Vocational Talks
Heard by Students

Approximately 65 Medford High school students have attended recent vocational conferences conducted by local business and professional people, according to school officials.

About 30 boys attended a conference at which John Parker, Crater Lake Motors, discussed opportunities in the auto mechanic trade. Parker outlined training necessary to enter the vocation and the prospects of those employed in it.

Some 35 girls attended a conference at which Mrs. Susan Monteith, Medford registered nurse, discussed her occupation. Mrs. Monteith described preparation required to be a nurse, nurse training, and the type of person likely to succeed in the profession.

Purpose of the conferences is to provide high school students with accurate knowledge of vari-

ous vocations which can best be supplied by those working in the vocation, school officials state.

Diabetes Detection
Program Announced

The Medford area phase of a national diabetes detection drive will start Nov. 14 with the opening of "Diabetes Week," it was announced Saturday by Dr. Martin L. Vorheis, local member of a state committee on diabetes. "Find the million unknown diabetics in the United States" is the theme of the yearly drive. During the campaign, public attention will be directed to the importance of early diagnosis and early, adequate treatment of the ailment.

The Oregon State Medical society, through its committee on diabetes, is again cooperating with the American Diabetes association in the annual project.

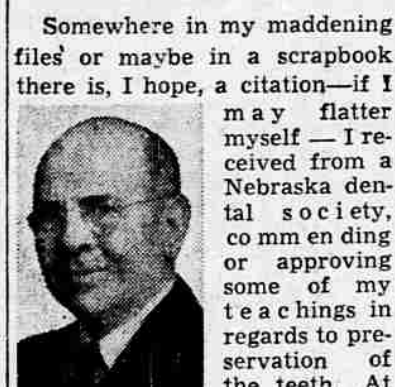

Dead line for Sunday Classified is at noon Saturday.

Your Health and Its Care

By DR. WILLIAM BRADY, M.D.

Readers should address inquiries to: William Brady, 263 El Camino, Beverly Hills, Cal.

I AM FLABBERGASTED

Somewhere in my maddening files or maybe in a scrapbook there is, I hope, a citation—if I may flatter myself—I received from a Nebraska dental society, commending or approving some of my teachings in regard to pre-ventive care of the teeth. At the time the dental society gave me the pat on the back the dentists had not become fully aware that I had quit brushing my teeth. The Nebraska dental society has not yet formally repudiated my teachings, but in the past decade I

seldom have heard an encouraging word from dentists in Nebraska or anywhere else.

In several throw-away publications, which seem popular with the dentists, I have been treated as the sponsors who sell glorified soap and trick brushes to the moron public, think I deserve.

Sept. 2, '54, a Michigan dentist wrote: "As for dental health, balanced diet, good thorough prophylaxis, plus rigid scaling of roots when indicated, and also periodic X-ray check-up of the teeth—then there wouldn't be such a loss of human teeth. I think you expound this type of treatment." (signed) D.D.S.

I had become so accustomed to unfriendly communications from dentists that this friendly note flabbergasted me.

In regard to scaling of roots and periodic X-ray films of the teeth (I do wish the dentist had not used the glib term "check-up," which like "shot," "define," and "rather" is affected by people who don't know what they're talking about), I'd defer, believe it or not, to the judgment

Cafeteria Service
Due at Domiciliary

Camp White—Arrangements are being made to install cafeteria service for members in the Domiciliary dining hall. The engineering division has completed placing the needed fixtures.

Cafeteria service is standard in most government hospitals, as in the armed forces. The kitchen and dining hall at Camp White were originally designed for this type of service.

When the VA moved into the station, the dining hall was arranged to feed the men at table, owing to the large number of handicapped veterans many of whom will be screened for continuing table service. The present corps of waitresses and kitchen help will be adequate to operate the new cafeteria service, the chief dietitian, Mrs. Franklin Girard, stated.

The schedule now calls for two meal periods three times a day for the 800 men in the domiciliary. A new schedule is being worked, and is expected to provide better economy and efficiency.

Don Pulley, chief cook in the dietetic service, has returned from a two weeks' training period at Vancouver hospital where the cafeteria system is employed.

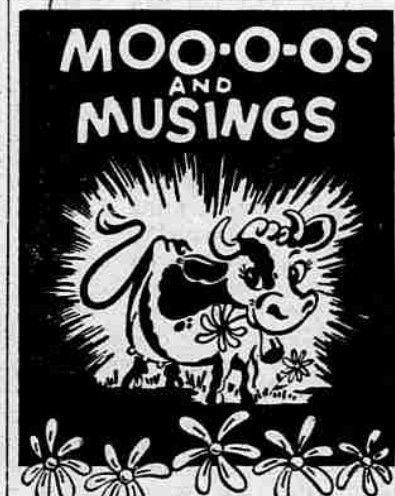

Typing Class Slated
At Phoenix School

Phoenix—Phoenix High school is offering a beginning typing class for adults on Tuesday evenings. Registration will remain open until Tuesday, Nov. 16.

Classes meet every Tuesday from 7 to 9 p.m. and will run for 10 weeks. Registration fee will be \$5 which will cover all expenses except a small charge for typing paper if it is purchased from the school.

There are still a few openings for this class. Interested adults may call the high school office for further information.

Washington—(U.P.)—The U.S. Chamber of Commerce said that for nearly two years factory employees' salaries have been rising seven times faster than the cost of living.

Former actress Anita Colby says middle aged women should find better use for their time and talents than wasting both on the pursuit of entertainment.

Like minding your own business, Anita?

YOUR MAIL TRIBUNE STATION

of my dentist. These are technical questions which the dentist is better qualified to answer, it seems to me, just as the physician is better qualified than even the smartest patient to judge whether an anesthetic is to be used and if so, which.

What the dentist means by "balanced diet" I don't know. What anybody means by "balanced diet" I don't know. Does anybody?

In No. 1, Little Lesson in the Ways of Health, the booklet **SAVE YOUR TEETH** (for which send 25c and stamped, self-addressed envelope) I give what seems to me to be the consensus of dental, medical, and nutrition authorities upon the diet that builds sound teeth and keeps 'em sound. Our everyday diet in America is not adequate for this

—it fails to supply enough calcium, phosphorus, and vitamin D.

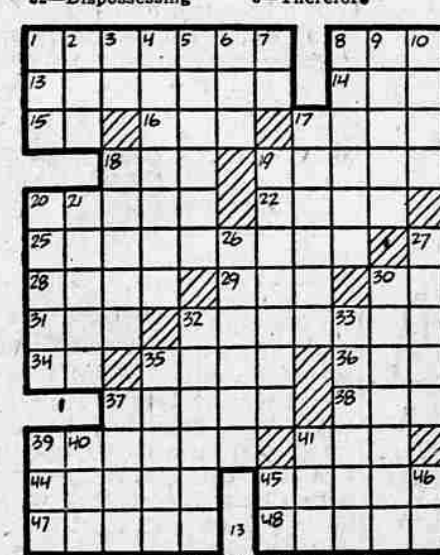

Even though I try to pick a quarrel with the dentist before he has finished what he had to say, I assure him that his letter has done much good. For one thing it reminds me that in my book, column, pamphlet, and belief, good dentistry is essential for health, comfort, vite, good looks, and longevity; and between rounds, so to speak, I love and admire all dentists for their contribution to the greatness of America.

QUESTIONS & ANSWERS
Boy Failed to Make the Team
High school boy here was found hanged. Neighbors said the boy's father sobbed that the boy had died because he failed to make the football team. (H. W.)
Answer—That's a sad happening, but I believe the boy's father denied he said so.
