Famed Illustrator

Dies in New York

New York — (U.P.)—E. McKauffer, poster designer and illustrator of books, died in Lenox Hill Hospital Friday, 23 days after his obituary was printed by mistake in the Times of London.

Kauffer, a native of Great Falls, Mont., won wide recognition for his artistry in Europe before returning to the United States 14 years ago.

He began his career as a theatrical scene painter and one of his last projects was the painting of scenery for the famed Sadlers Wells Ballet.

MEN PAST 40

Troubled with GETTING UP NIGHTS

Pains in BACK, HIPS, LEGS

Tiredness, LOSS OF VIGOR

If you are a victim of these symptoms then your troubles may be traced to Glandular Inflammation. Glandular inflammation is a constitutional disease and medicine that give temporary relief will not remove the causes of your troubles. Neglect of Glandular Inflammation often leads to premature senility, and incurable malignancy.

The past year men from 1,000 communities have been successfully treated here at the Excelsior Institute. They have found soothing relief and a new zest in life.

The Excelsior Institute, devoted to the treatment of diseases peculiar to older men by NON-SURGICAL Methods, has a NEW FREE BOOK that tells how these troubles may be corrected by proven Non-Surgical treatments. This book may prove of utmost importance in your life. No obligation. Address Excelsior Institute, Dept. 7111, Excelsior Springs, Missouri.

California Herefords

Take Top Honors at PI

Portland — (U.P.)—A herd of Herefords from Bakersfield, Calif., Friday won the purple banner for the best 10 head of the breed in the Register of Merit event at the Pacific International Livestock Exposition here.

The California herd, owned by A. H. Karpe, was sired by the same bull and included the champion Hereford female, Duchess 150. Karpe was the only exhibitor in the two-day Hereford events to win a double championship. Reserve champion was shown by Eugene S. Selvage, Gilroy, Calif.

Karpe's herd sire was Baca Duke 2nd which Karpe bought five years ago for \$65,000, highest price ever paid for a bull up to that time.

Friday's top award was presented to Karpe by Mrs. Paul Patterson, wife of Oregon's governor.

In 1954 the International Association of Rattlesnake Hunters bagged nearly a ton of rattlesnake killers near Okeene, Okla. Much of the catch goes to biological laboratories for milking of venom, used in the manufacture of snakebite serum.

Dead line Sunday Classified is at noon Saturday 10 a.m. Monday for Monday; other days 5:30 previous day.

GETTING UP NIGHTS

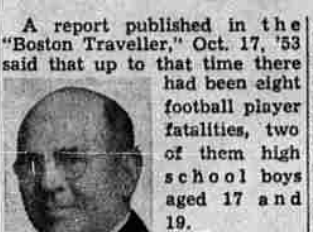

It worried by too frequent, burning or itching urination. Getting Up Nights. Backache, Pressure over Bladder or Stomach. Urine, due to common Kidney and Bladder Irritation, try OXYTRK for quick, gratifying, comfortable relief. Two, 500 OXYTRK tablets used in past 25 years have cured and relieved. Ask your doctor for OXYTRK under money-back guarantee. See how much better you feel tomorrow.

Your Health and Its Care

By DR. WILLIAM BRADY, M.D.

Readers should address inquiries to: William Brady, 263 El Camino, Beverly Hills, Cal.

HERO FOR A DAY

Dr. Brady

A report published in the "Boston Traveller," Oct. 17, '53 said that up to that time there had been eight football player fatalities, two of them high school boys aged 17 and 19.

How many boys have died for the old alma mater this season I have not yet learned, but whether any young lives have been sacrificed or not I beg to repeat what I said here a year ago:

"I tell you, parents, this (high school) burlesque of men's play is a vicious subversion of education."

Football is a grown man's game, and high school boys, even lanky ones, are not full-grown men.

Sometimes coaches and others who do not like my teachings assert that basketball is just as severe a strain on the high school boy's heart as football is, so why don't I inveigh against high school basketball.

I know of no scientific measurements to determine whether football or basketball is the greater strain, but no matter now. One thing at a time.

From such correspondence as I have had with high school principals I gather that some principals thoroughly disapprove of high school football, but they dare not speak out for fear they may lose their jobs.

I'd be just as timid, if I were a principal—school teachers today have to cater and toady to all sorts, and that's a sad commentary on our national morals.

It seems odd, doesn't it, that at this time of year, or a bit earlier in the season, it is the

custom in many cities to interrupt regular school session and march the entire student body to the auditorium for a general assembly, the sole object of which is to whip up a little synthetic enthusiasm and, when the boys and girls are sufficiently excited, to exact a contribution from as many as possible, to buy uniforms and other paraphernalia for the football team.

Who ever heard of devoting half of a school day to raising funds for any proper high school athletic activity?

As Dr. Charles L. Lowman, orthopedic surgeon, pointed out (California Parent-Teacher, Sept., '51), it is not so much the occasional strain, sprain or fracture which grows children sustains from too early participation in heavy activities. The injury that should concern parents as it does the orthopedic surgeon is "the gradual piling up of minute trauma to growth cartilages and joint structures from intense use under stress. The results of such trauma may not show till later years. Consequently, the necessary care may be neglected."

I, Brady, say (Dr. Lowman)

MOO-O-O-S and MUSINGS

We see where the Russians have banned the playing of such American folk music as boogie woogie.

We're going to do our part to boycott them by cutting out caviar from at least one meal a day.

does not) that the teen-age boy sometimes tries to conceal or belittle such injury lest the coach, players or cheering section think he is "chicken."

Having named Dr. Lowman as an authority on the question of sports for elementary and junior high ages, I should mention here that the "heavy activities" to which he refers are "football, basketball, wrestling, boxing, and pyramid-building."

Now, you coaches, coaches' wives, town sports, service club majorettes, reporters, helmet and shoulder guard makers, let me have it.

QUESTIONS & ANSWERS Love to Mother I know you must be tired of these words, but all I can say is, "God Bless You." Mother suffered dreadfully from itching... much treatment... finally specialist said she'd have to have operation to cost \$200 and hospital charges of about the same... I sent for your pamphlet on Pruritis

—within a month mother was free of suffering and has been in fine health since... (Mrs. G. H.) Answer—The pamphlet on Pruritis (not pruritis) is available to any one who asks for it in writing, signed, and enclosed stamped, self-addressed envelope. Pruritis means itching without apparent cause. Admittance, Eh? You are so adamant I'm almost afraid... I'm just an old bag eager to

change degeneration into regeneration. Please send me your pamphlet "Calcium and Rheumatism." I set a great kick out of your humor. Bless you and your good wife—the one who used to ride in the buggy with you on country calls... (Mrs. B. S. J.) Answer—My present wife used to do so, too. I'm an adamant as a used flannel poultice. The Calcium and Rheumatism pamphlet is available

signed, (is this adamant?) and provides stamped, self-addressed envelope. Rheumatism is just inidious degeneration or degeneration of joint tissues. Arthritis is inflammation or infection of joint of joints generally resulting from strain, strain or injury. For arthritis, consult a physician. Protected by John F. Dille Co.
