

Medford Attorneys Named to State Bar Committees

A number of Medford attorneys have been named to committees of the Oregon State Bar. Committee membership is assigned by a special committee, and approved by the board of governors.

As listed in the November issue of the Oregon State Bar Bulletin, Medford bar committeemen include:

Legal education — John R. Dellenback.
Corporation law — Frank P. Farrell.

Criminal law and procedure — Bernard P. Kelly.
Judicial administration, fourth district — Philip B. Lowry.
Juvenile court procedure and practice — James V. McGowan.
Lawyers placement — Edward Branchfield.

Legal aid — Robert B. Duncan and Cliff D. Ouellette.
Legal assistance to servicemen, fourth district — Manville M. Heisel.

Minimum fee schedules — Warren G. Lesseg.
Necrology — George M. Roberts.

Oregon State Bar building — Otto J. Frohnmayer and George M. Roberts.

Probate law and procedure — Tracy H. Crum.
Public service and information — William M. McAllister.

Minor and traffic courts — James K. Gardner, Ervin B. Hogan and Lynne W. McNutt.
Oregon Constitution — William M. McAllister.

Real estate brokers — John R. Dellenback.
Statute revision — Russell W. DeForest.

Taxation — Carl M. Brophy.
Unauthorized practice, fourth district — William E. Duhaime.

Grievance, fourth district — G. W. Kellington, Kent Blackhurst and Robert R. Dickey.

Trial, fourth district — Robert B. Duncan and Otto J. Frohnmayer.

More than 100,000 different kinds of sea shells are known and named. They range in size from the microscopic to some weighing more than 500 pounds.

RAISING HOPES FOR ACCORD with Russia, French Ambassador Louis Joxe (right) is quoted as reporting difference of opinion between Nikita Khrushchev (left), Communist party boss and Georgi Malenkov, Soviet premier, over peace talks with western powers. Malenkov is said to favor talks while Khrushchev believes nothing would be gained by meeting. (International)

Eugene Council Promises Study Of City Air Pollution Problem

Eugene—A packed audience of westside Eugene residents this week heard the Eugene City Council promise that serious and immediate study will be given to problems of air pollution here.

The residents were on hand to back up petitions they had submitted earlier protesting the pollution caused by falling sawdust particles in northwest Eugene. The sawdust, they claim, comes from sawmill burners.

The council, after discussing the issue at length, referred the petitions to its health and recreation committee, which will study the issue, then report back with a recommendation.

Victor Lindeen, leader of the anti-sawdust forces told the council that it will find that the problem is not whether "something should be done, but what can be done."

Lindeen asserted that waste burners at most of the mills are too small for the work they have to do. He argued that burner manufacturers have been calling him, and they say "at least 90 per cent" of the pollution can be halted with proper equipment.

"We've been taking the rap out, there for a long time," Lindeen added. "Now that the mills

are in the city, I think something should be done."

League Reports

Mrs. Charles Ford, president of the League of Women Voters said her group has spent the last three years working on some solution to the problem in Eugene. She said the league has copies of ordinances from other cities regulating burner operations, and these are available to the city as an aid to adopting one here.

Mrs. Ford read a summary of league committee conclusions following an air pollution study here. She said the committee found that the smoke and pollution problem in Eugene is severe. As much as 30 tons of soot and dirt fell on each square mile of the city during one winter month.

Roof Cleaning Job

No particular mill or factory can be blamed for this, the report indicates, because the contamination is a composite from all of them.

Other persons followed Mrs. Ford in a series of reports on westside pollution problems.

One man, who does maintenance work for some business firms, told the council that one of his regular duties is to shovel the sawdust from the roof of the Pik 'n Pak Market. This is done every three weeks.

Others complained of ruined house painting projects, and constantly clogged rain spouts.

Joe Long, owner of a motel, said he has trouble keeping units rented because of the falling sawdust.

Mayor V. Edwin Johnson said pollution is becoming a very serious problem here — not only that brought by the rain of sawdust particles on west side homes. The matter, he said, will be considered and action taken as soon as possible.

The mayor added that in do-

ing this the city will find an ordinance that's suitable, and get it passed.

George Owen, a city councilman and sawmill owner, said he will lead the mill owner forces in trying to cut down on the air pollution caused by them.

He admitted that his mill is "one of the guilty" and blamed the trouble on fine powder in sawdust. Owen said he believes the problem can be solved if mills will not burn their sawdust. "It's a problem I'm sure we should do something about," Owen commented.

ASC Community Committee Vote Slated Next Week

Ballots to elect new community committeemen in seven Jackson county divisions of the Agricultural Stabilization and Conservation program will be mailed on Monday, Nov. 29, by the local ASC office, according to Delmar Smith, county ASC committee chairman.

Any commercial farmer not receiving a ballot should call at the office in the county courthouse on the first floor to obtain one. Ballots must be returned by 5 p. m., Dec. 10.

Five persons will be elected in each community to hold office during 1955. Candidates from the communities are:

Candidates Listed
Applegate, R. J. Tolle, A. D. Christensen, Melvin Rowden, L. C. Offenbacher, A. E. Street, Clarence Buck, James F. Corson, Frank Preston Jr., W. H. R. Nostrand, and Edmund Ramsay.
Ashland, Don Nichols, Joseph Rapp, Chet Zediker, Jack Spangler, Gilbert Hill, Joe Duggan, Harry Paschke, Jim Twedell, R. R. Lytel, and Jim Warren.

Central Point, A. T. Lathrop, Scott Hamilton, Ray Vogel, Robert Wolf, C. F. Smith, Cleo Young, M. A. (Bud) Adams, Lloyd Hammond, Homer Jeffries and Wilton White.

Eagle Point, Darrel Stanley, Dale Bush, John N. Winton, R. R. Bitterling, Victor Gardner, William Walch, Merton Bradshaw, Ira Woolfolk, R. Bruce Grieve, and Lester H. Wertz.
Jacksonville — Medford, Otto Niedermeyer, Warren Loffler, Paul Culbertson, Andrew E. Stevens, Melvin Lattie, Mervin Hixon, Olin V. Poe, Ralph Swingle, Roscoe Roberts, and Dee Hendrickson.

Rogue River, Sam B. Smith, Harold Wood, Vern Orr, Charles White, Ferdinand Streitz, Glenn Chase, Walter Karworm, Frank E. Hall, J. E. Keeney, and Charles Foote.

Sams Valley, Jerry Fitzgerald, Burle Burrenson, Albert Strauss, Hubert Davidson, C. W. Duggan, Roy E. Carley, Murrell Quackenbush, Abe Halfhill, Edwin H. Taylor, and Ray Ryan.

Christmas Seal funds contributed by the American people support tuberculosis prevention and control projects of 3,000 local and state associations affiliated with the National Tuberculosis Association.

The first Christmas Seal Sale in the world was held in Denmark in 1904.

Boys School Yule Fund Drive Starts

Woodburn — A \$100 check, presented to the Christmas gift fund at McLaren School for Boys, recently by the Oregon State Employees association, was the first to be made this year. The fund, made up of voluntary contributions by groups and individuals throughout the state, is used to buy Christmas presents for boys at the school who otherwise would receive nothing.

Presents as well as money are accepted, and may be sent to C. Stewart Clarke, chairman of the fund committee and chief parole officer at the school.

"The citizens of Oregon have been generous in the past, and we hope they will help us again this year when the need is greater than ever," Clarke said.

Portland, Me. — (U.P.) — It was an old story for Charles A. Collins, 55, of Auburn when he started serving 30 days in jail on a conviction for intoxication. It was his 131st arrest for the same offense.

Descriptions of diseases of elephants in old Hindu literature show that tuberculosis was common among the giant pachyderms in India as far back as 2000 B.C.

Excavations in Egypt revealed in one area so many mummies with evidence of tuberculosis that archaeologists believe an ancient sanatorium may have existed there.

One of the first groups organized to fight TB in the United States was the Pennsylvania Society for the Prevention of Tuberculosis founded in Philadelphia in 1892.
