalles dam

Around Hollywood

Hollywood — (U.P.) — Red Skelton, who staged a successful comeback on television this week, vowed today he's taking his work easier this season because his "double stomach" is back where it started.

Last season the red haired comic landed in the hospital for a serious operation to make his two stomachs into one.

But when he returned to work last spring, "I started getting sick again and now my stomach is back to where it was."

"I'm giving up radio and movies for the time being, at least six months, and I'll take things easier. I'll still do pratfalls, but not so many or so hard."

Ratings Took Nosedive
After his second illness last spring, he quit TV and his film shows were released. But his ratings took a nosedive, the critics said, because his antics were on film. So this year he's switched to CBS with a live show, only, not as wearing on him as before.

So far the critics have applauded his different format of more heart and less slapstick.

might be delayed in power production one year until November, 1958.

The additional money will increase the allowable expenditure for the dam during the 1954 fiscal year to \$26,300,000.

MEDFORD (OREGON) MAIL TRIBUNE—NINE

Funeral Drivers Ask Shorter Work Week

Portland — (U.P.) — Portland's AFL Hearse and Funeral Escort drivers union meets today to negotiations deadlocked over the union's demand for a shorter work week.

The union has authorized a strike in order to get its demand for a 54-hour week and a five per cent boost in take-home pay. A. Campbell McGill, secretary of the Embalmers and Assistants union, said the Oregon Funeral Directors association which represents the undertakers had not acted on the union's demand. About 30 drivers and 50 embalmers and assistants are involved in negotiations.

WEATHER

By UNITED PRESS
Northern California: partly cloudy today with light showers this morning from about Santa Cruz and Marysville north. Generally fair tonight and Friday but coastal cloudiness.

Dead line for Sunday Classified is at noon Saturdays.

OILMAN'S WIDOW DIES

Beverly Hills, Calif. — (U.P.) — Mrs. Edith Lloyd, 55, widow of a Portland business property owner and oilman, died at her home here yesterday only three weeks after her husband died.

MILKMAN LATER

Portland — (U.P.) — Milkmen in the Portland area got up an hour later this morning to start their job at 6 a.m. under winter schedules which went into effect today.
