When preparing a surface for refinishing, remember to use crack filler for smoothing over the cracks or gouged places in floors, furniture or woodwork. Cracks in plaster should be filled with spackling compound or patching plaster.

There is a "quick-set" method for a flavored gelatin salad if you're interested in a real fast preparation. After the gelatin has been dissolved completely in one cup boiling water, add 8 to 12 ice circles or cubes and stir constantly until it begins to thicken. Remove the unmelted ice, pop into the gas refrigerator and chill until firm.

If you are fatigued don't eat a lot. Try, for example, a hot bowl of soup with toasted croutons. Fatigue gives you an abnormal appetite, so go easy.

A wax candle is handy for sealing bottles of medicine and beauty preparations when you're traveling.

One-half cup of coarsely chopped pecans when added to dumplings, provides a fresh variation for an old favorite.

Chances are, he'll grow up to think like his dad. For Pop's the hero... and the way he does things, the way he acts, is "the right way."

Think of that next time you're tired when it's time to go to church or

synagogue... and you'd like to grab forty extra winks. You can't blame him, years from now, if he hasn't faith in God... in life... in himself... if you haven't shown him where to look for it.
