U.S. 'Soldier of Fortune' Ordered into Swiss Jail

Geneva, Switzerland — (U.P.)—Harold (Whitey) Dahl, American pilot and soldier of fortune, was convicted Saturday of stealing nearly \$35,000 in gold bullion on a flight from Paris to Geneva and was sentenced to two years in prison.

A jury of five Swiss housewives and one man took 90 minutes to reach the verdict against Dahl, who 17 years ago escaped a death sentence in the Spanish Civil war when his beautiful blonde wife appealed to Generalissimo Francisco Franco.

Barred from Nation

The court also ordered Dahl, now 45, barred from the country for 10 years after his prison term.

Dahl, tall and balding and smartly dressed in a grey lounge suit, heard the verdict with the same composure he had displayed throughout the three-day trial.

"I am innocent," he said. He has three days to appeal to the high court in Lausanne.

Held Three Months

The three months he has been in custody will be deducted from the prison term.

In 1937 Dahl was shot down and captured while flying for the Loyalists in the Spanish Civil war. He was sentenced to death but his wife, Edith Rogers Dahl, a night club entertainer interceded with Franco. She sent him her picture and Franco granted Dahl a reprieve. Action by the state department won his release in 1940.

The Dahls separated shortly after his return to the United States. He later flew with the Royal Canadian Air Force in South America but was drummed out of service after being convicted by a courtmartial of "improperly disposing" of some \$700 worth of equipment.

Machine Harvesting Aids Sugar Production

San Francisco — (U.P.)—Western Sugar Beet Producers Inc. reported Friday production has reached almost 22 per cent of the nation's sugar needs, primarily because more than 95 per cent of this year's harvesting was done with machine.

The U. S. Department of Agriculture has figured mechanization of beet sugar farming from 1950 to 1952 saved more than 3,000,000 hours of manual labor.
