

PREDICTS CHINESE RED STRIKE—Republican Senate Leader Wm. F. Knowland predicts that Communist China will strike again somewhere in Asia within one year. He says America "must have the will" to reply but warns against any American bluff, if, as he puts it, "we aren't ready to act."

Bonneville Line To Be Nation's Longest

Redmond —(U.P.)—Bonneville Power Administration's 176-mile, 345,000-volt transmission line from McNary dam to Vancouver, Wash., scheduled for completion late in 1955, will be the longest transmission line of its voltage in the nation, according to E. C. Starr, BPA chief engineer.

Starr, in an address before the Central Electric Cooperative, Inc., here last night, said the new McNary circuit would carry up to two and one-half times as much power as the present conventional 230,000-volt transmission lines, bringing up to 450,000 kilowatts of power to Portland and Vancouver load centers.

Starr said a similar circuit is under construction from Chief Joseph Peninsula load centers in Washington.

Miss Truman Wants Career As Wife

Los Angeles—(U.P.)—Margaret Truman said today she would "rather be a wife than a career girl" even though she traveled across the nation just to appear on a television show.

The daughter of the former president arrived here from New York by train yesterday and was met by comedian Jimmy Durante and showman Eddie Jackson.

Miss Truman, 30, said she had no marriage plans for the immediate future. She parried questions as to whether she would want in a man by saying, "I think it would be better to find someone who wants me."

"I hope some day that I will be as happily married as my mother and father," she added.

One of the few consumer items not affected by high prices is the book match. Today—as 50 years ago—most tobacco shops hand these out free to customers.

"Come to Life" IN THREE DIMENSIONS WITH VIEW-MASTER FULL COLOR PICTURES
